This is a Pre-Solicitation Notice. This notice does ***NOT*** constitute a request for proposal, request for quote or invitation for bid. Dobbins Air Reserve Base has a requirement to Repair & Maintain Airfield Stormwater System Phase II, Project FGWB 21-0002 A/B at Dobbins ARB, GA. This requirement is for 100% set-aside for small Business. Set-aside is in accordance with RFO 6.102-2.

Work consists of but is not limited to providing all materials, equipment, labor, supervision, and incidentals necessary to Repair & Maintain Airfield Stormwater System Phase II, Project FGWB 21-0002A/B in accordance with the specifications and drawing. The specification and drawing will be posted as attachments to the solicitation.

Department of the Air Force, Air Force Reserve Command, 94th Contracting Flight, will solicit a contract to Repair & Maintain Airfield Stormwater System Phase II, Project FGWB 21-0002A/B at Dobbins ARB, GA.

While not all inclusive, this project encompasses the work necessary to repair the stormwater drainage systems east of Taxiway 'J' on Dobbins ARB. Areas where the slopes have failed or where they have been disturbed from previous repairs will be regraded and have sod applied to obtain stabilization and positive drainage. Work shall include all maintenance items identified in basin III, IV, and V on the airfield. In addition to the work associated with correcting the grades around the airfield, the cleaning of existing flumes, pipes, and swales is required to reestablish proper drainage patterns. New concrete flumes will be installed at various locations throughout the airfield to reestablish positive drainage and prevent future erosion and standing water.

NAICS 237110
Product Service Code: Z2NZ
