"Questions from Industry"

6/3/2026

Vendor Question: We noted an apparent discrepancy in the required CMMC level. The Basis for Award section references confirmation of CMMC Level 1 (Self-Assessment) for eligibility, while DFARS provision 252.204-7025 and clause 252.204-7021 both specify CMMC Level 2 (Self). Could you please confirm the CMMC level required for this procurement, so we provide the correct status and UID with our quote?

Answer: This was a mistake and should reference Level 2.

Statement should be under BASIS of Award:

In accordance with DFARS ***provision 252.204-7025(d), "The Offeror shall provide, in the quote, the CMMC unique identifier(s) (CMMC UIDs) issued by SPRS for each contractor information system that will process, store, or transmit FCI or CUI during performance of a contract, task order, or delivery order resulting from this solicitation"***. Failure to provide the UID and confirmation of CMMC ***Level 2 (Self-Assessment)*** for this requirement with quote submission will result in ineligibility for award.

Vendor Question: To ensure we are responding appropriately and not duplicating or misaligning our submissions, could you please confirm whether:

- These RFQs represent separate case lines or funding actions, or
- They are related requirements intended to be evaluated independently.

Answer: These are related requirements intended to be evaluated independently.

We also noted that helmet mounts are included in both CLIN 0001 and CLIN 0005. Could you please confirm whether this was intentional or if one of the CLINs should be adjusted?

Answer: "this was intentional and CLINS should not be adjusted"

In addition, the Statement of Work attachment appears to be labeled as sensitive; however, the same information appears to be included within the publicly accessible SAM.gov posting description and is available for unrestricted download. We would appreciate confirmation that this information was mislabeled and intended for public release, or whether any revisions or access controls are anticipated.

Answer: This document has been updated there should not be any issues with accessibility.

Vendor Question: CLIN 0001 call out the Wilcox G24 Helmet Mount to be included with the system. CLIN 0005 also asks for the Wilcox G24 Helmet Mount as well. Please confirm that you indeed, need CLIN 0005.

CLIN 0001- AN/PVS-13D. The contractor shall deliver nineteen (19) each AN/PVS-31D Night Vision Device Kits (NSN 5855-01-685-2918). Each system shall come with: White Phosphor Image Intensifier tubes, FOM 1600-1800. Each kit includes:
1 (one) P-45 Viewer, Night Vision Kit, 1 (one) Carrying Case, 2 (two) Eye cups, 2 (two) Lens Caps, 1 (one) Shoulder strap, 1 (one) pack of lens paper, 1 (one) Operators Manual, 1 (one) Quick reference guide, and 1 (one) Wilcox G24 Helmet Mount.

CLIN 0005- Helmet Mounts. The contractor shall deliver nineteen (19) Wilcox G24 Helmet Mount, P/N 28300G24-B, NSN: 5855-01-593-6422.

Answer: All is accurate CLIN 0005 is needed per all information stated in the Statement of Work (SOW).

Vendor Question: In regards to Solicitation: W91CRB-26-Q-Night Vision, I am curious if CLIN 0005- Helmet Mounts P/N 28300G24-B is in addition to the 19 G24 helmet mounts included in CLIN 0001 or a further description of afformentioned 19 mounts.

Answer: All information and everything listed for each CLIN is accurate CLIN 0001 is for what is specified and mentioned and the same for CLIN 0005 per SOW.

Vendor Question:

Question 1: Are the image intensifier tubes required to be Generation 3 (Gen 3), or will Generation 2+ tubes meeting the White Phosphor and FOM 1600-1800 specification be considered technically acceptable?

Answer 1: only Generation 3 will be acceptable

Question 2: Are there any country of origin restrictions applicable to the image intensifier tubes under this solicitation, specifically in the context of DFARS 252.225-7007 and the FMS end-use requirements for Colombia? Will tubes manufactured outside the United States (e.g., non-U.S. manufacturers) be considered compliant, provided all performance specifications are met?

We appreciate the Government's time and look forward to your response.

Answer 2: Any resulting contract shall be compliant with the specialty metals restriction of the Berry Amendment (10 U.S.C. 2533a and 2533b) in accordance with DFARS clauses 252.225-7008 and 252.225-7009, and DFARS 252.225-7007 Prohibition on Acquisition of Certain Items from Communist Chinese Military Companies. Only U.S made tube shall be considered complaint.
