PART I – THE SCHEDULE

SECTION A: SOLICITATION/CONTRACT FORM

1.0 CONTINUATION OF SF 1449, BLOCK 8 OFFEROR DUE DATE / LOCAL TIME

This date refers only to the non-price proposal requirements of this RFP. Offerors are encouraged to submit their proposals early as pricing is not required prior to the date and time defined in Standard Form (SF) 1449, Block 8. Offerors shall submit all non-price proposal elements and all other required documents pursuant to this RFP. For more information about proposal submission and the proposal evaluation methodology refer to sections L and M of this RFP.

Proposals received in response to this RFP will be valid for 180 calendar days (unless a different period is proposed by the offeror and accepted by the Government).

Prices shall be submitted via Attachment IV – PJM Navy 2026 on a date and time to be determined. A date for the submission of prices will be established via an amendment to be issued after the Offer Due Date.

Questions regarding this solicitation must be submitted in writing via email to dlaenergy.eteam@dla.mil no later than 12:00 pm EST, June 26, 2026. The Government may not provide answers to all questions submitted by Offerors prior to the date and time stated in SF 1449, Block 8. Any question not answered by the Government, may be "exception" (rather than a question) to the RFP, and should be submitted within Section K on Attachment titled "Proposal Requirements." The Government reserves the right not to consider any exceptions to the stated solicitation requirements received after the Offer Due Date.

This RFP is issued in accordance with the applicable regulations and guidance established under the Revolutionary Federal Acquisition Regulation (FAR) Overhaul, as implemented at the time of the solicitation issuance, and may be accessed electronically at these address(es):

FAR: https://www.acquisition.gov/far-overhaul/far-part-deviation-guide

DFARS: https://www.acq.osd.mil/dpap/dars/dfars_far_overhaul_class_deviations.html

SECTION B: SUPPLIES OR SERVICES AND PRICES/COST

1.0 SUPPLIES TO BE FURNISHED

The contract quantities shown below are best estimates based on historical (or projected) data only of the Government's requirements for the contract period. The Contractor shall supply and deliver retail electricity and any ancillary services required as follows:

The Contractor shall supply retail electricity and any ancillary services to the point of delivery, to include the scheduling and coordination of the delivery of electricity to the service point for each account under the contract. All quantities ordered by the Government shall be considered firm and guaranteed for delivery by the Contractor to the delivery point, and for scheduling and coordinating, for ultimate delivery to the service point for each account. Charges incurred as a result of the Contractor's failure to abide by the terms of the applicable Retail Access rules and/or the Utility Distribution Company (UDC) Service Agreement shall be the responsibility of the Contractor. With the exception of any and all transmission and distribution related charges payable by the Government to the UDC under the applicable tariff for

each account (unless said charges are the result of the Contractor's failure to perform in accordance with the contract), the Contractor is responsible for all costs associated with deliveries to the delivery point and the scheduling and coordination for delivery of electricity to the service point for each account under the contract. The Contractor shall be liable for any and all penalties and/or additional costs assessed to the Government for the non-delivery of the firm requirements in accordance with paragraphs (f) and (m) of the FAR 52.212-4 TERMS AND CONDITIONS – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES clause. Additionally, Contract performance shall be accomplished in accordance with the terms and conditions of this contract.

As used throughout this solicitation/contract, kW means kilowatt; kWh means kilowatt-hour; and UDC means Utility Distribution Company. Below are the acronyms and full names of each utility service area, public utility commission, and balancing authority.

RTO/ISO:	PJM	
Balancing Authority:	PJM	
Public Utility Commission:	Public Service Commission of the District of Columbia Maryland Public Service Commission State of New Jersey Board of Public Utilities Pennsylvania Public Utility Commission Illinois Commerce Commission	
Utility Service Area:	**BG&E**	Baltimore Gas and Electric
	ComEd	Commonwealth Edison
	JCP&L	Jersey Central Power & Light
	PECO	Philadelphia Electric Power Company
	PEPCO	Potomac Electric Power Company
	PPL	Pennsylvania Power and Light

1.1 CONTRACT LINE ITEM NUMBERS (CLINs) AND QUANTITIES

The Government is soliciting offers for supply and transmission of electricity and ancillary services, the total requirement of which shall be fulfilled with retail electricity for the installations listed in Table 1, below. The Government intends to award on a CLIN basis as stated in Table 1, below.

Table 1: Supplies to be furnished

Type of Price	Retail CLIN	Location / Installation Name	# of Accounts	Total Electricity Requirement (kWh)
LMP	0001	USNO Washington (1 account – 23,519,032kWh) Washington Navy Yard 1 account – 127,880,396kWh)	2	151,399,428
	0002	NMIC (1 account – 59,945,130kWh) Navy Carderock (1 account – 55,357,690kWh)	2	115,302,820
	0003	Naval Academy	2	203,307,848
	0004	Navy Medical Bethesda	2	296,124,842
	0005	Philadelphia Depot Mechanicsburg	1	91,172,000
	0006	US Navy Depot NSA Philadelphia	1	47,941,060
	0007	Naval Station Great Lakes	1	218,830,140
	0008	Earle NWS	3	22,919,564
Total			**14**	**1,146,997,702**

Specifics for each line item are provided in the Installation Data Sheet. The information includes: (1) Contract Line Item Number, (2) Location, (3) Local Electric Utility, (4) Utility Account Number, (5) Monthly Consumption, and (6) Cycle Start Date and Cycle End Date.

Any special account details (such as anticipated change in load, cogeneration, maintenance, shutdowns, etc.) are provided in the applicable CLIN worksheet of the Installation Data Sheet.

1.2 PERIOD OF PERFORMANCE

The Government is soliciting offers for a 24-month delivery period (from the meter read date occurring in the Calendar month of December 2026 through the meter read date occurring in the Calendar month of December 2028. Please be advised the UDC may associate the meter read date occurring in the Calendar-month of December with a different month, however performance for each account must begin on the meter read date occurring in the Calendar-month of December 2025 regardless of the UDC's designated 'meter read-month'.

SECTION C: DESCRIPTION/SPECIFICATIONS/REQUIREMENTS

1.0 PRICING STRUCTURE AND TREATEMENT

The Government is soliciting offers for Fixed-Price (FFP), Requirements-Type contracts utilizing Locational Marginal Price basis for electricity.

1.1 The total amount charged by the Contractor (for accounts listed in Attachment I) each month shall equal the sum of the following components:

(a) ENERGY

For each hour of the month, the Government shall pay the Contractor the product of the Real Time Locational Marginal Price (LMP) for the PJM Load Zone through which the account is served and the metered load of the account, grossed up for applicable distribution line losses for the applicable utility and PJM Load Zone. The hourly EDC loss deration factors as determined and published by PJM shall be applied to the account's load.

