NOTE – This clause will be applied to Spacecraft Processing Ordered Task (SPOT)

1. In the event the Government decides to exercise its right to terminate all or part of a SPOT under FAR 52.212-4 (l), "Termination for the Government's convenience", it is agreed in advance that the Contractor, after receipt of a written notice of termination, will have satisfied all obligations and discharged all duties required by FAR 52.212-4 (l), *Termination for the Government's convenience*, the Contractor will forgo the remaining milestone-based payment(s) affected by the termination, in accordance with Table 2.18-1, *Spacecraft Processing Service Milestone Schedule.*

2. The parties agree that by virtue of the Cumulative Termination Liability (% Contract Value) specified in Table 2.20-1, any and all claims for equitable adjustment as a result of the termination are fully satisfied and discharged. The parties agree that this settlement represents fair compensation for Contractor effort accomplished for the terminated portions of the contract and that the terms as stated herein represent full and final settlement between the parties. The parties agree that the above settlement shall represent the total amount to be paid to the Contractor without agreeing on or segregating the particular elements of costs or profits comprising this amount. The agreed upon amount shall be payable in full no later than thirty (30) days after receipt of the written notice of termination.

3. The provisions of this Contract clause shall be implemented upon award of the SPOT. The provision of this Contract clause shall in no way be deemed to limit the rights of the Government under FAR 52.212-4(m), "Termination for Cause." In the event the Government exercises its rights under FAR 52.212-4(m), "Termination for Cause," the provisions of this contract clause will not apply.

2.5 FAR 52.216-18 ORDERING (AUG 2020)

(c) A delivery order or task order is considered "issued" when—

(1) If sent by mail (includes transmittal by U.S. mail or private delivery service), the Government deposits the order in the mail;
(2) If sent by fax, the Government transmits the order to the Contractor's fax number; or
(3) If sent electronically, the Government either—

2.6 FAR 52.216-19 ORDER LIMITATIONS (OCT 1995)

(a) *Minimum order.* When the Government requires supplies or services covered by this contract in an amount less than $10,000*,* the Government is not obligated to purchase, nor is the Contractor obligated to furnish, those supplies or services under the contract.

(b) *Maximum order*. The Contractor is not obligated to honor --

(1) Any order for a single item in excess of $15 million;
(2) Any order which would result in a cumulative ordered value of all issued orders in excess of $100 million; or
(3) A series of orders from the same ordering office within 180 days that together call for quantities exceeding the limitation in subparagraph (b)(1) or (2) of this section.

(c) If this is a requirements contract (*i.e.*, includes the Requirements clause at subsection 52.216-21 of the Federal Acquisition Regulation (FAR)), the Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum-order limitations in paragraph (b) of this section.

(d) Notwithstanding paragraphs (b) and (c) of this section, the Contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 30 days after issuance, with written notice stating the Contractor’s intent not to provide the item (or items) called for and the reasons. Upon receiving this notice, the Government may acquire the supplies or services from another source.

(End of Clause)

2.7 FAR 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(a) This is an indefinite-quantity contract for the supplies or services specified and effective for the period stated in the Ordering clause. The quantities of supplies and services specified in the Schedule are estimates only and are not purchased by this contract.

(b) Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. The Contractor shall furnish to the Government, when and if ordered, the supplies or services specified in the Schedule up to and including the quantity designated in the Schedule as the "maximum." The Government shall order at least the quantity of supplies or services designated in the Schedule as the "minimum."

(c) Except for any limitations on quantities in Order Limitations clause, or in the Schedule, there is no limit on the number of orders that may be issued. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, the Contractor shall not be required to make any deliveries under this contract beyond fifteen years from date of award.

(End of clause)

2.8 NFS 1852.225-70 EXPORT LICENSES (FEB 2000)

(a.) The Contractor shall comply with all U.S. export control laws and regulations, including the International Traffic in Arms Regulations (ITAR), 22 CFR Parts 120 through 130, and the Export Administration Regulations (EAR), 15 CFR Parts 730 through 799, in the performance of this contract. In the absence of available license exemptions/exceptions, the Contractor shall be responsible for obtaining the appropriate licenses or other approvals, if required, for exports of hardware, technical data, and software, or for the provision of technical assistance.

