(3) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(4) Offerors may withdraw their offers by written notice to the Government received at any time before award.

Therefore, the Offeror's initial offer should contain the Offeror's best terms. However, the Government reserves the right to conduct discussions, if necessary. The Government may reject any or all offers if such action is in the public interest, accept other than the lowest offer, and waive informalities and minor irregularities in offers received.

(e) *Debriefings*. If a postaward debriefing is given to requesting Offerors, the Government will disclose the following information, if applicable:

(1) The agency's evaluation of the significant weak or deficient factors in the debriefed Offeror's offer.

the quote being deemed non-responsive and eliminated from further consideration. Quotes must be clear, concise, and complete. The Government reserves the right to award without discussion; therefore, offerors are encouraged to submit their best terms in their initial quote.

52.212-2 Evaluation—Commercial Products and Commercial Services. (AUG 2025) (DEVIATION 25-21)

(a) Evaluation and Basis of Award. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, based on the following evaluation factors: (1) technical, and (2) price.

Technical: The Government will evaluate each quotation's technical approach based on how well the proposed preventative maintenance and repair services meet the Government's stated requirements. The evaluation will consider the following:

- Understanding of Requirements: The extent to which the quote demonstrates a clear understanding of the scope of work, including preventative maintenance schedules, repair procedures, and compliance with applicable codes and standards.
- Approach and Methodology: The quality and feasibility of the proposed approach to performing preventative maintenance and repair services, including the use of qualified personnel, tools, and equipment.
- Experience and Qualifications: The relevant experience and qualifications of the vendor and proposed personnel in performing similar services.
- Responsiveness to Minimum Requirements: The quote must address each minimum requirement in detail, demonstrating the ability to meet or exceed all specified requirements.
- Past Performance: The Government may consider the vendor's record of performance on similar contracts, including reliability, quality of service, and customer satisfaction.

Price: The Government will evaluate price quotations to determine price reasonableness and overall value to the Government. The evaluation will consider:

- Total Price: The overall price for preventative maintenance and repair services as proposed in the quotation.

Basis for Award: The Government will perform a comparative analysis of all quotations received. Award will be made to the vendor whose quotation represents the best value to the Government, considering both technical and price evaluation factors. The Government may select a quotation that is not the lowest

priced if it is determined that the technical merits of the proposal provide greater value to the Government.

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(2) The Contractor is responsible for the currency, accuracy, and completeness of the information provided within SAM, and for any liability resulting from the Government's reliance on inaccurate or incomplete information. (1) If the Contractor has legally changed its business name or "doing business as" name (whichever is shown on the contract), or has transferred the assets used to perform the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in part 42 of the Federal Acquisition Regulation (FAR), the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to —

(f) If, as the result of the Contractor's intentional or negligent misstatement, misrepresentation, or miscertification, a protest related to this contract is sustained, and the Government pays costs, the Government may require the Contractor to reimburse the Government the amount of such costs. In addition to any other remedy available, and pursuant to the requirements of subpart 32.6, the Government may collect this debt by offsetting the amount against any payment due the Contractor under any contract between the Contractor and the Government.