(b) TRANSACTION FEE

The Government shall pay the Contractor the product of a fixed fee multiplied by the account's total metered energy consumption in that month. Payment of this fee shall compensate the Contractor for all services performed, as well as all costs incurred whose recovery is not specifically provided for by the Energy and Other Market Charges components described in this section. The Transaction Fee shall include all current and future costs attributed to meeting state Renewable Portfolio Standards (RPS), Unaccounted for Energy (UFE), and the cost of all PJM ancillary services. Existing RPS is inclusive of normal annual increases in state RPS requirements that are already established under current law. Future changes in RPS requirements specifically as a result of a change in law, enacted after the contract award date, shall be handled in accordance with Section 13.0 Electricity Regulatory Changes. The price of the fixed fee shall remain constant throughout the term.

(c) OTHER MARKET CHARGES

i. **Capacity.** Capacity Costs – The cost to secure capacity to comply with PJM Capacity requirements shall be passed through to the Government. The daily capacity charge to the Government shall not exceed the product of the Contractor's Daily Unforced Capacity Obligation on the account's behalf and the PJM Final Zonal Net Load Price for Capacity. The PJM Final Zonal Net Load Price for Capacity is equal to the PJM Final Zonal Capacity Price minus the Final Zonal Capacity

Transfer Rights Credit Rate. The Daily Unforced Capacity Obligation is equal to the Obligation Peak load multiplied by the Final Zonal Reliability Pricing Model (RPM) Scaling Factor times the Forecast Pool Requirement times the Daily Zonal Obligation Peak Load Scaling Factor, as those terms are defined by PJM, for the relevant time period and zone in which the account is located. Obligation Peak Load is also referred to as Peak Load Contribution (PLC) or Capacity PLC in certain UDC markets. Obligation Peak Load (or Capacity PLC) is assigned to the account annually by the relevant UDC.

ii. **Transmission**. Network Integrated Transmission Service (NITS) shall be based on the account's Network Transmission Service Obligation and be a direct pass-through to the Government. PJM's Transmission Enhancement Charge (TEC) Billing Line Item 1108, Transmission Enhancement Credits Billing Line Item 2108, Transmission Enhancement Settlement (EL05-121-009) Charges (PJM Billing Line Item Number 1115), and Regional Transmission Expansion Planning Process (RTEP) charges shall be treated as a direct pass-through to the Government.

iii. **Transmission and Distribution Losses**. The Contractor shall refund to (or charge) the PJM marginal loss credit.

NOTE: For purposes of calculating energy charges, applicable transmission and distribution losses are a pass through and the metered load shall be grossed up to account for distribution losses. Offerors shall use the utility-defined line loss factor applicable to the respective rate class(s) for each individual account(s), as set forth in the state-approved distribution tariff of the applicable utility for each account.

NOTE 1: Energy and line losses charges shall be shown as separate line items.

iv. **Reliability Must Run (RMR) Charges**. The Contractor shall treat RMR charges as a direct pass through with no markup.

v. **Auction Revenue Rights (ARR)**. ARR Credits allocated monthly to the load of the Government's accounts as a firm transmission customer, shall be treated by Contractor as a direct pass through with no mark up, and shall be calculated for each billing period as set forth in Attachment IV – Other Market Charge Appendix.

vi. **Pennsylvania Line Items:** The PA Gross Receipts Tax (GRT) shall not be included in the offered unit prices. It shall be billed as a separate line item as a direct pass- though.

(d) INDICES.

i. In the event that the PJM LMP or any other index upon which any energy price for this contract is determined ceases to publish or is substantially altered in derivation or application (including, but not limited to, the elimination of price caps), the parties shall agree upon a substitute index. If the parties fail to agree on an appropriate substitute index, the matter shall be resolved in accordance with paragraph (d), Disputes, of the CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS clause of the contract.

2.0 CONTRACT PRICE CONVERSION

(a) At any time during contract performance, the Government may request that the Contractor convert any Locational Marginal Price-based contract line items quantity to a firm-fixed price for a specific delivery month(s) or for the remainder of the delivery period, based on the historical usage identified in the Installation Data Sheets.

(b) Price negotiations may be held. If the Government accepts a proposal, the contract will be modified to reflect the revised price(s). Acceptance by the Government of the Contractor's price proposal within the time limit allotted by the Contractor for acceptance of the price proposal shall be binding.

3.0 METERING AND METER READING SERVICES

Will be provided by the incumbent UDC for each account.

4.0 SCHEDULING AND SUPPLY MANAGEMENT

It shall be the Contractor's responsibility to schedule deliveries for all accounts awarded for the delivery period specified herein. The Contractor shall be responsible for supply management and overall coordination of production, transmission, and distribution of electrical power to the service point of each account identified in the contract. As such, the Contractor shall be knowledgeable of and responsible for imbalance policies, transmission grid losses, transmission congestion charges and UDC line losses for the delivery of electricity to the service point of each account under the contract. The Contractor must meet all applicable State and Federal requirements necessary to successfully complete any contract. The Government will not pay any costs associated with the Contractor's failure to deliver electrical power at the delivery point sufficient to meet the demand at the service point of each account under the contract or to schedule and coordinate for the delivery of electricity to each service point.

5.0 RECORD KEEPING

The Contractor shall keep records of retail electricity supply data required to bill in accordance with the utility tariff of each account in an electronic database format compatible with Microsoft Access or a spreadsheet format compatible with Microsoft Excel. Upon request, these records shall be made available to DLA Energy or to any party designated by DLA Energy as authorized to request this data throughout the entire delivery term of any resultant contract.

(a) For accounts with an electricity meter that collects interval (i.e., hourly) electricity consumption data, the Contractor shall keep records of hourly retail electricity consumption data in Microsoft Excel format throughout the entire delivery term of any resultant contract. The Contractor shall make available on request said hourly retail electricity consumption data to DLA Energy or to any party designated by DLA Energy as authorized to request this data.

(b) RESERVED.

(c) RESERVED.

(d) The Contractor shall store all historical electricity data (including data required to bill in accordance with the utility tariff, hourly retail electricity consumption data) for the duration of the contract for this purpose.

6.0 ORDERING

In accordance with FAR 52.216-18, for the purposes of this contract, the instantaneous load at the service point, as described in the individual Installation Data Sheet, shall constitute an order for electricity to be furnished under this contract.

7.0 POINT OF DELIVERY

For this solicitation and any resulting contract, the delivery point for each account is defined as an interconnect with the UDC owned or controlled transmission or distribution systems.

8.0 SERVICE POINT

For this solicitation and any resulting contract, the service point is defined as the meter(s) indicated for each account awarded as described in the Installation Data Sheet

9.0 SPECIFICATIONS

The electricity provided under this contract shall conform to the tariff of the transmitting and/or distributing utility at the delivery point(s) specified in the Schedule.

10.0 DEMAND RESPONSE

During the performance period, any of the installations identified in Table 1 (Supplies to be Furnished) may elect to enroll in a demand response program with a third-party Curtail Service Provider (CSP). The Contractor will be notified of any such enrollment with a third-party CSP and be required to facilitate the Government's participation by applying any applicable credit from the third-party CSP to the invoice(s) of the participating accounts. Upon enrollment, the DRP will be provided the Contractor's contact information.

