STATEMENT OF WORK

FOR

210TH Regional Training Institute (210TH RTI) Wireless Internet

1.0 General: The Virgin Islands Army National Guard (VIARNG) 210th RTI conducts 92W Military Occupation Specialty (MOS) Re-Classification training annually. To ensure connectivity for students throughout the 210th RTI facility during class hours and after hours, wireless internet is necessary.

1.1 Scope: The contractor shall provide all personnel, equipment, tools, materials, supervision, and quality control necessary to produce wireless internet service at the 210th RTI as defined in this Statement of Work (SOW).

1.1.1 Objectives: To ensure students have access to training information, wireless internet service is needed to ensure students have internet capabilities during scheduled classes and after hours at the 210TH RTI.

1.2 Background: The 210th RTI provides a rigorous training environment for Soldiers and Federal Employees. This includes providing lodging accommodation at the facility to support personnel conducting training at the 210th RTI. Wireless internet service is directly related to the success of students passing 92W MOS Re-classification as specified in this SOW.

1.3 Period of Performance (PoP): The Period of Performance shall consist of a base period of 12 months with four 12-month options and the 6-month option to extend services in accordance with FAR 52.217-8.

1.4 General Information:

1.4.1 Place and Performance of Services: Performance shall be at the 210th RTI facility, located on the Estate Bethlehem Military Compound, Kingshill,VI. The contractor shall at all times maintain an adequate workforce for the uninterrupted performance of all tasks defined within this SOW when the Government facility/installation is not closed for the above reasons. When hiring personnel, the contractor shall keep in mind that the stability and continuity of the work force are essential.

1.4.2 Unscheduled gate closures by the Security Police may occur at any time causing all personnel entering or exiting a closed installation to experience a delay. This cannot be predicted or prevented. Contractors are not compensated for unexpected closures or delays. Vehicles operated by contractor personnel are subject to search pursuant to applicable regulations. Any moving violation of any applicable motor vehicle regulation may result in the termination of the contractor employee's installation driving privileges.

1.4.3 The contractor's employees shall become familiar with and obey the regulations of the installation, including fire, traffic, safety and security regulations while on the installation. Contractor employees should only enter restricted areas when required to do so and only upon prior approval. All contractor employees shall carry proper identification with them at all times and shall be subject to such checks as may be deemed necessary. The contractor shall ensure compliance with all regulations and orders of the installation, which may affect performance. The Government reserves the right to direct the removal of an employee from Government property or revoke access to Government systems for misconduct, security reasons, or any overt evidence of communicable disease. Removal of contractor employees for reasons stated above does not relieve the Contractor from responsibility for total performance of this contract.

1.4.4 Installation Access and Security Requirements. The contractor shall comply with all applicable installation/facility access and local security policies and procedures, which may be obtained from the COR. The contractor and all associated subcontractor employees shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services, or Security Office. The contractor shall ensure compliance with all personal identity verification requirements as directed by Department of Defense (DoD), Headquarters Department of Army (HQDA) and/or local policy. Should the Force Protection Condition (FPCON) change, the Government may require changes in contractor security matters or processes.

1.4.5 For contractors that do not require a CAC, but require access to a DoD facility or installation: Contractor and all associated sub-contractors employees shall comply with adjudication standards and procedures using the National Crime Information Center Interstate Identification (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05), and applicable installation, facility and area commander installation/facility access, and local security policies and procedures (provided by a Government representative).

1.4.6 Physical Security. The contractor shall safeguard all Government property provided for contractor use. At the close of each work period, Government facilities, equipment and materials shall be secured.

1.4.7 Identification of Contractor Employees: Contractor personnel shall wear identification badges distinguishing themselves as such. The badges shall have the company name, employee name and the word "contractor" displayed.

1.4.8 Combating Trafficking in Persons: The United States Government has adopted a zero-tolerance policy regarding trafficking in persons. Contractors and contractor employees shall not engage in severe forms of trafficking in persons during the period of performance of the contract; procure commercial sex acts during the period of performance of the contract; or use forced labor in the performance of the contract. The Contractor shall notify its employees of the United States Government's zero tolerance policy, the actions that will be taken against employees for violations of this policy. The

contractor shall take appropriate action, up to and including termination, against employees or subcontractors that violate the US Government policy as described at FAR 22.17.

1.4.9 Organizational Conflicts of Interest (OCI): The contractor and subcontractor personnel performing services under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent OCIs, as defined in FAR Subpart 9.5. The contractor shall notify the KO immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the KO to avoid or mitigate any such OCI. The contractor's mitigation plan will be determined to be acceptable solely at the discretion of the KO. In the event the KO unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the KO may impose other remedies as he or she deems necessary, including prohibiting the contractor from participation in subsequent contracted requirements which may be affected by the OCI.

2.0 Government Furnished Property, Material, Equipment and Services (GFP/M/E/S): The Government will provide the property, material, equipment, and/or services listed below solely for the purpose of performance under this contract: None.

2.1 Utilities: All utilities in the facility will be available for the contactor's use in the performance of this contract. The contractor shall instruct employees in utilities conservation practices. The contractor shall operate under conditions that preclude the waste and abuse of utilities, which include turning off the water faucets or valves after using the required amount.

3.0 Contractor Furnished Property, Materials, and Equipment (CFP/M/E):

3.1 General: Except for those items specifically stated to be Government-Furnished in Paragraph 2.0, the contractor shall furnish all materials, equipment, services, personnel, tools, supervision, and quality control required to perform these services as indicated in Paragraph 1.1.

4.0 Requirements: The contractor shall:

4.1 Provide all required equipment, installation, activation, and network configuration necessary to support ongoing internet services at speeds up to 100 Mbps download / 100Mbps upload with a static IP address.

4.2 Provide technical support services.
