STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

ITEM NO. (A)	SUPPLIES/SERVICES (B)	QUANTITY (C)	UNIT (D)	UNIT PRICE (E)	AMOUNT (F)
	Please see the attached documentation for the corrections to the solicitation with an updated copy. Period of Performance: 08/01/2026 to 03/31/2031				

Description of Changes: The following changes are hereby incorporated into and made a part of this solicitation:

- Update the heading of the solicitation to incorporate the title and the RFQ number.
- Remove Item 12 Diamond Creek Dike Area – Control Prairie Dogs on page 9.
- Pricing Table is now on page 30.

Receipt of Quotes: The hour and date for receipt of the quotes has not changed.

Third Party: If you have given a copy of the solicitation to someone else, please forward this amendment accordingly.

COMBINED SYNOPSIS/SOLICITATION
WY – BB Dam & Diamond Cr. Dike Facility Weeds
Solicitation No. 140R6026Q0084

This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; quotes are being requested and a written solicitation will not be issued.

Solicitation No. 140R6026Q0084 is issued as a request for quotation (RFQ). The solicitation document and incorporated provisions and clauses are those in effect through **Federal Acquisition Circular FAC 2026-01 Effective 3/13/2026.** The NAICS: 561730 – *Landscaping Services* with an associated small business size standard of $9.5 million. This will be a total small business set-aside.

The Bureau of Reclamation (BOR) Wyoming Area Office (WYAO), Big Horn Basin Field office requires weed spraying services at Buffalo Bill Dam, Diamond Creek Dike Facility and surrounding areas. Please refer to the attached map in Attachments.

All proposals shall be provided to the following addresses/individuals: Melissa Parkison @ melissa_parkison@ios.doi.gov no later than noon on July 1, 2026. There is a pricing table on page 30 for your convenience.

BACKGROUND

Reclamation contracts to control noxious and nuisance weeds on the Reclamation lands identified in this document. Treatment objectives are listed by location. Where all vegetation is to be sterilized, treatment shall be done early, i.e., April or May or late fall to capitalize on environmental moisture. Once a time period is picked (spring or fall) it shall remain the same for the remainder of the contract. Control of broadleaf weeds should be done before plants produce seeds. Note that if weather, such as high winds or snow on the ground restricts treatment during the designated period, the contractor and Reclamation shall mutually agree on proposed alternative dates and/or treatments that will meet Reclamation objectives. Such requests must be submitted in writing and approved in advance.

The contractor must be licensed and certified by the State of Wyoming to commercially apply general-use and restricted-use herbicides and pesticides. The contractor is liable for the safety and health of its employees and for the responsible and correct application of herbicides. The contractor will follow the manufacturer's safety guidelines and recommendations in the application and use of all chemicals.

All spraying shall avoid all water surfaces.

The contractor will submit to Reclamation by December 31, documentation of the number of acres treated, name and quantity of chemicals used, dates of treatments, and treatment locations (maps). This information is required prior to payment. Any Geographical Information System (GIS) data collected during treatment is also requested to be sent to Reclamation.

The site visit for the Buffalo Bill facilities will be conducted on June 17, 2026. Potential contractors will meet at the Buffalo Bill Maintenance Facility building, 4 Reclamation Road, Cody, WY 82214 (44.507580°N, -109.167821°W) at 9 a.m. MDT. To get there, take Highway 14 - 16 - 20 to Hayden Arch Bridge Road 5.1 miles west of Cody, WY. Please RSVP to Melissa Parkison, melissa_parkison@ios.doi.gov no later than 3p.m. MDT, June 15, 2026.

SCOPE OF WORK

The contractor shall provide all personnel, equipment, tools, materials, incidental services and items and supervision necessary to satisfactorily conduct an existing and ongoing noxious weed control program through the performance of invasive species management.

Uncrewed Aircraft Systems (UAS) may be used for this procurement but are not required, if used in the performance of this effort, they will be required to meet specific DOI requirements. The UAS or parts of the UAS may not be manufactured in whole or in part by a covered foreign entity such as the People's Republic of China or any other federally designated foreign country posing a national security risk to the United States, or it allies. The contractor shall furnish all labor, materials, herbicides, equipment, and supervision necessary to satisfactorily control noxious and undesirable weeds throughout the locations identified in this Performance Work Statement (PWS) in accordance with Federal and State laws and regulations. General location maps and application site maps are attached following the performance work statement (see Exhibits A-N).

The contractor shall be able to identify target invasive species in all stages of development and distinguish between invasive species and non-target native species.

The contractor shall use herbicides based on the weed species, objectives, and other criteria specified below under the individual application sites. For any one site, more than one chemical may be used, depending on the variety of pest species and environmental conditions. Treatments shall be completed using rates indicated on the labels and appropriate for site conditions. All chemicals must be compliant with all State and Federal law and regulation requirements. All relevant application restrictions/protections identified on the herbicide/pesticide labels will be followed to protect adjacent waters and properties. The contractor must follow the WDEQ's General Permit for Minor Pesticide Applications.

Appropriate surfactants shall be used to increase efficacy or when indicated on the label. A dye shall be added to all liquid herbicides and/or tank mixtures at a rate sufficient to ensure that the applications are visible to the inspector. The contractor shall submit an annual applicator report to accompany invoices.

The timely and accurate performance of these services must be recognized as a vital and mandatory requirement of the purchase order.

CONTRACTOR'S ADMINSTRATION PERSONNEL

The contractor's administration personnel shall have the authority to act for the contractor on all matters relating to daily operation of the resultant contract. The contractor's representative shall be able to read, write, speak, and understand the English language.

EMPLOYEES

The contractor shall furnish qualified, experienced, drug-free, and safety-oriented personnel to perform the services under this contract. All employees must have current and valid training and licensing for application of herbicides in Wyoming.

SAFETY AND HEALTH REQUIREMENT

All requirements concerning personal safety contained in parts 2, 7, 8, and 11 of the "Reclamation Safety and Health Standards" shall be followed by the applicator. See website https://www.usbr.gov/safety/rshs/index.html for the Reclamation Safety and Health Standards.

The contractor shall develop and submit a comprehensive and site-specific safety plan to the Government for review within 10 calendar days after the post award conference. At a minimum, the contractor's safety plan shall address the following:

- Statement of Contractor Safety and Health Responsibilities – Acceptance that the contractor shall be responsible for the safety and health of their employees.