11.0 ADDING FUTURE ACCOUNTS

It is possible that additional accounts not included in the solicitation may be added to the resultant contract(s). In that event, the Government will provide the Contractor with the account's total electricity requirement (if available) and the two parties shall enter good faith negotiations to determine a price. A bilateral modification will be executed adding the line item on the Standard Form 30, Amendment of Solicitation/Modification of Award.

12.0 NOTIFICATION OF TARIFF/RATE CHANGE

The Contractor shall use commercially reasonable efforts to provide the Contracting Officer with written notice received by the Contractor of any relevant changes to the transportation tariff/rate or the scheduling of a tariff/rate hearing that would reasonably be expected to have impact on the installations within a commercially reasonable time frame. Failure of the Contractor to comply with this contract text shall not be grounds for termination for cause.

13.0 ELECTRICITY REGULATORY CHANGES

(a) The contract price includes all applicable independent system operator/regional transmission organization (ISO/RTO/PUC) charges expected to be in effect and applicable to this contract at Government price acceptance.

(b) "After-imposed (ISO/RTO/PUC) charges," as used in this section, means any new or modified regulatory (ISO/RTO/PUC) charges not in effect or not applicable to transactions under this contract on the date the Government accepts pricing, but which are now in effect or applicable as the result of legislative, judicial, or administrative action, with the result that the Contractor is now required to pay or bear the charges. The contract price shall be increased by the amount of any after-imposed (ISO/RTO/PUC) charge (with no markup), provided the Contractor warrants in writing within a commercially reasonable time frame of the regulation change, that no amount for such after-imposed (ISO/RTO/PUC) charge was included in the contract price, as a contingency reserve or otherwise. The Contractor shall provide such evidence as the Government may require in support of a request for adjustment resulting from any after-imposed (ISO/RTO/PUC) charge.

(c) "After-relieved (ISO/RTO/PUC) charges," as used in this section, means any amount of regulatory (ISO/RTO/PUC) charges that would otherwise have been payable on the transactions or property covered by this contract but which as the result of legislative, judicial or administrative action

taking effect after the contract date the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback. The contract price shall be decreased by the amount of any after-relieved (ISO/RTO/PUC) charges.

(d) "Modified" means an unforeseeable change in law (or equivalent regulatory restructure) which occurs after contract award and results in increased regulatory (ISO/RTO/PUC) charges, the effects of which could not have reasonably been anticipated by the Contractor prior to award.

(e) The Contractor shall notify the contracting officer of any after-imposed or after-relieved (ISO/RTO/PUC) charge within 60 days of the change and if seeking a price increase, simultaneously submit a proper claim for equitable adjustment. Price adjustments shall be accomplished via written modification to the contract.

NOTE: ISO/RTO/PUC is defined to include the applicable Independent System Operator, Regional Transmission Operator, Public Utility Commission, or any Governmental or regulatory entity with the authority to impose charges to which an account supplied under this contract is subject.

14.0 INVOICING AND PAYMENT OFFICES

In addition to the requirements included in FAR 52.212-4(g) and (i), the following billing and payment procedures apply.

(a) The Government will utilize/allow **Dual Billing for all CLINs.** All invoicing shall be based on meter quantities at the service point for each account. The Contractor may only invoice for charges allowed under the terms and conditions of the contract. Any costs associated with billing shall be the responsibility of the Contractor and shall be included as part of the offered price. Each invoice shall be prepared in a manner consistent with and shall conform to the applicable PUC requirements for Dual Billing. In addition to the requirements set forth in FAR 52.212-4 CONTRACT TERMS AND CONDITIONS – COMMERCIAL ITEMS Paragraph (g), each contractor invoice shall include the following information for Dual Billed accounts, if available from the UDC:

(1) Installation name, Line Item, and individual account information (Account Number, Meter Number, and Service Location)
(2) Billing period for each account
(3) Total consumption (kWh) for each account for the billing period
(4) Total energy charge (broken down by energy charges and demand charges)
(5) Capacity Costs and its associated cost for the billing period
(6) Transmission Costs for the billing period
(7) Renewable Energy Credits for the billing period
(8) Transmission Congestion and PJM Losses for the billing period
(9) Supply Service Fee for the billing period
(10) All information required by the PUC/PSC to be included on customer invoices.
(11) Passed through Other Market Charges for the billing period
(12) Demand information for each account number.
(12) For all Pennsylvania line items, the PA Gross Receipts Tax (GRT) shall not be included in the offered unit prices. It shall be billed and as a separate line item.

To calculate the Total Energy Charge (Number 4 above) for each account the Contractor shall provide on each invoice, a per account energy usage break down (hour-by-hour LMP rates for each hour).

NOTE: If a Contractor is unable to issue a bill based on actual meter reading due to the failure of the UDC to obtain or transmit a meter reading to the Contractor, the Contractor may issue a bill based on an estimated reading fifteen (15) calendar days following the meter read date for the affected account. The

Contractor must inform the customer of the reason for the issuance of the estimated bill, and the Government reserves the right to obtain documentation relating to the efforts taken by the Contractor to obtain the meter read data. For estimated billing purposes, the estimate of usage provided by the UDC shall be used first. If no such UDC estimate is available, the Contractor shall use the relevant monthly consumption data (as the estimate) included in the applicable Installation Data Sheet, adjusted for the number of days. All estimated bills shall be trued up on the next billing cycle.

Supplier coordination with the local utility will be necessary to ensure that these customers receive identical billing data from both the supplier and the local utility (i.e. commodity and wire charges must be based on the utility's billing cycle).

Contractor must provide a monthly spreadsheet that includes the same categorical information as would have been produced and submitted within a sub-account. This information is intended to provide traceability and auditability of invoices, which is made available through the production and submission of a sub-account. The offeror must ensure the categories within the sub-account are represented in the alternative document. If the categories are not produced in the alternative document, the offeror will be required to update and change the document prior to or during the course of service to include specific breakouts of charges or links to PJM published rates. The Government unilaterally may require the offeror to establish a PJM sub-account during the course of the contract, if the information provided lacks the information requested by the installation.

(b) **PAYMENT OFFICES.** The payment offices for each installation awarded under any resultant contract will be identified below:

Table 2: Payment Offices

Location / Installation Name	Billing Address	Billing POC
USNO Washington	Billing address will be provided in resultant contract(s).	Billing POC will be provided in resultant contract(s).
Washington Navy Yard		
NMIC		
Navy Carderock		
Naval Academy		
Navy Medical Bethesda		
Philadelphia Depot Mechanicsburg		
US Navy Depot NSA Philadelphia		
Naval Station Great Lakes		
Earle NWS		

SECTION D: PACKAGING AND MARKING

Not Applicable

SECTION E: INSPECTION AND ACCEPTANCE

The Offeror shall comply with FAR 52.212-4(b), Inspection/Acceptance.

