Provisions

•FAR 52.212-1, Instructions to Offerors—Commercial Products and Commercial Services

•FAR 52.212-2, Evaluation—Commercial Products and Commercial Services

The Government anticipates and intends to make single award based on pricing of line item.
Awards will be made to the responsible Quote whose quote conforms to the requirements and is determined to provide the best value to the Government, considering the evaluation factors outlined below.
(1) Price - The government will evaluate the Quoter's proposed price to ensure it is fair and reasonable;

(2) Past Performance – Go/No-Go Evaluation

The Government will evaluate the Offeror's past performance on a Go/No-Go basis. The assessment will be based on the following criteria:

- Timeliness of Deliveries: The Offeror must demonstrate a consistent record of on-time deliveries. Documented instances of late deliveries, including Contractor Performance Assessment Reporting System (CPARS) evaluations and communications with other Contracting Officers, will be reviewed. A history of substantial delivery delays will result in a "No-Go" determination.
- Order Accuracy and Completeness: The Offeror must show a track record of delivering complete and accurate orders. Evidence of recurring issues such as missing or incorrect items—supported by customer complaints, returns, or input from other Contracting Officers—will be considered. A pattern of incomplete or

inaccurate deliveries will result in a "No-Go" determination. Only Offerors receiving a "Go" rating under this factor will be considered eligible for award