- Plan of Compliance with Regulations, Standards, and Codes – The contractor's commitment and methods to comply with safety regulations, standards, and codes.

- Plan of Compliance for use of Sub-Contractors – The contractor's commitment and methods to ensure that sub-contractors are working safely.

- Plan of Procedure for Safety Inspection of Equipment – The contractor's method of inspecting equipment to ensure that the equipment does not pose a hazard to employees.

- Fire Prevention and Protection - The contractor's commitment and methods to exercise fire prevention at all times. The contractor shall use and store all combustible material in a safe manner. The contractor shall report any fire hazards to the Government representative. In the event of a fire, the contractor shall call 911 to report the fire and notify the Government representative in charge.

SECURITY OR ACCESS REQUIREMENT

Some treatment locations are behind locked gates. Coordination with the Contracting Officer's Representative, (COR) at least one week in advance will be required to access restricted areas. Work must be performed Monday-Thursday 0700-1730. The COR will notify the dam's Powerplant Supervisor II when the contractor will be on-site and where work will be conducted.

PERIOD OF PERFORMANCE

The Government anticipates that the initial term of the contract shall take place from August 1, 2026, through March 31, 2027. Additionally, up to four (4) one-year option periods may be exercised. Reclamation will exercise such option periods at the Government's discretion. The term of the option periods will be from April 1, 2027, through March 31, 2031.

DOCUMENTATION AND RECORDS

The application records shall contain factual information and be submitted to Reclamation by December 31 of each year the contract is in force. All documentation, records, and schedules as described in this PWS that are the responsibility of the contractor, are the property of the Government. The contractor shall turn over such documentation to the Government upon completion or termination of the contract. All records are subject to the Freedom of Information and Privacy Acts. As such, the Government will handle any requests for release of any records related to the contract.

Global Positioning System (GPS) & Geographic Information Systems (GIS)

The Contractor shall have experience utilizing GPS, including collecting points, lines and areas and correctly attributing them, utilizing correct datums and projections. The contractor shall furnish maps of all contractor activities including the treated areas. The GPS unit shall record the treatment locations with data accuracy of plus or minus not less than one (1) meters and survey shall be performed using the 1983 North American Datum (NAD83) with projection set to Universal Transverse Mercator, Zone 12 North (UTM12). Any maps provided to Reclamation shall include a legend, legal description, North arrow and a reference scale. The Contractor shall be knowledgeable in using GIS and creating shapefiles/KMLs with attribute tables that include date of application, treatment type and herbicides used, target weed species, examiner, and treatment area in acres. GIS maps shall be submitted at time of invoice, for approval by the COR.

GOVERNMENT-FURNISHED REQUIREMENTS

- **General**
  The contractor shall be responsible for any damage to Government buildings or equipment occurring as a result of performance of the contract. The contractor shall understand that in the performance of the contract, the contractor is an independent contractor, and not an agent or employee of the United States.

- **Government-furnished property and materials**

  The government will provide no equipment or supplies for this contract. The contractor will be responsible for all equipment and supplies required to carry out the described work.

NOXIOUS AND NUISANCE WEED AND PEST CONTROL

The contractor shall perform the following tasks on the following described Reclamation land in Platte County:

Buffalo Bill Facility Vegetation Treatment – Shoshone Canyon Areas						
Item	**Name**	**Name**	**Acres**	**Tasks**	Unit Cost	Total Cost
1	Buffalo Bill Power Plant Switchyard	B,F	0.59	Control Woody/ Sterilize

Shoshone Canyon Vegetation Treatment Area Descriptions

- **Buffalo Bill Power Plant Switchyard**
  - Control any woody plants growing directly under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks or joints of paved surfaces

- NOTE: Access to this area is restricted because of high voltage power lines and will require escort by Reclamation personnel. While spraying, a "Hot Line Order" will be required through the Casper Control Center for safety reasons. A Hot Line Order requires two weeks advance notice; therefore, whoever is performing the spraying must contact Reclamation well in advance of the actual work being performed so that the process can be followed. This process is coordinated with the technical advisor on site and the Bighorn Basin Field Office Facility Manager.

- **Spirit Mountain Power Plant**
  - Control any woody plants growing directly under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation within the fenced area and all gravel areas
  - Sterilize all vegetation growing from cracks or joints of paved surfaces

- **Overflow Parking**
  - Control any woody plants growing directly under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks or joints of paved surfaces

- **Maintenance Facility**
  - Control any woody plants growing directly under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks or joints of paved surfaces

- **Upper Storage Area 1**
  - Sterilize all vegetation

- **Upper Storage Area 2**
  - Sterilize all vegetation

- **Bone Yard Storage Area**

- Sterilize all vegetation

- **Division Works of Shoshone Canyon Conduit**
  - Sterilize all vegetation within the fenced area or with the potential to damage the fence, and the area around the communications building

- **Heart Mountain Division Works, South of Highway**
  - Control any woody vegetation over the top of the buried overflow pipe, and 20 feet on each side of the pipe centerline, from the fenced site down to the concrete outlet structure

- **Heart Mountain Division Works, North of Highway**
  - Control any woody vegetation over the top of the buried overflow pipe, and 20 feet on each side of the pipe centerline, from the fenced site down to the concrete outlet structure

- **Heart Mountain Power Plant**
  - Sterilize all vegetation in the treatment area around the power plant

- **Diamond Creek Dike**
  - Control any woody vegetation on the upstream and downstream face of the dike, a 25 foot strip on the dike abutments, and 25 feet out from the upstream and downstream toes of the dike. Control (sterilize) all woody vegetation and broadleaf weeds on the top of the dike and roadway.
    - Woody vegetation includes any sagebrush or alfalfa which is either established or beginning to grow within 25 feet of the upstream and downstream toes of the dike.

- **Diamond Creek Dike Toe Drain**
  - Control any woody and perennial broadleaf vegetation for 50 feet on each side of the drain centerline from manhole to manhole for the entire length (6,700 feet x 100 feet) of the Diamond Creek Dike Toe Drain.