(b.) The Contractor shall be responsible for obtaining export licenses, if required, before utilizing foreign persons in the performance of this contract, including instances where the work is to be performed on-site at vicinity's launch site, where the foreign person will have access to export-controlled technical data or software.

(c.) The Contractor shall be responsible for all regulatory record keeping requirements associated with the use of licenses and license exemptions/exceptions.

(d.) The Contractor shall be responsible for ensuring that the provisions of this clause apply to its subcontractors.

(End of Clause)

2.9 NFS 1852.232-77 LIMITATION OF FUNDS (FIXED-PRICE CONTRACT) (MAR 1989)

__NOTE__: This clause will be included in any resultant incrementally funded Spacecraft Processing Ordered Task (SPOT) to reflect the funds presently available to cover the processing services.

(a.) Of the total price of items, the sum of $**TBD** on SPOT is presently available for payment and allotted to this contract. It is anticipated that from time to time additional funds will be allocated to the contract as required by the schedule.

(b.) The Contractor agrees to perform or have performed work on the items specified in paragraph (a) of this clause up to the point at which, if this contract is terminated pursuant to the Termination for Convenience of the Government clause of this contract, the total amount payable by the Government (including amounts payable for subcontracts and settlement costs) pursuant to paragraphs (f) and (g) of that clause would, in the exercise of reasonable judgment by the Contractor, approximate the total amount at the time allotted to the contract. The Contractor is not obligated to continue performance of the work beyond that point. The Government is not obligated in any event to pay or reimburse the Contractor more than the amount from time to time allotted to the contract, anything to the contrary in the Termination for Convenience of the Government clause notwithstanding.

(c.)

(1) It is contemplated that funds presently allotted to this contract will cover the work to be performed until **TBD** on SPOT.

(2) If funds allotted are considered by the Contractor to be inadequate to cover the work to be performed until that date, or an agreed date substituted for it, the Contractor shall notify the Contracting Officer in writing when within the next 60 days the work will reach a point at which, if the contract is terminated pursuant to the Termination for Convenience of the Government clause of this contract, the total amount payable by the Government (including amounts payable for subcontracts and settlement costs) pursuant to paragraphs (f) and (g) of that clause will approximate 75 percent of the total amount then allotted to the contract.

(3)

(i) The notice shall state the estimate when the point referred to in paragraph (c)(2) of this clause will be reached and the estimated amount of additional funds required to continue performance to the date specified in paragraph (c)(1) of this clause, or an agreed date substituted for it.

(ii) The Contractor shall, 60 days in advance of the date specified in paragraph (c)(1) of this clause, or an agreed date substituted for it, advise the Contracting Officer in writing as to the estimated amount of additional

funds required for the timely performance of the contract for a further period as may be specified in the contract or otherwise agreed to by the parties.

(4) If, after the notification referred to in paragraph (c)(3)(ii) of this clause, additional funds are not allotted by the date specified in paragraph (c)(1) of this clause, or an agreed date substituted for it, the Contracting Officer shall, upon the Contractor's written request, terminate this contract on that date or on the date set forth in the request, whichever is later, pursuant to the Termination for Convenience of the Government clause.

(d.) When additional funds are allotted from time to time for continued performance of the work under this contract, the parties shall agree on the applicable period of contract performance to be covered by these funds. The provisions of paragraphs (b) and (c) of this clause shall apply to these additional allotted funds and the substituted date pertaining to them, and the contract shall be modified accordingly.

(e.) If, solely by reason of the Government's failure to allot additional funds in amounts sufficient for the timely performance of this contract, the Contractor incurs additional costs or is delayed in the performance of the work under this contract, and if additional funds are allotted, an equitable adjustment shall be made in the price or prices (including appropriate target, billing, and ceiling prices where applicable) of the items to be delivered, or in the time of delivery, or both.

(f.) The Government may at any time before termination, and, with the consent of the Contractor, after notice of termination, allot additional funds for this contract.

