4. Statutory Authority Permitting Other Than Full & Open Competition

This J&A is based upon the authority of 10 USC 3204(A) (1), only one or a limited number of responsible sources will satisfy agency requirements, as implemented by FAR 6.302-1

5. Rationale Justifying Use of Cited Authority

A/RMC 3

Acquire, for the second or subsequent time, directly from the actual manufacturer.

A/RMSC R

The Government does not own the data or the rights to the data needed to purchase / contract repair of this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights. If only one source has the rights or data to manufacture/repair this item, A/RMCs 3, 4, or 5 are valid. If two or more sources have the rights or data to manufacture/repair this item, A/RMCs 1 or 2 are valid.

This acquisition will be solicited to

VERTEX MODERNIZATION & SUSTAINMENT 96JA0 is the OEM for the part(s) mentioned above and is the only source that possesses the unique expertise and knowledge required for its continued support and maintenance. The Government does not own the necessary data or data rights required to contract for the repair of this part from additional sources. VERTEX MODERNIZATION & SUSTAINMENT 96JA0 retains exclusive rights to the technical data, repair processes, and design information (e.g., proprietary drawings, software code, manufacturing/repair specifications) for these parts. A comprehensive analysis has determined that it is uneconomical to purchase the required data and/or data rights from VERTEX MODERNIZATION & SUSTAINMENT 96JA0. The cost of acquiring these rights would significantly exceed the cost of the Repair from the approved source. Based on the factors outlined above, it is concluded that VERTEX MODERNIZATION & SUSTAINMENT 96JA0 is the only responsible source capable of performing the necessary repairs, given the Government's lack of data rights and the uneconomical nature of data acquisition or reverse engineering. An Other Than Full & Open procurement is necessary to maintain operational readiness and avoid unacceptable cost, schedule, and performance risks.

6. Description of Efforts Made To Solicit Offers From as Many Offerors as Practicable

15 MAR 2019 Class Waiver of the Requirement to Post a Request for Information or Sources Sought Notice applies to this requirement

The proposed contract action was synopsized on the government-wide point of entry on 06/18/2025

and as a result No intrest from Industry.

Market research was conducted in accordance with far part 10. The results of the market research conducted (or the reason(s) market research was not conducted) are as follows

A technical review, which consisted of searching several Government databases including ITIMP,MBPS, and FLIS has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sources of supply, historical sources of supply and past contracts. Based on this market research, the technician has determined that the only known approved manufacturing source is Cage Code 78062, SARGENT AEROSPACE & DEFENSE LLC. A review of the data bases listed in the market research did not reveal nor identify any known distributors or substitutes.

7. Determination of Fair And Reasonable Cost

The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. Actions to Remove Barriers to Future Competition

For reasons set forth in Paragraph (5 & 6), NAVSUP WSS has no plans at this time to compete future contracts for the subject item covered by this document. If another potential manufacturing source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible. Also, future requirements will be advertised on the government-wide point of entry.