- **Diamond Creek Dike Pump Yard & Stability Berms**
  - Sterilize all vegetation in the fenced area & on Stability Berm

- **Diamond Creek Property Boundary** (18,912 feet long x 20 feet wide)
  - Control any vegetation* in ditches and any noxious weeds along property line boundary (including Russian olive) (18,912 feet long x 20 feet wide)

<u>Buffalo Bill Facility Road and Roadside Vegetation Treatment</u>

- **Old Highway – Parking Area to Visitor Center**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks within the roadway driving surface

- **Shoshone Power Plant Access Road**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks within the roadway driving surface

- **Buffalo Bill Power Plant Access Road**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks within the roadway driving surface

- **Spirit Mountain Power Plant and Storage Area Access Road**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing
  - Sterilize all vegetation growing from cracks within the roadway driving surface

- **Upper Storage Area Access Road**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing

- **Boneyard Access Road**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
  - Control (sterilize) any woody plants growing under and/or with the potential to affect guardrails or fencing

- **Heart Mountain Power Plant Access Road**
  - Control any broadleaf vegetation within five (5) feet of each side of the road surface
  - Control any woody plants growing under and/or with the potential to affect guardrails or fencing

- **Heart Mountain Division Works Spillway**
  - Control all broadleaf vegetation within five (5) feet of each side of the road surface
    - Control woody plants growing under and/or with the potential to affect guardrails or fencing

South Fork Ditch Vegetation Treatment

- **Mountain View Drive Ditch**
    - Suppress all vegetation in the ditch. (We want to limit biomass accumulation and not outright kill the grass so the integrity of the ditch fails.)

- **Cedar Mountain Drive Ditch**
    - Suppress all vegetation in the ditch

- **Sunburst Drive North**
    - Suppress all vegetation in the ditch

- **Sunburst Drive South**
    - Suppress all vegetation in the ditch

South Fork Dike

- **South Fork Dike (1.4 miles long x 155 ft wide)**
    - Control any woody vegetation on the upstream and downstream faces and out 25 feet from the toe in both directions. Also, a 25-foot strip on both abutments.

- **South Fork Dike Area**
    - Control any noxious weeds (including Russian olives) in the South Fork Dike Area

Miscellaneous South Fork Vegetation Treatment Areas

- **South Fork Weather Station**
    - Sterilize all vegetation within the fenced weather station

PERFORMANCE STANDARD

The contractor shall treat all areas to accomplish acceptable coverage. Acceptable coverage is defined as: application of herbicides that results in plant wilt or discoloration for 100% of noxious broadleaf species; and 100% die-off for woody species and weeds treated in bare ground areas. The contractor shall advise Reclamation of treated areas to allow for the timely inspection of treatment areas.

ACCEPTABLE QUALITY LEVEL

All work shall be subject to inspection, approval, and acceptance by the Government. The Government will make full payment after the performance of required services and Reclamation has accepted the services to be fully compliant. As it pertains to the required services, "fully compliant" shall be defined as no departure from the terms of the purchase order and no omission of essential work.
Bare ground areas treated following the EPA label shall remain free of vegetation for 6 months. Broadleaf treatments and spot spraying of noxious weeds shall eliminate at least 80% of target populations.

GOVERNMENT REMEDIES

Areas that fail inspection will be required to be re-treated at no additional cost to the Government.

REQUIRED SUBMITTALS

Submittals from the contractor are required during the term of the contract to ensure quality and safe work under the contract. Required submittals are as follows:

RSN	Submittals Required	Due date or delivery time	No. of sets to be sent to:	
			CO	COR
1	Acceptable certificate of liability insurance	Within 10 calendar days after award	1	0
2	List of chemicals to be used on the contract and their associated SDS	10 days prior to application or more	1	1
3	Reporting Executive Compensation and First-Tier Subcontract Awards at http://www.fsrs.gov	By the end of the month following the month of award of a subcontract with a value of $25,000 or more.	1	1
4	Pesticide Application Records	Annually with invoice	0	1
5	Safety and Health Plan	Within 10 days prior to application	1	1

All proposals shall be provided to the following addresses/individuals: Melissa Parkison @ melissa_parkison@ios.doi.gov no later than noon on July 1, 2026. There is a pricing table on page 30 for your convenience.

CLAUSES

52.252-2 Clauses Incorporated by Reference. (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es): FAR Clauses - https://acquisition.gov/far/

CLAUSE NUMBER	CLAUSE TITLE	CLAUSE DATE
52.203-17	Contractor Employee Whistleblower Rights	(Nov 2023)

52.222-19	Child Labor-Cooperation with Authorities and Remedies	(Mar 2026)
52.222-35	Equal Opportunity for Veterans	(Jun 2020)
52.222-36	Equal Opportunity for Workers with Disabilities	(Jun 2020)
52.222-37	Employment Reports on Veterans	(Jun 2020)
52.222-40	Notification of Employee Rights Under the National Labor Relations Act	(Dec 2010)
52.222-50	Combating Trafficking in Persons	(Oct 2025)

52.223-23	**Sustainable Products and Services**	**(May 2024)**
52.226-7	**Drug-Free Workplace.**	**(May 2024)**
52.227-1	**Authorization and Consent**	**(Jun 2020)**
52.226-8	**Encouraging Contractor Policies to Ban Text Messaging While Driving**	**(Deviation Mar 2026)**
52.232-33	**Payment by Electronic Funds Transfer – System for Award Management**	**(Oct 2018)**
52.232-39	**Unenforceability of Unauthorized Obligations.**	**(Jun 2013)**
52.232-40	**Providing Accelerated Payments to Small Business Subcontractors**	**(Mar 2023)**
52.233-1	**Disputes**	**(May 2014)**
52.233-3	**Protest after Award**	**(Aug 1996)**
52.233-4	**Applicable Law for Breach of Contract Claim**	**(Oct 2004)**
52.242-13	**Bankruptcy**	**(Jul 1995)**
52.249-8	**Default (Fixed-Price Supply and Service)**	**(Apr 1984)**
52.252-6	**Authorized Deviations in Clauses**	**(Nov 2020)**

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 30 days.

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 5 years 6 months.

WBR 1452.223-81 SAFETY AND HEALTH – BUREAU OF RECLAMATION (OCT 2022)

(a) The Contractor shall not require any person employed in the performance of this contract (including subcontracts) to work under conditions which are unsanitary, hazardous, or dangerous to an employee's health or safety.

(b) Contractor shall comply with the most current version of the Bureau of Reclamation's Reclamation Safety and Health Standards (RSHS) and, if incorporated, 52.236-13 Accident Prevention.

The RSHS manual shall be obtained at:

http://www.usbr.gov/safety/rshs/index.html

(c) Comply with the standards (29 CFR) issued by the Occupational Safety and Health Administration (OSHA), U.S. Department of Labor, www.osha.gov.