(g.) The provisions of this clause with respect to termination shall in no way be deemed to limit the rights of the Government under the default clause of this contract. The provisions of this Limitation of Funds clause are limited to the work on and allotment of funds for the items set forth in paragraph (a) of this clause. This clause shall become inoperative upon the allotment of funds for the total price of said work except for rights and obligations then existing under this clause.

(h.) Nothing in this clause shall affect the right of the Government to terminate this contract pursuant to the Termination for Convenience of the Government clause of this contract.

(End of Clause)

(End of Clause)

2.11 ORDERING PERIOD

The ordering period of this contract was awarded as a 5-year period, with an additional 5-year option. The Government has exercised the additional 5-year ordering-period; thereby, the contract's overall effective ordering period has been established as 10-year ordering period that expires on February 1, 2033.

2.12 TASK ORDERING PROCEDURES

Types of Task Orders. There are two types of task orders that may be issued under this contract. The first type is a Spacecraft Processing Ordered Task (SPOT). Any required services related to specific spacecraft processing will be included in the SPOT. The second type will be for items not associated with spacecraft processing and items not related to specific spacecraft processing will be obtained via other task orders (OTO).

a. Spacecraft Processing Ordered Task (SPOT) as described in Section 2.15.
b. Other Task Order (OTO) as described in Section 2.16.

2.13 SPACECRAFT PROCESSING ORDERED TASK (SPOT)

These orders will provide facilities and services to facilitate and allow the spacecraft/launch vehicle organizations to conduct the processing and integration activities in preparation for mating the spacecraft with the launch vehicle near the LSP designated launch site.

2.13.1 REQUIREMENTS FOR COMPETITION

The Government will provide all contract holders a fair opportunity to be considered for task orders issued under this contract based upon the specific task order requirements, unless it is determined that one of the exceptions to the fair opportunity process applies as listed under FAR 16.505(b)(2).

2.13.2 REQUEST FOR PROPOSAL (RFP)

The SPOT RFP will provide instructions regarding the level of detail required in the proposal and specific information unique to a Spacecraft processing service. The SPOT RFP will also provide the required method of submission e.g., electronic and/or paper copy, basis upon which selection will be made, and, if applicable, the relative importance of the evaluation factors as described in FAR 15.101-1(b). Prior to the issuance of an RFP, exchanges and fact-finding may take place with the existing contractors.

2.13.2.1 PROPOSAL REQUIREMENTS

SPOT Proposals shall contain all required information and be submitted as directed in the RFP. Untimely proposals will be treated as a late proposal in accordance with FAR

52.212-1(f), Late submissions, revisions, and withdrawals of Offerors. Proposals shall clearly state their compliance with the contract terms, statement of work, and all specific requirements contained in the RFP. Only facilities already on contract may be proposed.

Companies who decide not to submit a SPOT proposal shall provide the Contracting Officer notification 5 days after RFP release. The notification shall include a brief rationale for not submitting a proposal.

Proposed prices shall not exceed associated NTE amounts in Attachment A.2, *SPOC Price List*. Other than certified cost or pricing data may be requested, if necessary, to support a price reasonableness determination.

2.13.2.2 PROPOSAL EVALUATION

A best value award decision will be made for all competitive task orders in accordance with FAR 16.505(b) using the selection process as described in the task order RFP. The evaluation factors and significant subfactors that establish the requirements of acceptability shall be set forth in the RFP. The evaluation will include technical capability/risk and price reasonableness.

2.13.2.3 SPOT AWARD

(a.) The only person authorized to issue task orders under this contract is the Contracting Officer. SPOTs will be issued via electronic format directly to the Contractor's point of contact. The Contractor shall acknowledge receipt and acceptance of the task order by signing the task order and returning an electronic copy directly to the Contracting Officer.

For awards exceeding $6 million, Offerors will be notified of award in accordance with FAR 15.503(b)(1) and FAR 16.505(b)(6)(i) and a post-award debriefing may be requested and provided in accordance with FAR 15.506 and FAR 16.505(b)(6)(ii).

