EVALUATIONS

Award Selection Process:

(a) The Government intends to award a single, firm-fixed price purchase order resulting from this solicitation to the responsible offeror whose quote conforms to the solicitation and will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: (Note: This solicitation is not stating nor required to state the relative importance assigned to each evaluation factor and/or sub factor (FAR 13.106-1(a)(2).

Evaluation Factor:

(1) **Technical Capability**: The offeror shall provide project narrative that demonstrates how the company will successfully meet the needs of the statement of work (limit to two pages).

(2) Past Performance

a. An evaluation of offeror's past performance information will be conducted subsequent to the technical evaluation. The offeror must have demonstrated successful completion of projects similar in quality, technique, and complexity. Preference will be given to quotes that demonstrate past performance of similar projects related to the work outlined in the SOW.
b. The evaluation will be based on information obtained from the written quote, photographs, other relevant past performance information obtained from sources known to the Government, and any other information supplied by the offeror, to include problems encountered on the identified contracts and corrective action taken.
c. The Government will assess the relative risks associated with each offeror. Performance risks are those associated with an offeror's likelihood of success in performing the acquisition requirements as indicated by that offeror's record of past performance.
d. The assessment of performance risk is not intended to be the product of a mechanical or mathematical analysis of an offeror's performance on a list of contracts, but rather the product of subjective judgement by the Government after it considers all available and relevant information.

e. When assessing performance risks, the Government will focus on the past performance of the offeror as it relates to all acquisition requirements, such as: 1) the offeror's record of performing according to specifications, including standards of good workmanship; 2) the offeror's record of controlling and forecasting costs; 3) the offeror's adherence to contract schedules including the administrative aspects of performance; 4) the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and 5) the offeror's business-like concern for the interest of the customer.

f. The Government will consider the currency and relevance of the information, sources of the information, context of the data and general trends in the offeror's performance. The lack of a relevant performance record may result in an unknown performance risk assessment, which will neither be used to the advantage nor disadvantage of the offeror.

Note: Contractors submitting offers without past performance will receive a neutral rating.

g. Offerors shall provide three (3) projects completed in the past three (3) years with a similar scope. Describe any previous experience in providing these supplies/services, including the scope and complexity of the project.

Note: Listing completed projects does not address this criterion. A narrative that articulates past experience and description of successful completion of services should be discussed.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(3) Price

a. Offeror's price quote will not be point scored or adjectively scored but will be evaluated on price reasonableness. The price quote will also be used as an aid to determine that the Offeror understands the requirements of the solicitation, price reasonableness and to assess the validity of the offeror's approach to managing and performing the work.

b. The offeror shall submit a price quote separate from all other volumes; any pricing information found in the technical or past performance volumes will be removed prior to evaluation.

c. The Government will evaluate the price quote for reasonableness. The Government will also evaluate price with regards to the ability of the offeror to meet requirements in terms of skills required, complexity of disciplines and job difficulty, if the Government deems such analysis necessary.

Final submitted prices shall be valid for a minimum of 60 calendar days from the date submitted.

This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

52.216-2 ECONOMIC PRICE ADJUSTMENT-STANDARD SUPPLIES (NOV 2021)

(a)The Contractor warrants that the unit price stated in the Schedule for _____ [*offeror insert Schedule line item number*] is not in excess of the Contractor's applicable established price in effect on the contract date for like quantities of the same item. The term "unit price" excludes any part of the price directly resulting from requirements for preservation, packaging, or packing beyond standard commercial practice. The term "established price" means a price that-

(1)Is an established catalog or market price for a commercial product sold in substantial quantities to the general public; and

(2)Is the net price after applying any standard trade discounts offered by the Contractor.

(b)The Contractor shall promptly notify the Contracting Officer of the amount and effective date of each decrease in any applicable established price. Each corresponding contract unit price shall be decreased by the same percentage that the established price is decreased. The decrease shall apply to those items delivered on and after the effective date of the decrease in the Contractor's established price, and this contract shall be modified accordingly.