(d) In the event there is a conflict between the requirements contained in paragraphs (b) and (c) referenced herein, or in the Statement of Work (SOW) or Performance Work Statement (PWS), the more stringent requirement shall prevail.

(e) If required in the SOW or PWS, the Contractor shall submit a written proposed safety program as prescribed in the RSHS and the written specifications.

(f) The Contractor shall maintain an accurate record of and shall report to the Contracting Officer (or authorized representative) in the manner prescribed by the Contracting Officer, all cases of death, occupational diseases, or traumatic injury to employees or the public involved, and property damage in accordance with the RSHS and OSHA guidelines.

(g) If the contractor deems that an updated version of the RSHS constitutes a substantive change to the contract, affecting price or time (or both), the contractor may request a contract modification in accordance with the terms of the contract.

WBR 1452.237-80 SECURITY REQUIREMENTS -- BUREAU OF RECLAMATION (MAR 2022) – ALTERNATE III (MAR 2022)

(a) General Security Requirements:

(1) This clause addresses security requirements, including general procedural requirements, information security requirements, contractor employee suitability requirements, identification card requirements, site security requirements, vessel exclusion barriers, and information technology security requirements. Within this clause, COR means Contracting Officer's Representative. If there is no COR appointed and identified to the Contractor, the term instead will mean the Program Manager or any other authorized individual responsible for technical oversight under the contract. "Work site" means the Government facility, office, construction site, and any other area within the Government office or facility that the Contractor must access to accomplish work under this contract.

(2) The work performed under this contract shall only be accomplished by individuals (in the employment of the Contractor or any subcontractors) whose conduct and behavior is consistent with the efficiency of the Federal Service and the requirements of this contract, and who are acceptable to the contracting officer. If Reclamation finds a Contractor employee to be unsuitable or unfit for his or her assigned duties, the contracting officer will direct the Contractor to remove the individual from the contract and access to the Federal facility at which the contract activities are occurring.

(3) The Contractor's employees governed by this contract may need access to sensitive information and/or sensitive areas. The Federal Government (Government) reserves the right, in its sole discretion, to determine suitability of Contractor personnel and deny access to any sensitive information or project specific area to any personnel for any cause.

(4) The Contractor is responsible for informing and ensuring compliance by its employees with any applicable security procedures of the Government facility where work may be performed under this contract.

(5) Any Contractor employee that will have access to a Federally controlled facility or information system will be required to have a Government-issued identification card, consisting of a Personal Identity Verification (PIV) Card, a temporary identification card, or a visitor badge. (Note: within the Department of the Interior this card is known as a DOI Access Card.) During performance of the contract, the Contractor shall keep the COR apprised of any changes in personnel, or changes in personnel access or duration, to ensure that performance is not delayed by compliance with credentialing processes.

(6) A Contractor employee will not be provided with access to a Government facility or information system until a Government PIV Card, temporary identification card, or visitor identification badge has been issued to the Contractor employee. For those individuals that will be receiving a PIV Card, the Government may, at its discretion, issue a temporary identification card or visitor identification badge after the electronic background investigation forms have been received and the investigation is initiated.

(7) All Contractor employees shall access the facility via the facility's entry screening system and visibly display the Government-issued PIV Card, temporary identification card, or visitor identification badge at all times. Contractor employees must visibly wear the Government-issued identification card at all times they are on Government facilities. Contractor employees are responsible for the safekeeping of all Government-issued identification cards, whether on-site or off-site. Cards that have been lost, damaged, or stolen must be reported to the COR and DOI Access Sponsor immediately, but not later than 24 hours. The Contractor shall return all identification cards and card keys and any other Government property and information upon completion of performance or when personnel depart permanently or for a period of 7 days or more. The Contractor may be required to turn in access control cards or identification cards on a daily basis.

(8) Misuse or loss of access control or identification cards, or failure to comply with required surrender of such cards may, at Government discretion, result in Contractor personnel being denied access to the work site, at no cost to Government. The Contractor may be charged up to

$500 for each occurrence for any required replacement of Government-issued access control or identification cards due to loss or misuse. At the end of contract performance, or when a Contractor employee is no longer working under this contract, the Contractor shall ensure that all access control and identification cards are returned to the COR.

(9) All Contractor personnel, including subcontractor personnel, with access to the work site shall be U.S. citizens or foreign individuals legally residing in, or legally admitted to, the U.S. For all non-U.S. citizens working under this contract, irrespective of length of time working on the contract, the Contractor shall provide to the COR, legible and valid copies of the individual's passport and visa (unless individual is on the Visa Waiver Program) a minimum of 14 calendar days prior to beginning work or arriving at the facility. A driver's license is not acceptable identification. In addition, a completed form I-94 shall be submitted to the COR upon the individual's arrival at the work facility and prior to beginning work.

(10) The Contractor shall report all contacts with entities, individuals, and counsel/representatives (including foreign entities and foreign nationals) who seek in any way to obtain unauthorized access to sensitive information or areas. The Contractor shall report any violations of contract provisions, laws, executive orders, regulations, and guidance to the contracting officer. The Contractor shall report any information raising a doubt as to whether an individual's eligibility for continued employment or access to sensitive information is consistent with the interests of National Security and the Public Trust.

(11) Unsanctioned, negligent, or willful inappropriate action on the part of the Contractor (or its employees) may result in termination of the contract or removal of some Contractor employees from Reclamation facilities at no cost to the Government. These actions include, but are not limited to, exploration of a sensitive system and/or information, introduction of unauthorized and/or malicious software, inappropriate release of sensitive information, or failure to follow prescribed access control policies and/or security procedures. Failure to comply with Reclamation policies, procedures, or other published security requirements may result in termination of the contract or removal of some contracted employees from Reclamation buildings and/or facilities at no cost to the Government.

(12) All provisions of this clause shall equally apply to all subcontractors. The Contractor shall incorporate the substance of this clause in all subcontracts.

(13) These security requirements apply to all sections of this Contract including Contract Drawings and other Contract Specifications as applicable. Related documents include other general provisions of Construction or Operations and Maintenance type Contracts, including FAR clauses by reference or as amended by related documents.

(b) Information Security Requirements.