SECTION F: DELIVERIES OR PERFORMANCE

Refer to Section B:

- 1.2 Period of Performance

Refer to Section C:

- 6.0 Ordering
- 7.0 Point of Delivery
- 8.0 Service Point

SECTION G: CONTRACT ADMINISTRATION DATA

Refer to Section B, 14.0 Invoice and Payment Offices

SECTION H: SPECIAL CONTRACT REQUIREMENTS

Refer to Section B:

- 12.0 Notification of Tariff/Rate Change
- 13.0 Electricity Regulatory Changes

PART II – CONTRACT CLAUSES

SECTION I: CONTRACT CLAUSES

FAR 52.212-4 Terms and Conditions – Commercial Products and Commercial Services (DEVIATION 2026-O0038)(FEB 2026)(Tailored)

(a) *Definitions.* The clause at Federal Acquisition Regulation (FAR) 52.202-1, Definitions, is incorporated by reference.

(b) *Inspection/Acceptance.* The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any supplies or services that have been tendered for acceptance. The Government may require repair or replacement of nonconforming supplies or reperformance of nonconforming services at no increase in contract price. If repair/replacement or reperformance will not correct the defects or is not possible, the Government may seek an equitable price reduction or adequate consideration for acceptance of nonconforming supplies or services. The Government must exercise its post acceptance rights—

(1) Within a reasonable time after the defect was discovered or should have been discovered; and

(2) Before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

(c) *Assignment.* The Contractor or its assignee may assign its rights to receive payment due as a result of performance of this contract to a bank, trust company, or other financing institution, including any Federal lending agency in accordance with the Assignment of Claims Act (31 U.S.C. 3727). However, when a third party makes payment (e.g., use of the Governmentwide commercial purchase card), the Contractor may not assign its rights to receive payment under this contract.

(d) *Changes.* Changes in the terms and conditions of this contract may be made only by written agreement of the parties.

(e) *Disputes.* This contract is subject to 41 U.S.C. chapter 71, Contract Disputes. Failure of the parties to this contract to reach agreement on any request for equitable adjustment, claim, appeal, or action arising under or relating to this contract shall be a dispute to be resolved in accordance with the clause FAR 52.233-1, Disputes, which is incorporated in this contract by reference. The Contractor shall proceed diligently with performance of this contract, pending final resolution of any dispute arising under the contract.

(f) *Excusable delays* (***Tailored***). The Contractor shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Contractor and without its fault or negligence, such as acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions,

strikes, unusually severe weather, civil disturbance, hostile forces, terrorist acts or transmission failure. An excusable delay or similar event suffered by an independent service operator (ISO) (or an equivalent of an ISO) or a utility distribution company (or electric distribution company or transmission distribution services provider) shall constitute an excusable delay hereunder. The Contractor shall notify the Contracting Officer in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, shall remedy such occurrence with all reasonable dispatch, and shall promptly provide notice to the Contracting Officer of the cessation of such occurrence. Upon delivery of notice of the occurrence of an excusable delay, the obligations of the Contractor shall be suspended to the extent affected by such excusable delay.

(g) *Invoice.* The Government will handle invoices according to the Prompt Payment Act (31 U.S.C. 3903) and 5 CFR part 1315. The Contractor shall submit invoices to the address designated in the contract to receive invoices. An invoice must include the information required by 5 CFR part 1315.9(b).

(h) *Patent indemnity.* The Contractor shall indemnify the Government and its officers, employees, and agents against liability, including costs, for actual or alleged direct or contributory infringement of, or inducement to infringe, any United States or foreign patent, trademark, or copyright, arising out of the performance of this contract, provided the Contractor is reasonably notified of such claims and proceedings.

(i) *Payment—*

(1) Items accepted. Payment shall be made for items accepted by the Government that have been delivered to the delivery destinations set forth in this contract.

(2) Prompt payment. The Government will make payment in accordance with the Prompt Payment Act (31 U.S.C. 3903) and prompt payment regulations at 5 CFR part 1315.

(3) Discount. In connection with any discount offered for early payment, time shall be computed from the date of the invoice. For the purpose of computing the discount earned, payment shall be considered to have been made on the date that appears on the payment check or the specified payment date if an electronic funds transfer payment is made.

(4) Overpayments. If the Contractor becomes aware of a duplicate contract financing or invoice payment or that the Government has otherwise overpaid on a contract financing or invoice payment, the Contractor shall—

(i) Remit the overpayment amount to the payment office cited in the contract along with a description of the overpayment including the—

(A) Circumstances of the overpayment (e.g., duplicate payment, erroneous payment, liquidation errors, date(s) of overpayment);

(B) Affected contract number and delivery order number, if applicable;

(C) Affected line item or subline item, if applicable;

(D) Contractor point of contact; and

(ii) Provide a copy of the remittance and supporting documentation to the Contracting Officer.

(5) Interest.

(i) All amounts that become payable by the Contractor to the Government under this contract shall bear simple interest from the date due until paid unless paid within 30 days of becoming due. The interest rate shall be the interest rate established by the Secretary of the Treasury as provided in 41 U.S.C. 7109, which is applicable to the period in which the amount becomes due, as provided in (i)(6)(v) of this clause, and then at the rate applicable for each six-month period as fixed by the Secretary until the amount is paid.

(ii) The Government may issue a demand for payment to the Contractor upon finding a debt is due under the contract.

(iii) Final decisions. The Contracting Officer will issue a final decision as required by FAR part 33 if–

(A) The Contracting Officer and the Contractor are unable to reach agreement on the existence or amount of a debt within 30 days;

(B) The Contractor fails to liquidate a debt previously demanded by the Contracting Officer within the timeline specified in the demand for payment unless the amounts were not repaid because the Contractor has requested an installment payment agreement; or

(C) The Contractor requests a deferment of collection on a debt previously demanded by the Contracting Officer (see FAR part 32).

(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.

(B) The date of the first written demand for payment, including any demand for payment resulting from a termination for cause.

(vi) The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on-

(A) The date on which the designated office receives payment from the Contractor;

(B) The date of issuance of a Government check to the Contractor from which an amount otherwise payable has been withheld as a credit against the contract debt; or

(C) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the Contractor.

(vii) The interest charge made under this clause may be reduced under the procedures for interest credits prescribed in FAR part 32 in effect on the date of this contract.

(j) *Risk of loss.* Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon—

(1) Delivery of the supplies to a carrier, if transportation is f.o.b. origin; or

(2) Delivery of the supplies to the Government at the destination specified in the contract, if transportation is f.o.b. destination.

(k) *Taxes* (***Tailored***).

(1) The contract price includes all applicable Federal, State, and local taxes and duties in effect at contract signing.

