CONTRACT DATA REQUIREMENTS LIST
(1 Data Item)

Form Approved
OMB No. 0704-0188

The public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Department of Defense, Executive Services Directorate (0704-0188). Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. Please do not return your form to the above organization. Send completed form to the Government Issuing Contracting Officer for the Contract/PR No. listed in Block E.

16. REMARKS

BLK 4: Ammunition Data Cards (ADC) shall be prepared in the World-Wide Ammunition Data Repository Program (WARP) in accordance with the requirements of MIL-STD-1168 and the on-line WARP User's Manual. Manufacturer's Identification Symbols used in lot numbering must be registered per MIL-HDBK-1461 'Ammunition Manufacturers and Their Symbols'.

BLK 7: The electronic receiving report shall be annotated with the Lot Number, National Stock Number and Nomenclature. The electronic receiving report shall also be annotated to reflect if additional submittals are to be furnished or if this is the final submittal of data. The electronic receiving report shall be used only for this data item; do not combine other data item submittals with this requirement. Electronic receiving report required via internet Wide Area Work Flow (WAWF) at: https://wawf.eb.mil.

BLK 8: A sample ADC or "draft" will be generated and submitted for each part number/NSN produced under this contract using the Worldwide Ammunition-data Repository Program (WARP) system to ensure general format and content is acceptable prior to final ADC submittals. Government (AFLCMC/EBHJC) will respond with notice of approval/acceptance.

BLK 9: DISTRIBUTION STATEMENT B. Distribution authorized to U.S. Government agencies CTI & Export Controlled [date of determination]. Other requests must be referred to AFLCMC/EBHJ, Hill AFB, UT 84056.

WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Section 2751 of Title 22, United States Code) or the Export Control Reform Act of 2018 (Chapter 58 Sections 4801-4852 of Title 50, United States Code). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25 and DoD Instruction 2040.02.

BLK 11 & 12: Submit after successful Lot Acceptance Test and prior to delivery of each production lot.

16. REMARKS (Continued)
Page 002 (A001):

BLK 14: A sample ADC or "draft" will be generated and submitted for each part number/NSN produced under this contract using the Worldwide Ammunition-data Repository Program (WARP) system to ensure general format and content is acceptable prior to final ADC submittals. Sufficient hard copies of final version ADCs shall be generated for each individual production lot from the Worldwide Ammunition-data Repository Program (WARP) such that at least one hard copy per production lot shall be provided with each individual CLIN shipment/destination. An electronic copy for each production lot shall be submitted/uploaded with the electronic receiving report through WAWF to AFLCMC/EBHJC using DoDAAC FA8213.

BLK 4: Data delivery description for content of Engineering Change Proposal (ECP) via applicable DD Form 1692 shall be in accordance with EIA-649-1A and the principles of EIA-649C.

BLK 7: The Letter of Transmittal shall be annotated to reflect if additional submittals are to be furnished or if this is the final submittal. The Letter of Transmittal shall be used only for this data item; do not combine other data item submittals with this requirement.

BLK 9: DISTRIBUTION STATEMENT B. Distribution authorized to U.S. Government agencies; CTI & Export Controlled [date of determination]. Other requests for this document must be referred to AFLCMC/EBHJ, Hill AFB, UT 84056.

WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Section 2751 of Title 22, United States Code) or the Export Control Reform Act of 2018 (Chapter 58 Sections 4801- 4852 of Title 50, United States Code). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25 and DoD Instruction 2040.02.

BLK 11 & 12: Contractor shall submit Engineering Change Proposal (ECP) via DD Form 1692 NLT 10 calendar days after identification/discovery of needed change proposal. Within 30 calendar days of receipt, Government Engineer (AFLCMC/EBHJ) through the Government Contracting Officer (AFLCMC/EBHKB) will respond with notice of receipt. Government Engineer will perform review of the ECP and will respond with approval/disapproval within 90 calendar days for routine, 30 calendar days for urgent, and within 48 hours for emergency changes. If disapproved, Government Engineer's response through the Government Contracting Officer will include instruction for remediation. Notification of approval of the proposed engineering change shall be by signed contract modification (AFLCMC/EBHKB). *ECP APPROVAL: AFLCMC/EBHJ Configuration Control Board (CCB) shall have the final approval for all ECPs.

BLK 14: Submit report(s) electronically via email in Microsoft Office or PDF format to the email recipients listed below. Refer to contract for email address of the Government Contracting Officer (AFLCMC/EBHKB). Submit through WAWF under DoDAAC FA8213.

16. REMARKS

BLK 4: Contractor's format required. Follow content and requirements preparation instructions listed in the Data Item Description (DID).

BLK 7: The Letter of Transmittal shall be annotated to reflect if additional submittals are to be furnished or if this is the final submittal of data. The Letter of Transmittal shall be used only for this data item; do not combine other data item submittals with this requirement.