(1) Sensitive Information. The term "sensitive information" means any information which warrants a degree of protection and administrative control as defined by Reclamation or that meets the criteria for exemption from public disclosure set forth under Sections 552 and 552a of Title 5, United States Code: The Freedom of Information Act and the Privacy Act. Sensitive information is generally categorized as CONTROLLED UNCLASSIFIED INFORMATION

(CUI), but in some cases may include other unclassified information. (The protection of National Security information is beyond the scope of this clause. If any work on National Security information is required under this contract, it is addressed under other contract clauses.) The Contractor shall protect this type of information from unauthorized release into public domain, or to unauthorized persons, organizations, or subcontractors. Information which, either alone or in aggregate, is deemed sensitive by Reclamation shall be handled and protected in accordance with Reclamation Directives and Standards SLE 02-01 Identifying and Safeguarding Controlled Unclassified Information (CUI), which is available from the COR or at http://www.usbr.gov/recman/DandS.html#sle.

(i) Any Government-furnished information or material does not become the property of the Contractor and may be withdrawn at any time. Upon expiration or termination of the contract, all documents released to the Contractor and any material created using data from such documents shall be returned to the COR for final disposition. Government-furnished information residing on any electronic systems (laptops, servers, desktops, media) shall be deleted from those systems using a COR-approved data erasure solution. Only with prior authorization from the contracting officer may the Contractor retain the material. The Contractor or subcontractor shall not disclose or release the materials provided to the Contractor to any individuals of the Contractor's organization not directly engaged in providing services under the contract or that do not have a valid need-to-know. All technical data provided to the Contractor by the Government shall be protected from public or private disclosure in accordance with the markings printed on them. All other information relating to the items to be delivered or the services to be performed under this contract shall not be disclosed by any means without prior approval of the contracting officer. Prohibited dissemination or disclosure includes but is not limited to permitting access to such information by foreign nationals or by immigrant aliens who may be employed by the Contractor, publication of technical or scientific papers, advertising, disclosure to Contractor staff not investigated and deemed acceptable at the appropriate information sensitivity level, and any other public release. The Contractor shall maintain, and furnish upon request of the contracting officer, records of the names of individuals who have access to sensitive material in its custody and the sensitive material to which the individuals had access. All questions regarding information security, access, and control shall be referred to the COR.

(ii) The Contractor shall not release to anyone outside the Contractor’s organization any sensitive, or otherwise protected information, regardless of medium in which it is contained (for example, film, tape, document, electronic), pertaining to any part of this contract or any Reclamation program or activity, unless the contracting officer has given prior written approval. This includes, but is not limited to, news releases, marketing promotions, articles, interviews, reports, social media posts, and any other media releases. Requests for approval shall identify the specific information to be released, the medium to be used, the purpose for the release, and a description of the need-to-know. The Contractor shall submit its request to the contracting officer ten business days before the proposed date for release. Subcontractors shall submit requests for authorization to release through the prime Contractor to the contracting officer.

(iii) The Contractor shall notify the COR immediately when known or suspected loss/compromise of sensitive information or other documents, notes, drawings, sketches, reports, photographs, exposed film or similar information which may affect the security interests of Government has occurred. This requirement extends to employees and other personnel working

on behalf of the Contractor, and expands responsibility to include prompt reporting of security issues, including observed or subsequently discovered efforts by unauthorized persons to gain unauthorized access to sensitive information.

(2) Classified Information.

(i) The disclosure of U.S. Government documents by third parties can result in damage to our national security. While this contract may not deal directly with classified information, each contractor is obligated to protect classified information pursuant to all applicable laws and to use Government information technology systems in accordance with agency procedures so that the integrity of such systems is not compromised.

(ii) Unauthorized disclosures of classified documents (whether in print, on a blog, or on websites, or other electronic or non-electronic media) do not alter the documents' classified status or automatically result in declassification of the documents. To the contrary, classified information, whether or not already posted on public websites or disclosed to the media, remains classified, and must be treated as such by Federal employees and contractors, until it is declassified by an appropriate U.S. Government authority. Executive Order 13526, Classified National Security Information (December 29, 2009), Section 1.1.(c) states, "Classified Information shall not be declassified automatically as a result of any unauthorized disclosure of identical or similar information." Although the Department has taken steps to prevent access to publicly disclosed classified materials from Departmental computers, it is important to understand our continuing duties and responsibilities in this regard.

(iii) Contractors (which include all employees of the contractor, as well as subcontractors and its employees performing work for the contractor) are reminded of the following obligations with respect to the treatment of classified information and the use of unclassified government information technology systems:

(iv) The contractor shall not, while using unclassified Government computers or other devices (such as phones or tablets) access documents that are marked classified (including classified documents made publicly available by a third party), as doing so risks that material still classified will be placed onto unclassified systems. This requirement does not restrict contractor access to unclassified, publicly available news reports (and other unclassified material) that may in turn discuss classified material, as distinguished from access to underlying documents that themselves are marked classified (including if the underlying classified documents are available on public web sites or otherwise in the public domain).

(v) For contracts that require access to classified information, the contractor is responsible for obtaining the required national security clearance through the Department of the Defense National Industrial Security Program Operating Manual (NISPOM). Any classified contracts will be coordinated through the Reclamation Chief Security Officer, or for IT requirements, the Bureau Chief Information Security Officer. No contractor shall access classified information unless proper clearances have been obtained and transmitted to Reclamation. For further information, refer to 443 DM 1 or DOD NISPOM 5220.22-M dated February 28, 2006 (incorporating change 2 dated May 18, 2016).

(vi) Classified information shall not be removed from official premises.

(vii) Classified information shall not be disclosed without proper authorization.

(c) Reserved
(d) Reserved

(e) Site Security Requirements

(1) General Description. This section provides provisions to ensure the full security integrity of the facility and personnel working at the facility. The work of this section may involve interfaces with a number of Government security personnel, normally coordinated through the designated COR. The Contractor is responsible for ensuring that activities are accomplished in a manner that complies fully with applicable security statutes, regulations, policies, directives, and standards.

(2) Government Security Personnel. When and where applicable, personnel may be assigned to control access, secure materials or activities at the work site, or escort Contractor personnel in sensitive areas. Personnel may include security managers, security guards, security contractors acting as agents of the Government, law enforcement personnel, or other contractors or employees. These individuals may be used to ensure the overall security and integrity of the site or building and provide controlled access. These individuals may conduct inspections of all workers, vehicles, equipment, or materials entering, or re-entering the work site. The inspection may be done visually, with walk-through and/or hand-held metal detectors, or by other means as may be deemed necessary by Reclamation.