(c)If the Contractor's applicable established price is increased after the contract date, the corresponding contract unit price shall be increased, upon the Contractor's written request to the Contracting Officer, by the same percentage that the established price is increased, and the contract shall be modified accordingly, subject to the following limitations:

(1)The aggregate of the increases in any contract unit price under this clause shall not exceed 10 percent of the original contract unit price.

(2)The increased contract unit price shall be effective-

(i)On the effective date of the increase in the applicable established price if the Contracting Officer receives the Contractor's written request within 10 days thereafter; or

(ii)If the written request is received later, on the date the Contracting Officer receives the request.

(3)The increased contract unit price shall not apply to quantities scheduled under the contract for delivery before the effective date of the increased contract unit price, unless failure to deliver before that date results from causes beyond the control and without the fault or negligence of the Contractor, within the meaning of the Default clause.

(4)No modification increasing a contract unit price shall be executed under this paragraph (c) until the Contracting Officer verifies the increase in the applicable established price.

(5)Within 30 days after receipt of the Contractor's written request, the Contracting Officer may cancel, without liability to either party, any undelivered portion of the contract items affected by the requested increase.

(d)During the time allowed for the cancellation provided for in paragraph (c)(5) of this clause, and thereafter if there is no cancellation, the Contractor shall continue deliveries according to the contract delivery schedule, and the Government shall pay for such deliveries at the contract unit price, increased to the extent provided by paragraph (c) of this clause.

(End of clause)

52.216-21 REQUIREMENTS (OCT 1995)

(a)This is a requirements contract for the supplies or services specified, and effective for the period stated, in the Schedule. The quantities of supplies or services specified in the Schedule are estimates only and are not purchased by this contract. Except as this contract may otherwise provide, if the Government's requirements do not result in orders in the quantities described as "estimated" or "maximum" in the Schedule, that fact shall not constitute the basis for an equitable price adjustment.

(b)Delivery or performance shall be made only as authorized by orders issued in accordance with the Ordering clause. Subject to any limitations in the Order Limitations clause or elsewhere in this contract, the Contractor shall furnish to the Government all supplies or services specified in the Schedule and called for by orders issued in accordance with the Ordering clause. The Government may issue orders requiring delivery to multiple destinations or performance at multiple locations.

(c)Except as this contract otherwise provides, the Government shall order from the Contractor all the supplies or services specified in the Schedule that are required to be purchased by the Government activity or activities specified in the Schedule.

(d)The Government is not required to purchase from the Contractor requirements in excess of any limit on total orders under this contract.

(e)If the Government urgently requires delivery of any quantity of an item before the earliest date that delivery may be specified under this contract, and if the Contractor will not accept an order providing for the accelerated delivery, the Government may acquire the urgently required goods or services from another source.

(f)Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after ***the end of the period of performance.***

Alternate I (Apr1984). If the requirements contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, substitute the following paragraph (c) for paragraph (c) of the basic clause:

(c) The estimated quantities are not the total requirements of the Government activity specified in the Schedule, but are estimates of requirements in excess of the quantities that the activity may itself furnish

within its own capabilities. Except as this contract otherwise provides, the Government shall order from the Contractor all of that activity's requirements for supplies and services specified in the Schedule that exceed the quantities that the activity may itself furnish within its own capabilities.

Alternate II (Apr 1984). If the requirements contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, add the following paragraph (g) to the basic clause:

(g) The requirements referred to in this contract are for items to be manufactured according to Government specifications. Notwithstanding anything to the contrary stated in the contract, the Government may acquire similar products by brand name from other sources for resale.

Alternate III (Oct 1995). If the requirements contract involves a partial small business set-aside, substitute the following paragraph (c) for paragraph (c) of the basic clause:

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. However, the Government shall allocate successive orders, in accordance with its delivery requirements, to maintain as close a ratio as is reasonably practicable between the total quantities ordered from the two Contractors.