BLK 9: DISTRIBUTION STATEMENT B. Distribution authorized to U.S. Government agencies; CTI & Export Controlled [date of determination]. Other requests for this document must be referred to AFLCMC/EBHJ, Hill AFB, UT 84056.

WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Section 2751 of Title 22, United States Code) or the Export Control Reform Act of 2018 (Chapter 58 Sections 4801- 4852 of Title 50, United States Code). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25 and DoD Instruction 2040.02.

BLK 10, 11, 12, & 13: Contractor to notify AFLCMC/EBHJ Engineering of failure of lot acceptance testing or failure to complete lot acceptance testing within one (1) business day every time a failure is identified. Submit a report with proposed corrective actions/recommendations within 15 calendar days of each failure. If a revision is needed to the report after submission, submit a revision or final report within 30 calendar days after receipt of AFLCMC/EBHJ revised or final comments. Extensions can be requested and approved by the Government Contracting Officer (AFLCMC/EBHKB) via letter.

BLK 14: Submit reports electronically via email in Microsoft Office or PDF format to the following email recipient listed below. Refer to contract for email address of the Government Contracting Officer. Sumit through WAWF under DoDAAC FA8213.

BLK 4: Data Item Description (DID) DI-MGMT-80442 will be used to report on-hand inventory only. Receipt and shipment transactions, and adjustments will not be reported. In reference to DID para 10.1, format as follows:

Column 1(NSN Rec'd): Report the on-hand NSN
Column 2(Related NSN): Report Lot Number if applicable
Column 3(Document Number): Report the Contract Number
Column 4(Serial Number): Report Serial Number if applicable
Column 5(Qty Received): Do Not Use
Column 6(Date Received): Do Not Use
Column 7(Balance On-Hand): Report the on-hand balance quantity
Column 8(Condition Code): Report the condition code of the on-hand balance
Column 9(NSN Shipped): Do Not Use
Column 10(Qty Shipped): Do Not Use
Column 11(Date Shipped): Do Not Use
Column 12(Shipment Number): Do Not Use
Column 13(Adjustment Qty): Do Not Use
Column 14(Explanation): Do Not Use
Column 15(Remarks): Report the DODAAC of the contractor facility where inventory is located.

DID para 10.2: Do not report assets shipped or received during reporting period. Only report the on-hand balances.

DID para 10.2.2.1: Stock numbered components removed from items that will not be re-installed and/or are designated as spares will be reported in the format outlined above for DID para 10.1.

DID para 10.2.2.2: Stock numbered components that will be re-installed to the parent assembly should not be reported.

DID para 10.2.3: Do not report adjustments following physical inventories. Only report the resulting on-hand balance.

DID para 10.2.4: No dates should be reported.

BLK 7: Electronic receiving report required via internet WAWF at: https://wawf.eb.mil. The electronic receiving report shall be used only for this data item; do not combine other data item submittals with this requirement.

16. REMARKS

BLK 4: The DMSMS Health Assessment Report shall contain a health assessment of the systems or end item deliverables specified by the contract using the Data Elements in Table 1 of the Data item Description (DID). The information shall be included to the lowest indenture level (component level) for all items, including subcontractor items, which are not commercial items. Commercial items are defined in 48 CFR 2.101 – Definitions. Follow format and content preparation and requirements listed in the DID.

**The contractor shall deliver DMSMS impact assessment reports in accordance with this DID, for all assemblies, line replaceable units, and weapon replaceable assemblies and their related software used on the end item deliverables. The report will detail the predicted impact of known DMSMS issues and projected DMSMS issues. It will use the most accurate forecasting data available to the contractor. The report will detail the date the assembly and its related higher assemblies will most likely become unsupportable considering inventories, usage, repair capability, funded upgrades, redesigns, and similar attributes or actions. The Contractor should provide sufficient reports to the government to enable government oversight if the contractor is tasked to manage DMSMS.

BLK 7: The electronic receiving report shall be used only for this data item; do not combine other data item submittals with this requirement. Electronic receiving report required via internet Wide Area Work Flow (WAWF) at: https://wawf.eb.mil.

BLK 8: Within 30 calendar days of receipt, Government Engineer (AFLCMC/EBHJ) through the Government Contracting Officer (AFLCMC/EBHKB) will respond with notice of approval/disapproval for technical content and completeness. Failure to comment/approve/disapprove within 30 calendar days does not constitute full/final acceptance by the Government. The Contractor will resubmit for approval or provide final copy of the plan within 30 calendar days of Government disposition.

BLK 9: DISTRIBUTION STATEMENT B. Distribution authorized to U.S. Government agencies; CTI & Export Controlled [date of determination]. Other requests must be referred to AFLCMC/EBHJ, Hill AFB, UT 84056.

WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Section 2751 of Title 22, United States Code) or the Export Control Reform Act of 2018 (Chapter 58 Sections 4801-4852 of Title 50, United States Code). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25 and DoD Instruction 2040.02.
