Amendment 04

07 APR 2025

To CALL, Multidisciplinary, Aerodynamics, and Structures Technologies Research (MASTR)

Under Broad Agency Announcement (BAA) FA2391-23-S-2403, Pioneering Aerospace Capabilities, Engineering and Research (PACER)

Federal Agency Name: Air Force Research Laboratory, Aerospace Systems Directorate, AFRL/RQ

Broad Agency Announcement Title: Pioneering Aerospace Capabilities, Engineering and Research (PACER) FA2391-23-S-2403

Purpose of Amendment 04: The purpose of Amendment 04 is to amend the call for MASTR to revise initial task order contract type language and extend the proposal submission deadline.

The MASTR Call is amended as follows:

---

7. Call MASTR, Page 1 concerning Type of Contract/Instrument the following is changed

a. FROM: (~~In Red Strike Through~~)

Type of Contract / Instrument:

The Air Force reserves the right to award the instrument best suited to the nature of research proposed. Accordingly, the Government may award any appropriate contract type under the FAR or Other Transaction (OT) for Prototype, grant, cooperative agreement, or OT for Research. The Air Force may also consider award of an appropriate technology transfer mechanism if applicable. It is anticipated that awards under this CALL will likely be Multiple Award Fair Opportunity (MAFO) IDIQ contracts with Cost Plus Fixed Fee (CPFF), Cost Reimbursement, Cost Share (at the discretion of the offeror), and/or Firm Fixed Price (FFP) task orders. Cost reimbursement contracts require successful offerors to have an accounting system considered adequate for tracking costs applicable to the contract. The IDIQ minimum guarantee required by FAR 16.504(a)(1) will be the initial Task Order solicited with this CALL. ~~The initial task order will be a CPFF type task order.~~