Alternate IV (Oct 1995). If the contract includes subsistence for both Government use and resale in the same Schedule and similar products may be acquired on a brand-name basis and the contract also involves a partial small business set-aside, substitute the following paragraph (c) for paragraph (c) of the basic clause and add the following paragraph (g) to the basic clause:

(c) The Government's requirements for each item or subitem of supplies or services described in the Schedule are being purchased through one non-set-aside contract and one set-aside contract. Therefore, the Government shall order from each Contractor approximately one-half of the total supplies or services specified in the Schedule that are required to be purchased by the specified Government activity or activities. The Government may choose between the set-aside Contractor and the non-set-aside Contractor in placing any particular order. 52.212-2 -- Evaluation -- Commercial Items.

As prescribed in 12.301(c), the Contracting Officer may insert a provision substantially as follows:

Evaluation -- Commercial Items (Nov 2021)

EVALUATIONS

Award Selection Process:

(a) The Government intends to award a single, firm-fixed price purchase order resulting from this solicitation to the responsible offeror whose quote conforms to the solicitation and will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers: (Note: This solicitation is not stating nor required to state the relative importance assigned to each evaluation factor and/or sub factor (FAR 13.106-1(a)(2).

Evaluation Factor:

(1) Technical Capability: The offeror shall provide project narrative that demonstrates how the company will successfully meet the needs of the statement of work (limit to two pages).

(2) Past Performance

a. An evaluation of offeror's past performance information will be conducted subsequent to the technical evaluation. The offeror must have demonstrated successful completion of projects similar in quality, technique, and complexity. Preference will be given to quotes that demonstrate past performance of similar projects related to the work outlined in the SOW.

b. The evaluation will be based on information obtained from the written quote, photographs, other relevant past performance information obtained from sources known to the Government, and any other information supplied by the offeror, to include problems encountered on the identified contracts and corrective action taken.

c. The Government will assess the relative risks associated with each offeror. Performance risks are those associated with an offeror's likelihood of success in performing the acquisition requirements as indicated by that offeror's record of past performance.

d. The assessment of performance risk is not intended to be the product of a mechanical or mathematical analysis of an offeror's performance on a list of contracts, but rather the product of subjective judgement by the Government after it considers all available and relevant information.

When assessing performance risks, the Government will focus on the past performance of the offeror as it relates to all acquisition requirements, such as: 1) the offeror's record of performing according to specifications, including standards of good workmanship; 2) the offeror's record of controlling and forecasting costs; 3) the offeror's adherence to contract schedules including the administrative aspects of performance; 4) the offeror's reputation for reasonable and cooperative

behavior and commitment to customer satisfaction; and 5) the offeror's business-like concern for the interest of the customer.

e. The Government will consider the currency and relevance of the information, sources of the information, context of the data and general trends in the offeror's performance. The lack of a relevant performance record may result in an unknown performance risk assessment, which will neither be used to the advantage nor disadvantage of the offeror.

Note: Contractors submitting offers without past performance will receive a neutral rating.

f. Offerors shall provide three (3) projects completed in the past three (3) years with a similar scope. Describe any previous experience in providing these services, including the scope and complexity of the project.

Note: Listing completed projects does not address this criterion. A narrative that articulates past experience and description of successful completion of services should be discussed.

(b) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(3) Price

a. Offeror's price quote will not be point scored or adjectively scored but will be evaluated on price reasonableness. The price quote will also be used as an aid to determine that the Offeror understands the requirements of the solicitation, price reasonableness and to assess the validity of the offeror's approach to managing and performing the work.

b. The offeror shall submit a price quote separate from all other volumes; any pricing information found in the technical or past performance volumes will be removed prior to evaluation.

c. The Government will evaluate the price quote for reasonableness. The Government will also evaluate price with regards to the ability of the offeror to meet requirements in terms of skills required, complexity of disciplines and job difficulty, if the Government deems such analysis necessary.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals–

(1) □ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) □ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(4) □ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds the threshold at 9.104-5(a)(2) for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).