(2) After-imposed Federal, State, or local tax, as used in this DLA Energy FAR Tailored clause, means any new or increased Federal, State, or local excise tax or duty, or tax that was exempted or excluded on the contract award date but whose exemption was later revoked or reduced, or whose computation was later changed during the contract period, on the transactions or property covered by this contract that the Contractor is required to pay or bear as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax, income tax, or other employment taxes. The contract price shall be increased by the amount of any after-imposed Federal, State or local tax, provided the Contractor warrants, in writing, that no amount for such newly imposed Federal, State, or local excise tax or duty or rate increase was included in the contract price, as a contingency reserve or otherwise.

(3) After-relieved Federal, State, or local tax, as used in this DLA Energy FAR Tailored clause, means any amount of Federal, State, or local excise tax or duty that would otherwise have been payable on the transactions or property covered by this contract, but which the Contractor is not required to pay or bear, or for which the Contractor obtains a refund or drawback, as the result of legislative, judicial, or administrative action taking effect after the contract date. It does not include social security tax, income tax, or other employment taxes. The contract price shall be decreased by the amount of any after-relieved Federal, State, or local tax.

(l) *Termination for the Government's convenience*. (***Tailored***)

(1) In accordance with all applicable state and local distribution company regulations, the Government reserves the right to terminate this contract with respect to any or all contract quantities, for its sole convenience. In the event of such termination, the Contractor shall cease deliveries hereunder with respect to such terminated contract quantities on the first allowable date subsequent to such

termination according to the applicable tariff sheets of the local distribution company. The Contractor shall cause any and all of its suppliers and subcontractors to cease work related to this contract prior to the date and time specified by the Government for the termination. Subject to the terms and conditions of this contract, the Contractor shall be paid for electricity delivered under the contract prior to the date and time specified by the Government for the termination of any or all contract quantities plus any additional energy the Contractor is required to deliver for the Government's account under applicable location distribution company tariff sheets.

(2) In the event of a termination for convenience, the Government shall pay the Contractor the termination value, if positive, calculated by the following formula:

(i) Firm Fixed Price: $A = \Sigma (B - C)*D$

Where--

A = Termination value.

B = Award price for each usage period for each season.

C = Forward market bid price, defined herein.

D = Contract quantity for each usage period for each season (based on data listed in the Installation Data Sheet).

(A) If the termination value on the date of termination is negative, the Contractor shall not be entitled to any payment.

(B) The forward market bid price shall be defined as sum of (i) the average of on and off-peak prices at PJM West Hub through which the account is served; and (ii) a reasonable estimate of market charges forming the basis between the Hub and applicable Load Zone; for a term equal to the remaining term of the contract. The forward market price will be determined by the Contractor in a commercially reasonable manner, which may include polling energy brokers on the date of termination. The Government shall have the right to reasonably audit forward market price data obtained by the Contractor.

(C) In the event that the Government elects to terminate on a date other than the end of a month or at the end of the summer/non-summer season, as defined by applicable local distribution company and tariff, the estimated remaining contract quantity will be calculated by prorating the partial month or partial season of service.

(D) In the event of a termination for convenience, the Government's liability shall be limited to the termination value calculated in accordance with the provisions of this tailored clause.

(m) *Termination for cause* (***Tailored***). The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title* (***Tailored***). Title to the electricity supplied by the Contractor under this contract shall pass to the Government upon delivery at the delivery point specified in the Schedule. The Contractor warrants that the electricity delivered to the Government under this contract will be free and clear of any liens, claims and encumbrances arising prior to delivery at the delivery point specified in the Schedule.

(o) *Warranty* (***Tailored***). The Contractor warrants and implies that the electricity delivered hereunder conforms to the tariff of the transmitting and/or distributing utility at the delivery point specified in the Schedule.

(p) *Limitation of liability* (***Tailored***). Except as otherwise provided by an express warranty, the Contractor will not be liable to the Government for any consequential, special, incidental, punitive, exemplary or indirect damages or other business interruption damages except to the extent caused by a Contractor's or its agent's gross negligence or willful misconduct.

(q) *Compliance with laws unique to Government contracts*. The Contractor agrees to comply with 31 U.S.C. 1352 relating to limitations on the use of appropriated funds to influence certain Federal contracts; 40 U.S.C. chapter 37, Contract Work Hours and Safety Standards; 41 U.S.C. chapter 87, Kickbacks; 49 U.S.C. 40118, Government-financed air transportation; and 41 U.S.C. chapter 21 relating to procurement integrity.

(r) *Order of precedence.* Any inconsistencies in this solicitation or contract shall be resolved by giving precedence in the following order:

(1) The schedule of supplies/services;

(2) The Disputes, Payments, Invoice, Compliance with Laws Unique to Government Contracts, and Unauthorized Obligations paragraphs of this clause;

(3) Other contract clauses incorporated in the solicitation or contract;

(4) Addenda to this solicitation or contract;

(5) Solicitation provisions incorporated in the solicitation;

(6) Other paragraphs of this clause;

(7) Other documents, exhibits, and attachments; and

(8) The specification.

(s) *Unauthorized obligations.*

(1) Except as stated in paragraph (s)(2) of this clause, when any supply or service acquired under this contract is subject to any End User License Agreement (EULA), Terms of Service (TOS), or similar legal instrument or agreement, that includes any clause requiring the Government to indemnify the Contractor or any person or entity for damages, costs, fees, or any other loss or liability that would create an Anti-Deficiency Act violation (31 U.S.C. 1341), the following shall govern:

(i) Any such clause is unenforceable against the Government.

(ii) Neither the Government nor any Government-authorized end user shall be deemed to have agreed to such clause by virtue of it appearing in the EULA, TOS, or similar legal instrument or agreement. If the EULA, TOS, or similar legal instrument or agreement is invoked through an “I agree” click box or other comparable mechanism (e.g., “click-wrap” or “browse-wrap” agreements), execution does not bind the Government or any Government authorized end user to such clause.

(iii) Any such clause is deemed to be stricken from the EULA, TOS, or similar legal instrument or agreement.

(2) Paragraph (s)(1) of this clause does not apply to indemnification by the Government that is expressly authorized by statute and specifically authorized under applicable agency regulations and procedures.

(t) *Comptroller General examination of record.* This paragraph applies if this contract was awarded using other than sealed bid procedures and is in excess of the simplified acquisition threshold on the date of award of this contract.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor’s directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices, at all reasonable times, the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR part 4, longer period required by statute, or periods specified in other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This clause does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(u) *Incorporation by reference.* The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

FAR 52.252-2 Clauses Incorporated by Reference (Feb 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

(a) The use in this solicitation of any Federal Acquisition Regulation (48 CFR Chapter 1) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the date of the provision.

(b) The use in this solicitation of any Defense Federal Acquisition Regulation Systems Part 201 (48 CFR Chapter 201) provision with an authorized deviation is indicated by the addition of "(DEVIATION)" after the name of the regulation.

