Mission Partner Environment (MPE) Operations, Maintenance, and Sustainment (OM&S) acquisition update to industry-

1. The release of the draft RFP is still planned on 25 July 2023. When the draft RFP is posted, the Government will provide the deadline for questions.

2. The industry day is being moved to late August. The reason is to give industry time to review the draft RFP, ask questions, and then time for the Government to prepare responses prior to the industry day. There will be a post on this Notice ID on date, time, and how to access the industry day. The industry day is still planned to be virtual.

3. Release of the official RFP is still planned for 8 Nov 2023.

4. If you have any questions, please contact SAF.CDMX.CONTRACTS@us.af.mil for all correspondence with the government related to this acquisition.
