RFP QUESTIONS ANSWERS
SOLICITATION N62742-19-R-1199
GUAM BASE OPERATIONS SUPPORT SERVICES, JOINT REGION MARIANAS (JRM)

Ques. #	Reference (Sect/Para/Page or PWS Sect)	Question	Government Response
24	Attachment JH-1 & RFP Page 80, Section M, Paragraph M.1.C.7	The referenced RFP paragraph states: "The proposed indirect rate ceilings will be reviewed for reasonableness and the degree to which it accomplishes the Government's desire to control costs." In the event that Ceiling Rates differ from Proposed Rates on an offeror's submitted Attachment JH-1, will the government please clarify whether or not it intends to adjust that offeror's proposed pricing as part of the review described in paragraph M.1.C.7?	In the event that Ceiling Rates differ from Proposed Rates on an offeror's submitted Attachment JH-1, the Government does not intend to adjust the Offeror's proposed pricing as part of the review described in RFP Section M, paragraph M.1.C.7.
32	A.1	The RFP states this is a follow-on to bridge contract N62742-19-C-1175. Can the government confirm if this BOS is a total follow-on or related to previously awarded contract N6274217C1190 to Fluor?	Deferred
35	JL-4 Resources Workbook	Is the complete JL-4 Resources Workbook including all contract resources for the entire project required to be included in both the Factor D - Technical Approach and Factor C - Management?	RFP Attachment JL-4 Resources Workbook shall be submitted under Factor D - Technical Approach. See revised RFP Section L.7, Amendment 0005.
39	Section I and L.6	Section I incorporates FAR 52.219-9 (Dev 2018-O018). L.6 references FAR 52.219-9 Alt II. Which is the correct version of the clause?	The correct clause is FAR 52.219-9 (Dev 2018-O0018) Alt II. Therefore, Section I and L.6 will be amended to include FAR 52.219-9 (DEV 2018-O0018) Alt II. ~~Amendment forthcoming.~~ **See Amendment 0005.**
43	L.7 VOLUMES II & III Factor D, Technical Approach (p75)	There are no performance objectives/standards for Annex 1 General Information and, as such, would not have an approach or staffing levels. **Question:** Will the Government please provide clarification for including Annex 1 General Information in the technical methodology discussion?	Annex 0100 was inadvertently included in the Annex list in Factors B - Corporate Experience and D - Technical Approach. Annex 0100 has been deleted in the revised Section L.7 - See Amendment 0005.
46	L.7 Factor C, Management (p74)	**Question**: If the bidder identifies other Key Personnel in addition to those identified by the solicitation, is the bidder required to submit resumes and letters of intent for the additional contractor-identified Key Personnel?	Deferred
47	1700000 BSVE 3.1.2 and 3.1.5	There is a discrepancy between Section C paragraphs 3.1.2 and 3.1.5. The referenced paragraphs state: **3.1.2** Contractor shall provide: a) Qualified/certified/licensed operators for WHE and MHE services to include movement of ordnance. b) Qualified/certified rigging personnel and support. **3.1.5** Ordnance Transportation Support 2) The Government will provide the ordnance riggers and signalmen. **Question:** Will the Government please clarify whether the contractor must provide Ordnance Drivers, Riggers, and Signalmen?	Deferred
48	1700000 BSVE 3.1.5	Section C paragraph **3.1.5 Ordnance Transportation Support** states the following: The contractor shall provide the following services: b) Ensure the trailers and stake trucks have wooden decking installed to facilitate ordnance dunnaging. Attachment **J-0200000-07** lists stake trucks as GFE on GF-GR 1700000 tab. **Question:** Will the Government please clarify if Ordnance transportation vehicles, trailers, and stake trucks are to be provided by the contractor, or if they are Government Furnished Equipment/Vehicles (GFE/GFV)?	Deferred
49	L.7 Factor C, Management (p74); Section H.9 (p27)	Section H states the Government will pay the relocation costs for the four Key Personnel referenced in Annex 2, paragraph 2.7.1. **Question:** Will the Government consider requiring letters of intent and resumes for only those Key Personnel identified in paragraph 2.7.1 (listed below), and eliminate the requirement for letters of intent and resumes for the additional 12 Key Personnel listed in Factor C Management on page 74? 2.7.1.1 Project Manager 2.7.1.2 Quality Manager 2.7.1.3 Site Safety and Health Officer (SSHO) 2.7.1.4 Environmental/Energy Manager	Deferred