SECTION L: INSTRUCTIONS, CONDITIONS, AND NOTICES TO OFFERORS OR RESPONDENTS

FAR 52.204-7 System for Award Management – Registration, with Alternate I (DEVIATION 2026-O0038) (JAN 2026)

The Offeror shall have an active Federal Government contracts registration in the System for Award Management (SAM) when submitting an offer or quotation in response to this solicitation and at the time of award. As part of the SAM registration process, the Government collects information, as described in paragraphs (b) through (d) of this provision, that is necessary to identify the Offeror and for the Offeror to be awarded Federal Government contracts. To register in SAM, go to https://www.sam.gov. Allow for

processing time when registering in SAM. If the Offeror is not registered in SAM, it should register immediately after receiving this solicitation.

(a) *Definitions*. As used in this provision—

Commercial and Government Entity (CAGE) code has the meaning provided in the clause at the Federal Acquisition Regulation (FAR) 52.204-13, System for Award Management—Maintenance, of this solicitation.

Electronic Funds Transfer (EFT) indicator means a bank account identifier to establish additional System for Award Management records for identifying alternative EFT accounts (see part 32) for the same entity.

Highest-level owner means the entity that owns or controls an immediate owner of the offeror, or that owns or controls one or more entities that control an immediate owner of the offeror. No entity owns or exercises control of the highest-level owner.

Immediate owner means an entity, other than the offeror, that has direct control of the offeror. Indicators of control include, but are not limited to, one or more of the following: ownership or interlocking management, identity of interests among family members, shared facilities and equipment, and the common use of employees. There may be more than one immediate owner (e.g., joint ventures).

Predecessor means an entity whose assets were acquired by the offeror or another entity (most often through merger or acquisition) and whose affairs are now carried out by the offeror or the other entity under a new name.

Taxpayer identification number means the number required by the Internal Revenue Service (IRS) to be used by the offeror to report income tax and other returns. It may be either a Social Security Number or an Employer Identification Number.

Unique entity identifier (UEI) has the meaning provided in the clause at FAR 52.204-13, System for Award Management—Maintenance, of this solicitation.

(b) *Identifiers*. The Offeror shall obtain and provide the following identifying information:

(1) *Unique entity identifier (UEI)*.

(i) The Offeror shall obtain a UEI to register in SAM. The Government will independently validate the existence and uniqueness of the Offeror before assigning a UEI to the Offeror. Go to https://www.sam.gov for instructions on obtaining a UEI.

(ii) The Offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation “Unique Entity Identifier” followed by the UEI that identifies the Offeror's name and address exactly as stated in the offer. The Offeror shall also enter its EFT indicator, if applicable.

(iii) The Contracting Officer will use the UEI to verify that the Offeror has an active Federal Government contracts registration in SAM.

(2) *Taxpayer identification number (TIN)*.

(i) The Offeror shall provide its TIN or related information to comply with debt collection requirements of 31 U.S.C. 7701(c) and 3325(d); reporting requirements of 26 U.S.C. 6041, 6041A, and 6050M; and implementing regulations issued by the IRS. The Offeror shall consent for TIN validation; and

(3) *Commercial and Government Entity (CAGE) code*.

(i) The Offeror shall provide a CAGE code and legal business name (Do not use a “doing business as” name) for—

(A) Itself;

(B) Its immediate owner(s), if any;

(C) Its highest-level owner, if any; and

(D) Any predecessor(s), or predecessor of an Offeror's predecessor, that held a Federal contract or grant within the last three years.

(ii) If the Offeror is in the United States or its outlying areas and does not already have a CAGE code assigned, the DLA CAGE Branch will assign a CAGE code to the Offeror as a part of the SAM registration process. For information on obtaining a CAGE code go to https://cage.dla.mil/.

(iii) The Offeror shall get from any immediate and/or highest-level owner(s) their respective CAGE code(s) to provide the code(s) as part of the registration (FAR 52.204-7(b)(3)(i)).

(iv) If the Offeror is located outside of the United States or its outlying areas, and does not already have a CAGE code assigned, the Offeror may obtain a CAGE code as indicated in the following table.

If the Offeror is…	Then…
Located in a country that is a member of the North Atlantic Treaty Organization (NATO) or a sponsored nation	Contact the appropriate National Codification Bureau (https://www.nato.int/structur/ac/135/about/contacts)
Located in a country that is not a member of NATO or a sponsored nation	Contact the NATO Support and Procurement Agency (NSPA) (https://eportal.nspa.nato.int/AC135Public/scage/CageList.aspx)

(c) Representations and certifications.

(1) The following FAR solicitation provisions contain entity-level representations and certifications that the Offeror shall submit as part of their Federal Government contracts registration in SAM:

Provision	Title	Date
FAR 52.204-5	Women-Owned Business (Other Than Small Business)	OCT 2014
FAR 52.209-2	Prohibition on Contracting with Inverted Domestic Corporations – Representation	NOV 2015
FAR 52.209-5	Certification Regarding Responsibility Matters	AUG 2020
FAR 52.209-11	Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law	FEB 2016
FAR 52.219-1	Small Business Program Representations	FEB 2024
FAR 52.219-1, Alt I	Small Business Program Representations, with Alternate I	FEB 2024
FAR 52.219-1, Alt II	Small Business Program Representations, with Alternate II	MAR 2023
FAR 52.226-2	Historically Black College or University and Minority Institution Representation	OCT 2014

(2) By submitting its offer, the Offeror verifies that, as of the date of its offer, its representations and certifications posted electronically in SAM for the provisions listed in paragraph (c)(1) of this provision are current, accurate, and complete. The Offeror's representations and certifications in SAM are hereby incorporated by reference into its offer.

(d) Other information. The Offeror shall provide more information on its business operations and type that is necessary to be considered for award of certain contracts and financial information necessary to receive payment under contracts.

DFARS 252.204-7998, Alternate A, Annual Representations and Certifications (DEVIATION 2026-O0043)(FEB 2026)

Include the following paragraphs (e), (f), and (g) in the provision at FAR 52.204-7:

(e) (1) If the provision at FAR 52.204-7, System for Award Management Registration, is included in this solicitation, paragraph (g) of this provision applies.

(2) If the provision at FAR 52.204-7, System for Award Management Registration, is not included in this solicitation, and the Offeror has an active registration in the System for Award Management (SAM), the Offeror may choose to use paragraph (g) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The Offeror shall indicate which option applies by checking one of the following boxes:

__X__ (i) Paragraph (g) applies.

____ (ii) Paragraph (g) does not apply and the Offeror has completed the individual representations and certifications in the solicitation.

(f) (1) The following representations or certifications in the SAM database are applicable to this solicitation as indicated:

__X__(i) 252.204-7016, Covered Defense Telecommunications Equipment or Services—Representation. Applies to all solicitations.

____(ii) 252.216-7008, Economic Price Adjustment—Wage Rates or Material Prices Controlled by a Foreign Government. Applies to solicitations for fixed-price supply and service contracts when the contract is to be performed wholly or in part in a foreign country, and a foreign government controls wage rates or material prices and may during contract performance impose a mandatory change in wages or prices of materials.

(iii) 252.225-7042, Authorization to Perform. Applies to all solicitations when performance will be wholly or in part in a foreign country.

