Solution Information

On the following pages, you will provide information about your proposed solution and address the evaluation criteria from the CSO.

Note: This form duplicates the evaluation criteria from the CSO. The government will evaluate your submission in accordance with these criteria.

You may attach a one-page visual aid to your application if it is necessary to clarify the written information provided in your response. Do not attempt to provide new information beyond the limits in the form. The aid is for architecture diagrams, pictures of hardware, process flows, etc.

IP Considerations

Can you offer the minimum intellectual property rights required in the corresponding Area of Interest? If 'No', please explain. If 'Yes', advise whether you intend to offer more rights and, if so, what.

Solution Overview

Please provide a 1.5-page overview of your proposed solution. Note: we have also provided space for you to speak to each evaluation criterion individually, below. For transparency, we have shown you the government evaluation rubric. We will score your submission for each criterion based on this overview section and the supplemental sections dedicated to each criterion.

Factor 1: Technical Feasibility

How technically feasible is the proposed solution to an AOI, given the present state of the technology and science? Solutions with a lower technological risk profile are favored.

Scoring Rubric (Government Use Only)

Exceptional	Good	Acceptable	Marginal	Unacceptable

Factor 2: Responsiveness

How responsive is the proposed solution to the AOI? Solutions responsive to the problem identified in the AOI, without creating new problems, are favored.

Scoring Rubric (Government Use Only)

Exceptional	Good	Acceptable	Marginal	Unacceptable

Factor 3: Viability

How viable is the proposed solution given existing organizational and regulatory environments? Solutions compatible with existing DLA, DoD, and federal policies, processes, and procedures are favored.

Scoring Rubric (Government Use Only)

Exceptional	Good	Acceptable	Marginal	Unacceptable

Factor 4: Desirability

How desirable is the proposed solution to the eventual end-user? Solutions easily adaptable, useful, and implementable are favored.

Scoring Rubric (Government Use Only)

Exceptional	Good	Acceptable	Marginal	Unacceptable

Factor 5: Possibility of Funding

Does funding reasonably exist to fund the proposed solution? Solutions with lower prices are favored. Provide a Rough Order of Magnitude (ROM) in this section