(3) Contractor Guard Force. At the Contractor's sole discretion, and at the Contractor's own expense, with prior written Government approval, a Contractor may be authorized to hire its own guards to secure Contractor-owned equipment and/or to protect Contractor employees or subcontractors. If such a relationship is permitted, the Contractor shall be exclusively liable for all guard activities to include action or inaction of Contractor's guard personnel. The Government will not offer nor provide any indemnification. Contractor shall be solely responsible for guards at all times to include any supervision, oversight, and for the development of local guard orders and/or procedures. The Contractor shall be responsible for coordinating all guard activities with the COR and shall develop and submit to the COR, for advance approval, any guard orders and/or guard procedures.

(4) Additional Security-Related Submittals

(i) Visitor List. The Contractor shall furnish to the COR, in advance, notification of visit of any Contractor-sponsored visitor to a Government-controlled facility. This notification should be in writing and must include the purpose or nature of the visit, the full name of the visitor, and the full name and phone number of the designated sponsor who will be physically responsible for escorting the visitor for the duration of the scheduled visit.

(ii) Delivery Schedule. The Contractor shall furnish to the COR, in advance, a schedule for all deliveries. This list shall include estimated delivery date, time, nature of the materials being delivered, and – where available – the name of delivery company and type of vehicle.

(iii) Explosives Security Plan. The Contractor shall furnish to the COR for approval, in advance, an explosives security plan at any work site where explosives will be stored or used.

(5) General Provisions.
(i) General. The Contractor shall comply with the Government's site security procedures as specified, and as requested subsequent to award of Contract. Failure of the Contractor to comply with required access controls, information handling procedures, or any other security controls or procedures, may result in revocation of Contractor personnel access to the work site. The Government reserves the right to modify or clarify security provisions of this contract based on changing political and civil circumstances, and perceived threats to personnel or the facility.

(ii) Security Facilities and Equipment. The Contractor shall use security facilities and equipment only for the purposes intended and as directed by the contracting officer. The Contractor shall comply with the Government's instructions for use of secure storage areas, site enclosure and gates, temporary security lighting, building space enclosure, and lockup devices and systems established for detection, monitoring, signaling, and alarming field office facilities. Measures necessary to secure the integrity of materials, equipment, and tools installed or used in furtherance of this contract shall be at no cost to the Government.

(iii) Security Personnel Availability/Work Schedules. The Contractor shall notify the COR at least 48 hours in advance of any projected work which might impact on security or require the scheduling of extended security personnel support. The Contractor shall provide a weekly work schedule, such as anticipated delivery of materials, use of explosives or heavy machinery, and extra time needed for continuous or inherently lengthy construction or project specific operations (such as concrete placement).

(iv) Deliveries. The Contractor shall provide at least one day's advance notice of major deliveries, including time of arrival and trucks/carriers/documentation to be expected for arrival at work site. The Contractor shall provide reasonable advanced notice of deliveries which must be accommodated/accepted at times other than the Government's established working hours. Failure to provide adequate advanced notice may result in delivery delays at the Contractor's expense.

(v) Site Access. All Contractor personnel will be issued appropriate identification and must comply with all local access control procedures. The Government reserves the exclusive right to refuse or disallow any vehicular or pedestrian access to any Government-controlled facility, lands, or for any deliveries to the work site, regardless if access was scheduled or unscheduled.

(vi) Inspections and Searches. The Government reserves unqualified and unlimited rights at any time to conduct security-related inspections or searches of work, material, equipment, personnel, and temporary facilities at the work site. The Contractor shall afford unrestricted access to work and allow surveillance and inspection by any Government personnel as authorized by the COR. The Government reserves the right to conduct searches of articles and personal effects of all

Contractor personnel, both at point of entry and exit from the work site or Government facility. All Contractor personnel entering and leaving the work site may be required to pass through a Walk-Through-Metal-Detector device and/or other detection devices.

(vii) After Duty Hours. No Contractor personnel shall be permitted access to the work site after the Government's established working hours without prior authorization from the Government. All personnel seeking access to the site after the Government's established working hours may be required to sign in and out in a visitor's log that may be maintained by the on-duty security personnel (if any).

(viii) Access Procedures at Sensitive Areas. In some instances, the Contractor may be required to erect temporary security barriers and doors to isolate a sensitive area as instructed by the Government. The Contractor may be required to install locks and thereafter control access. The Contractor shall comply with the Government's requirement for limited and escorted access to the sensitive area. The Contractor shall notify the COR at least one day prior to each requested access to the sensitive area that is outside of the Government's established working hours.

(ix) Reported Violations. Where an indication, report, or observation of unauthorized access or performance of unauthorized work has occurred, the Government reserves the right to stop work and deny access until the circumstance and work can be investigated, inspected, tested, and resolved. The entire cost of such stoppages and resolutions shall be borne by Contractor, except when alleged violations of established security requirements, after investigation, are found not to be the fault of the Contractor.

(x) Briefings. Contractor personnel who will be assigned to this project, and who will have access to the work site, may be required to attend Government-conducted security briefings. The Government reserves the right to conduct security briefings for Contractor personnel and visitors at all levels of involvement in performance of work and maintenance of security. Required briefings may include, but are not limited to, the following: Information Security, Site Security Requirements and Procedures, Security Awareness, Delivery Methods and Inspections, Storage Requirements, Reporting Requirements, Supervisory Procedures, Contractor Employee Conduct, Visitor Control, and Threats.

(xi) Key Control. Control of keys/access codes and lock combinations is essential for the Government's project security. The Contractor shall not allow keys or access codes to be duplicated or removed from the work site, nor allow lock combinations to be divulged without specific written advanced authorization from the COR. Such loss of control, observed or suspected, may result in a requirement to change locks involved at the Contractor's expense. At the direction of the COR, the Contractor shall provide duplicate keys and lock combinations to Government security personnel when requested for the purpose of security inspections and emergency actions, including keys, combinations, and access codes needed for unrestricted access to every area and element of the project. The Contractor may be required to establish a key control program that is acceptable to the Government for Government-issued keys and for heavy machinery parked at the construction site (if this is a construction contract).