(iv) 252.225-7049, Prohibition on Acquisition of Certain Foreign Commercial Satellite Services—Representations. Applies to solicitations for the acquisition of commercial satellite services.

(v) 252.225-7050, Disclosure of Ownership or Control by the Government of a Country that is a State Sponsor of Terrorism. Applies to all solicitations expected to result in contracts of $150,000 or more.

(vi) 252.229-7012, Tax Exemptions (Italy)—Representation. Applies to solicitations when contract performance will be in Italy.

(vii) 252.229-7013, Tax Exemptions (Spain)—Representation. Applies to solicitations when contract performance will be in Spain.

(2) The following representations or certifications in SAM are applicable to this solicitation as indicated by the Contracting Officer: [Contracting Officer check as appropriate.]

____(i) 252.209-7002, Disclosure of Ownership or Control by a Foreign Government.

__X__(ii) 252.225-7000, Buy American—Balance of Payments Program Certificate.

__X__(iii) 252.225-7020, Trade Agreements Certificate.

____Use with Alternate I.

__X__ (iv) 252.225-7031, Secondary Arab Boycott of Israel.

____(v) 252.225-7035, Buy American—Free Trade Agreements—Balance of Payments Program Certificate.

____Use with Alternate I.

____Use with Alternate II.

____Use with Alternate III.
____Use with Alternate IV.
____Use with Alternate V.
____ (vi) 252.226-7002, Representation for Demonstration Project for Contractors Employing Persons with Disabilities.
____ (vii) 252.232-7015, Performance-Based Payments—Representation.

(g) The Offeror has completed the annual representations and certifications electronically via the SAM website at https://www.sam.gov. After reviewing the SAM database information, the Offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in FAR 52.204-7 and paragraph (f) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer, and are incorporated in this offer by reference (see FAR 4.203-1); except for the changes identified below [Offeror to insert changes, identifying change by provision number, title, date]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR/DFARS Provision No.	Title	Date	Change

Any changes provided by the Offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications located in the SAM database.

FAR 52.212-1 Instructions to Offerors—Commercial Products and Commercial Services (DEVIATION 2026-O0038)(JAN 2026)(Tailored)

The paragraphs below have been tailored to be more consistent with commercial practice. All other instructions included in FAR 52.212-1 are hereby incorporated by reference.

(a) *Submission of offers (Tailored).* Refer to the attachments in Section J of this RFP. At a minimum, Offerors must complete and submit the non-price portion of the proposal submission, which is Attachment II – Proposal Requirements, and (if required) Attachment III – Small Business Subcontracting Plan Form. Additionally, each Offeror, with a Unique Entity Identifier (UEI), must submit an independent and complete proposal. Each element of the proposal submission must pertain directly to the Company associated with the UEI. Failure to submit a timely and complete proposal may make an offer unacceptable and ineligible for contract award.

Offerors must acknowledge all solicitation amendments issued under this RFP no later than 12:00 p.m. local Ft. Belvoir, VA time **two** business days (excluding Federal Holidays) prior to the date and time established for the submission of final price proposals. Failure to acknowledge all solicitation amendments by submitting all SF30s signed by an authorized negotiator (which are complete and accurate) in the manner described above may result in the offeror's proposal being excluded from further consideration and consequently, ineligible for contract award.

(b) *Period for acceptance of offers (Tailored).* The offeror agrees to hold the prices in its offer firm for 4 hours, commencing at the date and time specified by the Government.

FAR 52.215-1 Instructions to Offerors-Competitive Acquisition – Alternate I (DEVIATION 2026-O0038)(FEB 2026)

(a) *Definitions*. As used in this provision-

In writing, *writing*, or *written* means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

Proposal modification is a change made to a proposal before the request for proposal closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

Proposal revision is a change to material elements of a proposal made after the request for proposal closing date, at the request of or as allowed by a Contracting Officer, as the result of negotiations.

Time, if stated as a number of days, is calculated using calendar days, unless otherwise specified, and will include Saturdays, Sundays, and legal holidays. However, if the last day falls on a Saturday, Sunday, or legal holiday, then the period shall include the next working day.

(b) *Amendments to requests for proposals*. If this request for proposal (RFP) is amended, all terms and conditions that are not amended remain unchanged. Offerors shall acknowledge receipt of any amendment to this RFP by the date and time specified in the amendment(s).

(c) Submission, modification, revision, and withdrawal of proposals.

(1)

(i) Proposals and modifications to proposals shall be—

(A) Submitted using the method and the format specified in the RFP;

(B) Addressed to the office specified in the RFP; and

(C) Showing the time and date specified for receipt, the RFP number, and the name and address of the offeror.

(ii) Offerors using commercial carriers should ensure that the proposal is marked on the outermost wrapper with the information in paragraphs (c)(1)(i)(B) and (C) of this provision.

(2) The first page of the proposal must show—

(i) The RFP number;

(ii) The name, address, and telephone number of the offeror (and electronic address if available);

(iii) A statement specifying the extent of agreement with all terms, conditions, and provisions included in the RFP and agreement to furnish any or all items upon which prices are offered at the price set opposite each item;

(iv) Names, titles, and telephone number (and electronic addresses if available) of persons authorized to negotiate on the offeror's behalf with the Government in connection with this RFP; and

(v) Name, title, and signature of person authorized to sign the proposal. Proposals signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

(3)

(i) Offerors are responsible for submitting proposals, and any modifications or revisions, so as to reach the Government office designated in the RFP by the time specified in the RFP. If no time is specified in the RFP, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposal or revision is due.

(ii)

(A) Any proposal, modification, or revision received at the Government office designated in the RFP after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(1) If it was transmitted through an electronic commerce method authorized by the RFP, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(2) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(3) It is the only proposal received.

(B) However, a late modification of an otherwise successful proposal that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(iii) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(iv) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the office designated for receipt of proposals by the exact time specified in the RFP, and urgent Government requirements preclude amendment of the RFP, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the RFP on the first work day on which normal Government processes resume.

(v) Proposals may be withdrawn by written notice received at any time before award. Oral proposals in response to oral RFPs may be withdrawn orally. Proposals may be withdrawn in person by an offeror or an authorized representative, if the identity of the person requesting withdrawal is established and the person signs a receipt for the proposal before award.

(4) Unless otherwise specified in the RFP, the offeror may propose to provide any item or combination of items.

(5) Offerors shall submit proposals in response to this RFP in English, unless otherwise permitted by the RFP, and in U.S. dollars, unless the provision at FAR 52.225-17, Evaluation of Foreign Currency Offers, is included in the RFP.

(6) Offerors may submit modifications to their proposals at any time before the RFP closing date and time, and may submit modifications in response to an amendment, or to correct a mistake at any time before award.

(7) Offerors may submit revised proposals only if requested or allowed by the Contracting Officer.

(8) Proposals may be withdrawn at any time before award. Withdrawals are effective upon receipt of notice by the Contracting Officer.