50	L.7, Factor C - Management	Factor C requires resumes and letters of intent for 16 key personnel positions. Many of these positions require experience and qualifications very specific to operation of the Base Operations Support program at Naval Base Guam. The Government's requirement affords the incumbent contractor with an unfair competitive advantage. The incumbent has operated this contract without competition since 2004, allowing them to identify and hire qualified personnel in positions onerously difficult for other offerors to fill in less than 60 days on a remote island contract. Additionally, Executive Order (E.O.) 13495, "Nondisplacement of Qualified Workers Under Service Contracts" requires the awardee to offer the current workforce right of refusal, obviating any qualified candidates the offeror included in their response. Will the Government remove the key personnel requirement, or allow offerors to provide qualifications, in lieu of resumes, that meet or exceed the specifications included in the PWS?	Deferred
51	Industry Conference	During the industry conference, Ms. Julian stated that the closing date for questions was August 9th and that the Government planned to answer all questions NLT August 16th. The significant production effort required for this response, combined with the shipping time from the mainland to Honolulu, would allow offerors less than a week to respond to questions. Will the Government consider extending the proposal closing date and time?	The proposal due date remainds unchanged.
52	Attachment J-1502000-01 Dynamics.1.PDF, Attachment J-1502000-01 Dynamics.2.PDF, Attachment J-1502000-01 Non-Dynamics.PDF	Included in the referenced files is the detailed RPIE counts (asset types by descriptions, Qty,'s columns, notes, et) critical to determining a bottoms up staffing of the number and types of FTE's needed to meet the stated requirements. In the current PDF format, data cannot be sorted or even read when printed on 11X17 paper. Furthermore, with more that 200 rows one on page, data cannot accurately be read tracked or counted using computer screens alone. Will the government please provide the data in excel files so bidders can accurately categorize and count equipment inventories by site bldg. etc.?	Deferred
53	H.3 Required Insurance	Does the U.S. Government expect the Contractor to provide full coverage hull insurance for any physical damage to U.S. watercraft regardless of fault or negligence, or does the Government only require the Contactor to have insurance for their own legal liability regarding damage U.S. watercraft. Full coverage hull insurance could be expensive to provide, especially for watercraft not Contractor owned.	Deferred
54	H.3 Required Insurance	Can the U.S. Government provide more specific information regarding vessel operations, terminal operations (i.e. loading/unloading of vessels and other vessel support), and operations associated with barges in order to better understand for Marine Liability insurance pricing purposes.	Deferred
55	Section L, Factor C; Amendment 004, C_1601000_Utility_Management_(190725), 2.2.1.1; C_1602000_Electrical_(190725), 2.2.1; C_1604000_Wastewater_(190725), 2.2.2.1; C_1605000_Steam_(190725), 2.2.2.1; C_1606000_Water_(190725), 2.2.2.1	The revision to the key personnel specifications appear to favor the experience, education, training, certifications, and registrations of the staff currently performing these functions. Executive Order (E.O.) 13495, "Nondisplacement of Qualified Workers Under Service Contracts" requires the awardee to offer the current workforce right of refusal, obviating any qualified candidates the offeror included in their response. Since it appears the Government is making accommodations to retain these personnel, will the Government remove this onerous key personnel requirement from Section L, Factor C?	Deferred
56	Attachment_J-1502000-17_FY18_Historical_Workload_Data	The tab labeled "4-PROJECT" has Work Orders whose Work Type is listed as "ROUTINE." Also, the tab labeled "3-ROUTINE" has Work Orders whose Work Type is listed as "PROJECT." Project and Routine work orders are defined differently in the RFP and require different levels of effort. Can the Government explain why Project Work Orders are listed in 3-ROUTINE, Routine Work Orders are listed in 4-Project?	Deferred