Protests may be filed as allowed under FAR 16.505(a)(10).

(b.) Modifications to SPOT

After a SPOT is issued, it may be necessary to add spacecraft specific requirements e.g., Baseline LSSP. These additions will be accomplished via modifications to the original order. In this instance, the terms of the existing task order, such as price may be modified to reflect the change(s). The resultant change in price will be applied to the remaining payment amounts, as performance dictates.

2.14 OTHER TASK ORDERS (OTO)

OTOs are for non-standard processing services, including but not limited to, Technical Assistant Agreement (TAA), Bureau of Industry and Security (BIS) licenses, and other services related to

processing spacecraft that are not for a specific launch such as pathfinders, trailblazers, storage, and propellant loading exercises.

2.15 USE OF GOVERNMENT PROPERTY, FACILITIES, ASSETS, OR SERVICES

(a) Support obtained from a Government Agency other than NASA.

(1) The Contractor shall obtain and maintain any necessary contracts or agreements between the Contractor and any Government Agency authorizing the use of Government property, facilities, assets, or services in performance of this contract (except as may be expressly stated in this contract as furnished by the Government). The Contractor shall be responsible to arrange any contracts or agreements outside of this contract as it deems appropriate. The terms and conditions of such contracts or agreements will govern the use of those Government resources. Any costs associated with such contracts or agreements shall result in no increase in the price of this contract. All remedies to disputes or performance issues shall be resolved in accordance with the terms and conditions of those contracts or agreements. The Contractor shall notify the Contracting Officer Representative (COR), or designee, of any contracts or agreements between the Contractor and any Government Agency under this paragraph (a).

(2) NASA makes no warranty whatsoever as to the availability or suitability for use of Government property, facilities, assets, or services made available by another Government Agency under the terms and conditions of other contracts or agreements. The Contractor assumes all responsibility for determining the suitability for use of all property, facilities, assets, or services acquired or made available to the Contractor by a Government Agency under other contracts or agreements. The Contractor further acknowledges and agrees that any use of such Government property, facilities, assets, or services shall not relieve the Contractor of full performance responsibility under the contract.

(b) Support obtained from a NASA Center or Component Facility.

(1) Except as may be expressly stated in this contract as furnished by the Government, the Contractor shall obtain use of any Government property, facilities, assets or services available from a NASA Center or Component Facility (a "Performing Organization") for performance of this contract through the use of an appropriate agreement.
(2) The Contractor shall be responsible for obtaining, negotiating and documenting all agreements with the Performing Organization. The Contractor shall be responsible for any costs associated with property, facilities, assets, or services provided by a Performing Organization under an agreement and such costs shall result in no increase in the price of this contract. The Contractor shall notify the Contracting Officer Representative (COR),

or designee, of any agreements between the Contractor and a Performing Organization under this paragraph.

(3) NASA makes no warranty whatsoever as to the availability or suitability for use of property, facilities, assets, or services made available by a Performing Organization under an agreement. The Contractor assumes all responsibility for determining the suitability for use of all such property, facilities, assets, or services, including technical suitability, schedule availability and cost. 2.17 ADJUSTMENTS TO SPACECRAFT PROCESSING SCHEDULE (GOVERNMENT AND CONTRACTOR DELAYS)

(a.) Definitions

The following definitions are applicable to this contract:

Launch Date (LD): The launch date as specified in the Spacecraft Processing Ordered Task (SPOT).

Initial Facility Occupancy (IFO) Date: The initial facility occupancy date as specified in the

SPOT. This date reflects the initial arrival of mission-related equipment or personnel at the facility. Early access to the facility prior to IFO is required to accommodate communications installation and checks. This access is limited to two weeks and is not included in the facility occupancy period.

Facility Departure Date: The date that all spacecraft hardware and personnel vacate the facility, nominally 7 days after the launch date.

Occupancy Period: The period of time from the IFO date to the Facility Departure Date.

Delay: A Government or Contractor delay of either IFO date or the LD. A Delay will commence when the delaying party provides a written notice specifying the duration of the delay.

