PROVISIONS

FAR 52.212-1 Instructions to Offerors—Commercial Products and Commercial Services (RFO DEVIATION MAR 2026)

---Addendum to 52.212 1---

FAR 52.212-2 Evaluation—Commercial Products and Commercial Services (RFO DEVIATION MAR 2026)
(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be **most advantageous** to the Government, price and other factors considered. The following factors will be used to evaluate offers:

Factor 1: Technical Capability
The government will evaluate technical capability using information contained in the quote, focusing on the product and if it matches the specs.

Factor 2: Past Performance
The Government will evaluate past performance using information contained in the Contractor Performance Assessment Reporting System (CPARS), focusing on the relevance and quality of previous work. Offerors with no CPARS record will receive a neutral rating and will not be evaluated favorably or unfavorably. The assessment will consider confidence in the offeror’s ability to successfully perform based on available CPARS data.

Factor 3: Delivery Time
The Government will evaluate delivery schedules using a **comparative evaluation** to determine which quotation provides the best value to the Government. Quoted delivery schedules will be compared to one another to assess relative benefits, feasibility, and risk. The Government may select a quotation with a superior delivery schedule even if it is not the lowest-priced quotation, if the Government determines that the advantage in delivery schedule provides best value.

Factor 4: Price
The offeror's price will be evaluated for reasonableness, realism, and competitiveness by considering current market conditions, prior purchases of similar work, the level of competition, and comparison to the IGCE.

(b) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

---Addendum to 52.212-2---

The Government may perform a comparative evaluation (comparing offers to each other) to select the contractor that is best suited and provides the best value, considering the evaluation factors in this solicitation.