(xii) Vehicle Control. In general, parking of vehicles on the work site shall not be permitted, except for tractors, cranes, and similar equipment used directly in performance of work, for

delivery of materials/supplies, and for removal of waste and surplus material. The Government may designate an approved contractor employee parking area. Upon entering the work site, vehicles and drivers may be subject to search and inspection. The Contractor shall obtain authorization from the COR to park the Contractor's official vehicles and motorized vehicular construction equipment that are required/desired to be parked on the work site. Vehicles in violation may be towed off the work site at the Contractor's expense. Where Government-designated employee parking is not available, parking of construction employees' automobiles and similar transportation vehicles may be excluded from the work site. It is the Contractor's responsibility to arrange for suitable accommodation for these vehicles.

(xiii) Prohibited/Restricted Items. Prohibited/restricted items and activities on the work site include but are not limited to the following: firearms and other weapons, except as specifically authorized by the COR in compliance with state and Federal laws and regulations; drugs, including narcotics, barbiturates, marijuana, alcoholic beverages, and similar substances, except for use with valid medical prescription; and explosives.

(xiv) Exceptions for Explosives. When needed for use in specifically limited amounts and controlled circumstances for construction work, explosives may be brought onsite with written prior authorization from the COR. As a hazardous material, the Contractor shall treat the use of explosives in accordance with regulations and guidance provided by Federal, State, and local authorities. The storage of explosives shall be in accordance with requirements of the Bureau of Alcohol, Tobacco, and Firearms or the State in which they are stored. If onsite storage of explosives is necessary, explosives shall be stored at a pre-designated, secure site approved by the COR. Prior to Government approval of storage, the Contractor shall develop and submit to the COR a complete storage/security/retrieval plan for approval. The storage/security plan can be included in a "Blasting Safety Plan." The plan shall make accommodations for surveillance, detection, and response. Explosives firing systems shall be stored off-site and under no circumstances shall be stored together with explosives.

(xv) Photography. The use of photographic equipment and taking of photographs shall only be allowed as authorized by the COR.

(f) Reserved

DOI-AAAP-0028 Electronic Invoicing and Payment Requirements – Invoice Processing Platform (IPP) (APR 2013)

Payment requests must be submitted electronically through the U. S. Department of the Treasury's Invoice Processing Platform System (IPP).

'Payment request' means any request for contract financing payment or invoice payment by the Contractor. To constitute a proper invoice, the payment request must comply with the requirements identified in the applicable Prompt Payment clause included in the contract, or the clause 52.212-4 Contract Terms and Conditions - Commercial Items included in commercial item contracts. The IPP website address is:

https://www.ipp.gov.

It is highly recommended that the Contractor also submit an electronic copy of the IPP invoice to melissa_parkison@ios.doi.gov prior to the invoice being submitted to IPP. Failure to email the invoice may cause significant delay or possible rejection of your payment request.

The Contractor must use the IPP website to register access and use IPP for submitting requests for payment. The Contractor Government Business Point of Contact (as listed in SAM) will receive enrollment instructions via email from the Federal Reserve Bank of St. Louis (FRBSTL) within 3 - 5 business days of the contract award date. Contractor assistance with enrollment can be obtained by contacting the IPP Production Helpdesk via email IPPCustomerSupport@fiscal.treasury.gov or phone (866) 973-3131.

If the Contractor is unable to comply with the requirement to use IPP for submitting invoices for payment, the Contractor must submit a waiver request in writing to the Contracting Officer with its proposal or quotation.

PROVISIONS

52.252-1 Solicitation Provisions Incorporated by Reference (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):
Federal Acquisition Regulation: https://www.acquisition.gov/far
Department of the Interior Acquisition Regulation: https://www.acquisition.gov/diar

Provision Number	Provision Title	Provision Date
52.204-7	System for Award Management	(Deviation Mar 2026)
52.209-2	Prohibition on Contracting with Inverted Domestic Corporations – Representation	(Nov 2015)
52.212-1	Instruction to Offerors – Commercial Products and Commercial Services	(Sep 2023)

52.209-11 Representation by Corporations Regarding Delinquent Tax Liability or a Felony Conviction under any Federal Law (Feb 2016)

(a) The Government will not enter into a contract with any corporation that–

(1)Has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, where the awarding agency is aware of the unpaid tax liability, unless an

agency has considered suspension or debarment of the corporation and made a determination that suspension or debarment is not necessary to protect the interests of the Government; or

(2) Was convicted of a felony criminal violation under any Federal law within the preceding 24 months, where the awarding agency is aware of the conviction, unless an agency has considered suspension or debarment of the corporation and made a determination that this action is not necessary to protect the interests of the Government.

(3) The Offeror represents that–

a. It is □ is not □ a corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability; and

b. It is ☐ is not ☐ a corporation that was convicted of a felony criminal violation under a Federal law within the preceding 24 months.

52.212-2 Evaluation—Commercial Products and Commercial Services (Deviation Mar 2026)

i. The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

To be considered for award, pricing of ALL line items in the price schedule shall be quoted and technical specification sheets shall be provided.

Factor 1: Technical
Factor 2: Past Performance
Factor 3: Price

Technical and past performance, when combined, are of equal importance, but less important than price.

DIAR 1452.215-71 Use and Disclosure of Proposal Information – Department of the Interior (Apr 1984)

(a) Definitions. For the purposes of this provision and the Freedom of Information Act (5 U.S.C. 552), the following terms shall have the meaning set forth below:

(1) "Trade Secret" means an unpatented, secret, commercially valuable plan, appliance, formula, or process, which is used for making, preparing, compounding, treating or processing articles or materials which are trade commodities.

"Confidential commercial or financial information" means any business information (other than trade secrets) which is exempt from the mandatory disclosure requirement of the Freedom of Information Act, 5 U.S.C. 552. Exemptions from mandatory disclosure which may be applicable to business information contained in proposals include exemption (4), which covers "commercial and financial information obtained from a person and privileged or confidential," and exemption (9), which covers "geological and geophysical information,

including maps, concerning wells."

(b) If the offeror, or its subcontractor(s), believes that the proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, (5 U.S.C. 552), the cover page of each copy of the proposal shall be marked with the following legend: "The information specifically identified on pages ___of this proposal constitutes trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act. The offeror requests that this information not be disclosed to the public, except as may be required by law. The offeror also requests that this information not be used in whole or part by the government for any purpose other than to evaluate the proposal, except that if a contract is awarded to the offeror as a result of or in connection with the submission of the proposal, the Government shall have the right to use the information to the extent provided in the contract."