(b.) Schedule Adjustments

Should the Government change the IFO date and/or the scheduled LD after the first SPOT payment has been made, delay cost incurred by the Contractor shall be subject to an equitable adjustment. Changes to the scheduled LD that are made after IFO has occurred shall be priced based on the Extended Facility Occupancy NTE price, which applies to delays beyond the Occupancy Period. In addition, delay costs for extended use of services shall be subject to an equitable adjustment.

Should the Contractor delay the IFO date and/or the scheduled facility departure date, the Contractor shall be liable for the delay costs incurred by the Government. Contractor liability for such delay costs shall not exceed the contracted value of the SPOT.

(c.) No Fault

(1) When a delay arises solely out of causes beyond the control of NASA or the Contractor, and not due to the fault or negligence of NASA or the Contractor, each party agrees to bear its own costs for the delay with no increase to the contract price. Such causes include but are not limited to the following:

Delays resulting from, Acts of God, acts (including delay or failure) of any Governmental authority other than the contracting agency, wars, riots, revolution, hijacking, strikes, freight embargoes, sabotage, epidemics, or any condition which jeopardizes the safety of the employees of the Government, the Contractor, or its subcontractors.

Should any of the above occur, the Contractor shall be responsible for taking reasonable steps to mitigate any impacts to the spacecraft processing schedule.

(2) The Contracting Officer shall decide whether events or causes for delays are/are not beyond the control of NASA or the Contractor. Any disagreement shall be subject to the Disputes clause.

(d.) Notice

If the Contractor or Government receives a Notice of Delay, the Contractor or Government shall, within three days of receipt, agree to the requested new IFO date and/or LD or propose an alternative. If the Government and Contractor fail to agree on a new IFO date and/or LD, then the Contracting Officer shall set the new IFO date and/or LD except as noted in paragraph (e) below. Any disagreement shall be subject to the Disputes clause of this contract.

(e.) Scheduling

The Contractor will use its best efforts to accommodate and agree to the Government's request for a new IFO date or LD. If the Contractor is unable to meet the Government's request because of its other service obligations to third parties, the Contractor will consult with the Government and treat the Government's request at least as favorably as the requests of third parties, in the Contractor's attempt to reschedule the affected services in an equitable manner.

In the event that commitments to other launch customers, including other Government customers such as a National Reconnaissance Office, that precludes the Contractor from meeting NASA mission requirements, the Government may cancel the SPOT without penalty to the Government.

For critical Missions, the Government may assert the following 1st Right of Refusal language within the SPOT:

The Contractor will use its best efforts to accommodate and agree to the NASA's request for a new IFO date or LD. Additionally, prior to entering a contract with a third-party customer (including other Government customers) for CY **TBD** facility occupancy in the occupied/contracted processing areas, the Contractor shall provide NASA the 1st right of refusal to occupy the agreed upon facilities in CY **TBD**. Government shall have 7 days to exercise this right and will compensate Contractor in accordance with the applicable Calendar Year **NTE** prices to preserve occupancy.

(f.) Concurrent Delays

The parties agree that the equitable adjustment specified in this contract for IFO and/or LD delays are not payable for concurrent delays by NASA and the Contractor.

(End of Clause)

2.18 MILESTONE PAYMENTS, EVENTS AND COMPLETION CRITERIA

A. DEFINITION

Upon successful completion of a milestone event and submission of a properly certified invoice, the Contractor may request commercial interim payments. The commercial interim payments will be paid in accordance with the payment schedule shown in Table 2.20-1, Spacecraft Processing Service Milestone Schedule and based on the milestone events identified in the Attachment A, *Statement of Work* and the SPOT.

Table 2.20-1 *Spacecraft Processing Service Milestone Schedule.*

B. PURPOSE AND AUTHORITY

Commercial interim payments are contract financing payments that are not payment for accepted items. Commercial interim payments are fully recoverable, in the same manner as progress payments, in the event of default. Commercial interim payments are contract financing payments and, therefore, are not subject to the interest-penalty provisions of prompt payment. However, these payments shall be made in accordance with the Agency's policy for prompt payment of contract financing payments.