(d) *Offer expiration date*. Proposals in response to this RFP will be valid for the number of days specified on the RFP cover sheet (unless a different period is proposed by the offeror).

(e) *Restriction on disclosure and use of data*. Offerors that include in their proposals data that they do not want disclosed to the public for any purpose, or used by the Government except for evaluation purposes, shall-

(1) Mark the title page with the following legend:

Mark the title page with the following legend: This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any purpose other than to evaluate this proposal. If, however, a contract is awarded to this offeror as a result of, or in connection with, the submission of this data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets [*insert numbers or other identification of sheets*]; and

(2) Mark each sheet of data it wishes to restrict with the following legend:

Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this proposal.

(f) Contract award.

(1) The Government intends to award a contract or contracts resulting from this RFP to the responsible offeror(s) whose proposal(s) represents the best value after evaluation in accordance with the factors and subfactors in the RFP.

(2) The Government may reject any or all proposals if such action is in the Government’s interest.

(3) The Government may waive informalities and minor irregularities in proposals received.

(4) The Government intends to evaluate proposals and award a contract after conducting negotiations with offerors whose proposals have been determined to be within the competitive range. If

the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals. Therefore, the offeror's initial proposal should contain the offeror's best terms from a price and technical standpoint.

(5) The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit cost or prices offered, unless the offeror specifies otherwise in the proposal.

(6) The Government reserves the right to make multiple awards if, after considering the additional administrative costs, it is in the Government's best interest to do so.

(7) The Government may determine that a proposal is unacceptable if the prices proposed are materially unbalanced between line items or subline items. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more line items is significantly overstated or understated as indicated by the application of cost or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

(8) If a cost realism analysis is performed, cost realism may be considered by the source selection authority in evaluating performance or schedule risk.

(9) A written award or acceptance of proposal mailed or otherwise furnished to the successful offeror within the time specified in the proposal shall result in a binding contract without further action by either party.

(10) If a post-award debriefing is given to requesting offerors, the Government shall disclose the following information, if applicable:

(i) The agency's evaluation of the significant weaknesses or deficiencies in the debriefed offeror's offer.

(ii) The overall evaluated cost or price and technical rating of the successful and the debriefed offeror and past performance information on the debriefed offeror.

(iii) The overall ranking of all offerors, when any ranking was developed by the agency during source selection.

(iv) A summary of the rationale for award.

(v) For acquisitions of commercial products, the make and model of the product to be delivered by the successful offeror.

(vi) Reasonable responses to relevant questions posed by the debriefed offeror as to whether source-selection procedures set forth in the RFP, applicable regulations, and other applicable authorities were followed by the agency.

(vii) For DoD contracts in excess of $10 million but not in excess of $100 million with a small business or nontraditional defense contractor (10 U.S.C. 3014), an option for the contractor to request disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

(viii) For award of a DoD contract in excess of $100 million, disclosure of the agency's written source selection decision document, redacted to protect the confidential and proprietary information of other offerors for the contract award.

SECTION M: EVALUATION FACTORS FOR AWARD

FAR 52.212-2 Evaluation—Commercial Products and Commercial Services (DEVIATION 2026-O0038)(FEB 2026)(Tailored)

(a) Evaluation factors (***Tailored***). The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

(1) Past Performance. Offerors must submit three past performance references which the Government will evaluate for recency, relevancy, and quality in order to determine the Government's level of confidence in the Offeror's ability to meet the solicitation requirements.

(i) **Recency** is defined as performance on Government or commercial contracts where there has been at least 12 months of consecutive performance within the last **two** years of the closing of the solicitation. Each offeror will be assessed on recent efforts accomplished by the offeror, focusing on performance that is relevant to the contract requirements.

(ii) **Relevancy** is defined as a present/past performance effort involving similar scope and magnitude of effort and complexities this solicitation requires.

(iii) The Government will review all past performance information collected and determine the quality of the offeror's performance, general trends, and usefulness of the information. (see FAR 15.104(b)(2)).

In accordance with FAR 15.202(c)(3)(ii), the currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance may be considered. If there are past performance documents on file that have been determined to be Recent and Relevant, the Government reserves the right to include these documents as part of the past performance evaluation process. In addition, the Government may use any data the Contracting Officer determines recent and relevant. This includes, but is not limited to information obtained from:

1. Contractor Performance Assessment Reporting System (CPARS)
2. Past Performance Questionnaires
3. Customer Feedback
4. Offeror's past performance on DLA Energy Contracts
5. Electronic Subcontract Reporting System (eSRS)
6. General Services Administration

Offerors are advised that the Government may use information gained from any source to evaluate past performance. Additionally, the Government reserves the right to only consider the Contractor's performance under Federal Government or DLA Energy contracts. In the case of an offeror for whom information regarding the quality of past performance is not available, the offeror will not be evaluated favorably or unfavorably on past performance pursuant to FAR 15.202(c)(1). In this case of the offeror's past performance being unknown, the Government will assign a performance confidence rating of "Neutral."

(2) Technical Capability/Risk. The Government will use a combined technical capability/risk rating to assess the offeror's proposed approach to satisfying the Government's requirements. The offeror shall be evaluated on whether their Technical Capability/Risk Proposal clearly and precisely describes its approach and demonstrates an understanding of the requirement and its ability to successfully perform the requirements of the Schedule of Supplies. The Government's evaluation will focus on any significant weaknesses and/or deficiencies associated with an offeror's proposed approach by analyzing the potential for disruption of schedule, increased cost or degradation of performance, the possible need for increased Government oversight, and the likelihood of unsuccessful contract performance.

(3) Small Business Participation. The Government will use the information submitted by offerors to evaluate the extent to which their proposals demonstrate a commitment to small businesses. The proposal will be evaluated in accordance with the following criteria:

1. The extent of commitment to use such firms;
2. The extent to which such firms are specifically identified in proposals and the complexity and variety of the work small firms are to perform;
3. The extent of participation of such firms in terms of the value of the total acquisition.
4. The realism of the proposal; and
5. History of the offerors in complying with requirements of the clauses at FAR 52.219-8, Utilization of Small Business Concerns, and 52.219-9, Small Business Subcontracting Plan approved by DLA Energy.

(4) Price. The Government will evaluate prices in accordance with FAR 15.404-1(b)(1), comparison of proposed prices received in response to the RFP. Pursuant to FAR 15.404(a)(1), the Contracting Officer will evaluate prices to determine reasonableness of the offered prices. Each offeror's price, in conjunction with the non-price related factors (Past Performance, Technical Capability/Risk, and Small Business Participation), will be the basis for the Government's overall best value award decision.

Relative Weighting of Evaluation Factors: Past Performance is the most important non-price evaluation factor and Small Business Participation is the least important non-price evaluation factor. Technical Capability/Risk is not as important as Past Performance but is significantly more important than Small Business Participation. When combined, all three of these non-price evaluation factors are weighted approximately equal to Price. If two offers are equal in merit, lowest price will be the determining factor.

(b) Options (***Tailored***). Not Applicable.

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.