(c) The offeror shall also specifically identify trade secret information and confidential commercial and financial information on the pages of the proposal on which it appears and shall mark each such page with the following legend:

"This page contains trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act and which is subject to the legend contained on the cover page of this proposal."

(d) Information in a proposal identified by an offeror as trade secret information or confidential commercial and financial information shall be used by the Government only for the purpose of evaluating the proposal, except that (i) if a contract is awarded to the offeror as a result of or in connection with submission of the proposal, the Government shall have the right to use the information as provided in the contract, and (ii) if the same information is obtained from another source without restriction it may be used without restriction.

(e) If a request under the Freedom of Information Act seeks access to information in a proposal identified as trade secret information or confidential commercial and financial information, full consideration will be given to the offeror's view that the information constitutes trade secrets or confidential commercial or financial information. The offeror will also be promptly notified of the request and given an opportunity to provide additional evidence and argument in support of its position, unless administratively unfeasible to do so. If it is determined that information claimed by the offeror to be trade secret information or confidential commercial or financial information is not exempt from disclosure under the Freedom of Information Act, the offeror will be notified of this determination prior to disclosure of the information.

(f) The Government assumes no liability for the disclosure or use of information contained in a proposal if not marked in accordance with paragraphs (b) and (c) of this provision. If a request under the Freedom of Information Act is made for information in a proposal not marked in accordance with paragraphs (b) and (c) of this provision, the offeror concerned shall be promptly notified of the request and given an opportunity to provide its position to the Government. However, failure of an offeror to mark information contained in a proposal as trade secret information or confidential commercial or financial information will be treated by the Government as evidence that the information is not exempt from disclosure under the Freedom of Information Act, absent a showing that the failure to mark was due to unusual or extenuating circumstances, such as a showing that the offeror had intended to mark, but that markings were omitted from the offeror's proposal due to clerical error.

The Government reserves the right to not make award.

The Government intends to only make one award.

ii. Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

iii. A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

99841 - Vending Machine Repairer		24.87
99842 - Vending Machine Repairer Helper		19.78

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors, applies to all contracts subject to the Service Contract Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is the victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

Note: Executive Order 13658 generally applies to contracts subject to the Service Contract Act that were awarded on or between January 1, 2015 and January 29, 2022, and that have not been renewed or extended on or after January 30, 2022. If a contract is subject to Executive Order 13658, the contractor must pay all covered workers at least $13.65 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the cor
Additional information on contractor requirements and worker protections under Executive Order 13658 is available at www.dol.gov/whd/govcontracts.

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: $5.55 per hour, up to 40 hours per week, or $222.00 per week or $962.00 per month

HEALTH & WELFARE EO 13706: $5.09 per hour, up to 40 hours per week, or $203.60 per week, or $882.27 per month*

*This rate is to be used only when compensating employees for performance on an SCA-covered contract also covered by EO 13706, Establishing Paid Sick Leave for Federal Contractors. A contractor may not receive credit toward its SCA obligations for any paid sick leave provided pursuant to EO 13706.

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor, 3 weeks after 8 years, and 4 weeks after 15 years. Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (See 29 CFR 4.173)

HOLIDAYS: A minimum of eleven paid holidays per year: New Year's Day, Martin Luther King Jr.'s Birthday, Washington's Birthday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4.174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES RECEIVE THE FOLLOWING:

1) COMPUTER EMPLOYEES: This wage determination does not apply to any individual employed in a bona fide executive, administrative, or professional capacity, as defined in 29 C.F.R. Part 541. (See 41 C.F.R. 6701(3)). Because most Computer Systems Analysts and Computer Programmers who are paid at least $27.63 per hour (or at least $684 per week if paid on a salary or fee basis) likely qualify as exempt computer professionals under 29 U.S.C. 213(a)(1) and 29 U.S.C. 213(a)(17), this wage determination may not include wage rates for all occupations within those job families. In such instances, a conformance will be necessary if there are nonexempt employees in these job families working on the contract.

Job titles vary widely and change quickly in the computer industry, and are not determinative of whether an employee is an exempt computer professional. To be exempt, computer employees who satisfy the compensation requirements must also have a primary duty that consists of:

(1) The application of systems analysis techniques and procedures, including consulting with users, to determine hardware, software or system functional specifications;

(2) The design, development, documentation, analysis, creation, testing or modification of computer systems or programs, including prototypes, based on and related to user or system design specifications;

(3) The design, documentation, testing, creation or modification of computer programs related to machine operating systems; or

(4) A combination of the aforementioned duties, the performance of which requires the same level of skills. (29 C.F.R. 541.400).

Any computer employee who meets the applicable compensation requirements and the above duties test qualifies as an exempt computer professional under both section 13(a)(1) and section 13(a)(17) of the Fair Labor Standards Act. (Field Assistance Bulletin No. 2006-3 (Dec. 14, 2006)). Accordingly, this wage determination will not apply to any exempt computer employee regardless of which of these two exemptions is utilized.

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am. If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

** HAZARDOUS PAY DIFFERENTIAL **

An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives. Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving re-grading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

** UNIFORM ALLOWANCE **

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage

determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of $3.35 per week (or $.67 cents per day). However, in those instances where the uniforms furnished are made of """"wash and wear"""" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

** SERVICE CONTRACT ACT DIRECTORY OF OCCUPATIONS **

The duties of employees under job titles listed are those described in the """"Service Contract Act Directory of Occupations"""", Fifth Edition (Revision 1), dated September 2015, unless otherwise indicated.

** REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE, Standard Form 1444 (SF-1444) **

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination (See 29 CFR 4.6(b)(2)(i)). Such conforming procedures shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be paid to all employees performing in the classification from the first day of work on which contract work is performed by them in the classification. Failure to pay such unlisted employees the compensation agreed upon by the interested parties and/or fully determined by the Wage and Hour Division retroactive to the date such class of employees commenced contract work shall be a violation of the Act and this contract. (See 29 CFR 4.6(b)(2)(v)). When multiple wage determinations are included in a contract, a separate SF-1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).

2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the U.S. Department of Labor, Wage and Hour Division, for review (See 29 CFR 4.6(b)(2)(ii)).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour Division's decision to the contractor.

6) Each affected employee shall be furnished by the contractor with a written copy of such determination or it shall be posted as a part of the wage determination (See 29 CFR 4.6(b)(2)(iii)).

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the """"Service Contract Act Directory of Occupations"""" should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination (See 29 CFR 4.152(c)(1))."" "