1. Scheduled dates will be provided in the SPOT RFP. Payments may be deferred or canceled by the Government if the Contractor fails to make substantial progress in accomplishing the milestone events identified within this clause and awarded SPOT. In the event the Contractor completes a milestone ahead of the milestone completion date, the Contractor may submit a proper invoice and the Government will consider on a case-by-case basis, the early payment of the milestone.

2. The Contractor agrees in the event of a termination of this contract pursuant to contract Section 2.4, *Advance Understanding Regarding Termination Settlement Under FAR Clause 52.212-4(l), Contract Terms and Conditions- Commercial Items (NOV 2021)*, the Government shall not be obligated in any event to pay or reimburse the Contractor any amount in excess of the amount already obligated to the contract. The Contractor shall not be obligated to continue performance of the work beyond such point.

3. The Contracting Officer will unilaterally determine the Contractor’s accomplishment and successful completion of each milestone event. The Contracting Officer’s determination of milestone event completion will include, but is not limited to, the accomplishment criteria set forth in the Attachment A, *Statement of Work,* and *SPOT*. Approval of the final payment will be made in accordance with contract requirements.

(a) Contract Award

(b) The Certificate of Facility Readiness (COFR)

Upon approval of the COFR, the Contracting Officer will authorize the milestone payment.

(c) Initial Facility Occupancy (IFO)

The Contractor shall have provided the necessary equipment and personnel to transport the spacecraft and GSE from the arrival point to the inside of the spacecraft processing facility cleanroom without incident. In addition, all facility services and systems shall be in place and ready to support Spacecraft Customer activities. This shall include but not be limited to:

1. Proof that operational systems e.g., communications, television, RF are validated and ready to support
2. Proof the administrative systems (desks, telephones, Local Area Network (LAN), copiers, etc.) are ready for use
3. Proof the facility systems (power, gases, compressed air) are in place to support the spacecraft and associated GSE
4. Proof that cleanroom specifications are met and being maintained

Upon completion of this activity, the Contracting Officer will authorize the milestone payment.

(d) Spacecraft Processing Period

The Contractor shall demonstrate that the facility systems have met the Government's minimum requirements as defined in the Attachment A, *Statement of Work* and *SPOT*, necessary support services and materials have been provided in a timely manner, and the facility system failures or deficiencies have been corrected without causing delay to the processing schedule or impact to flight hardware. When the spacecraft flight hardware departs the facility, the Contracting Officer will authorize the milestone payment.

(e) Facility Departure

The Contractor shall have demonstrated that the facility systems have met the Government's minimum requirements as defined in the Attachment A, *Statement of Work* and *SPOT*, necessary support services and materials required at the spacecraft processing facility have been provided in a timely manner during the pad processing and launch periods, and the facility system failures or deficiencies have been corrected without causing delay to the processing or launch schedule. The Contractor shall have provided the necessary equipment and personnel to load and transport the GSE and spacecraft (if required) from the spacecraft processing facility to the departure point without incident. When all mission-related hardware, equipment, and supplies have departed the facility, the Contracting Officer will authorize the milestone payment.

(End of Clause)

2.19 LICENSES, PERMITS, AND INSURANCE FOR A SPACECRAFT PROCESSING FACILITY/OPERATOR

The Contractor shall assume all responsibility for obtaining the necessary licenses, permits, site plans, and clearances, with the exception of radioactive materials, that may be required by the Department of Transportation, Department of Commerce, Department of Defense, or other Federal, State, or local governmental bodies or subdivisions thereof, or of any other duly constituted public authority in performance of the work whether performed by the Contractor or the Spacecraft Customer housed in the facility unless otherwise directed by the Contracting Officer. This includes obtaining a Technical Assistance Agreement approved by the Department of State for working with Foreign Spacecraft Customer, if necessary. The Contractor shall obey and abide by all applicable laws, regulations, or ordinances in order to operate as a commercial spacecraft processing Contractor under this contract. All applicable costs and fees associated with obtaining licenses, permits, site plans, and clearances are included in the contract's total firm fixed price.

2.20 LSP SAFETY AND HEALTH

NASA and their spacecraft contractors will be responsible for safety of their personnel in the operations they perform. The Launch Service Contractor will be responsible for safety of Launch Service Contractor personnel in performing operations on launch vehicle hardware and integrated operations involving the spacecraft. The Contractor shall be responsible for the safety of their personnel and providing a safe operating facility and environment to all facility occupants.

The Contractor shall identify a Safety Representative for each mission to resolve safety and health issues in a manner consistent with SOW Sections 2.4, Requirements Development and Implementation, and 3.2, NASA Insight and Approval. The Contractor shall be responsible for establishing and maintaining safety procedures and controls in compliance with all Federal, State, and local laws and regulations applicable to safety and health.

When performing work on a Space Force installation, the Contractor shall follow the AFSPCMAN 91-710 unless they have an existing agreement with the Space Force to use a predecessor document. The Contractor shall maintain a safety and health plan in accordance with NFS 1852.223-70 and continually update the safety and health plan for changes to safety requirements, new or modified hardware (both flight and GSE), or when deemed necessary by NASA.

The Contractor shall support the payload safety review process and tailoring of the spacecraft safety requirements in accordance with NPR 8715.7, Payload Safety Program. The Contractor Safety representative will work with the Payload Safety Representative to assure that all parties involved in facility activities are cognizant of safety hazards and controls in the facility. The Contractor Safety Representative and Payload Safety Representative will perform coordination of safety aspects of operations and resolve safety and health issues during processing.

All accidents, mishaps, close calls or other incidents as defined by NASA shall be reported as required by NFS 1852.223-70, Safety and Health, to the Contracting Officer, the LSP Safety Representative, and the Payload Safety Representative. Reporting shall be in accordance with NPR 8621.1 and the NASA Payload Safety organization requirements as identified in their Payload Systems Safety Plan.

The Contractor shall enforce a building clear for non-essential LSP personnel during all hypergolic propellant flow and wetted fluid line disconnect operations. The Contractor shall enforce this building clear for all such operations in the facility whether they are being performed by NASA or non-NASA personnel. The clear area shall extend a minimum distance of "building clear: for indoor operations, and a minimum distance of 200 feet radially and 700 feet downwind for outdoor operations. The Contractor shall only waive this restriction for LSP personnel when provided specific, written authorization from the CO or COR. This waiver may be delivered to the Contractor via email.

(End of Clause)

2.21 ANNUAL REVIEW CLAUSE

This IDIQ contract will allow for an annual review to ensure that pricing and other factors are aligned with the current market. The IDIQ Contractor shall-

a. Ensure that NTE prices in Attachment A.2, *SPOC Price List* are reviewed annually and, if necessary, updated to reflect the current market trends.

d. Capture any necessary revisions/clarifications to Attachment A, *Statement of Work* and Attachment A.1, *Common LSSP*

If review is necessary, the Government or Contractor shall initiate the annual review by September 15th. If initiated, the Annual review will commence on October 1st of specified year and be completed by December 1st of that year. If any, the updated NTE prices will be used for future SPOT awards and shall not be applied to any awarded SPOTs.

2.22 ON-RAMP INSERTION

The purpose of this clause is to create an opportunity for qualified new, emerging spacecraft processing facility providers and incumbent spacecraft processing facility providers to introduce its services not available at the time of the award of the initial contract. The intent of the On-Ramp is to foster competition for future requirements for spacecraft processing services.

In accordance with this clause, the original solicitation (as revised) shall remain open in accordance with Section 2.11, *Ordering Period*. The decision to request proposals under this clause will be solely at NASA's discretion and will only occur after the action has been synopsized. When requested (synopsized), new facilities or new service providers will be allowed to submit proposals that may result in contract award(s).

The minimum contract requirements, the technical acceptability standards, evaluation factors, solicitation terms and conditions, price reasonableness, and basis for award shall remain in full force and effect for each new proposal. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11
U.S.C. §362 (the Bankruptcy Code).
