Section F - Deliveries or Performance

F 1.0 - PERIOD OF THE CONTRACT

The "Anticipated Award Date" on the job specification should be at a minimum the Contract Award Milestone date for scheduled ship repair availabilities or the desired contract award date. For revision specs for contract modifications, this date should be the date work needs to be awarded so it does not affect schedule.

"Effective Date" (block 3 at the 1st page of the contract) represents the date that will give the awardee time to order materials, submit process control procedure and any other preparation work needed prior to the actual physical work starting.

The "POP Start Date" is usually the first day of the scheduled ship repair availability or the date when actual/physical work may start.

The "Production Completion Date" is the key event date when production work excluding testing must be completed.

The "POP End Date" is the date when work must be completed for all requirements in the work specification. The awardee is expected to have all GFM returned, work area cleaned, required reports/paper work submitted or any other post work requirements that there may be. The POP End date is stated in the DELIVERY INFORMATION section below.

Coordinate work schedule with the Government Technical Point of Contact (POC) to accomplish all requirements and other related works within the effective period. If the contractor realizes any potential or actual delay in performance, report to the Government Contracting POC via the Government Technical POC.

Executive Order 13467, Reforming Processes Related to Suitability for Government Employee, Fitness for Contractor Employees and Eligibility for Access to Classified National Security Information, Homeland Security Presidential Directive (HSPD)-12, requires government agencies to develop and implement Federal security standards for Federal employees and contractors. The 5 CFR 32 Part 157 in concert with DoD Manual 1000.13, Vol 1, implements the Federal Standards.

APPLICABILITY

This text applies to all DoD sponsored individuals who require CAC eligibility (or login and P/W if acceptable per contract) for: Physical access to DoD facilities or non-DoD facilities on behalf of DoD; Logical access to information systems (whether on site or remotely); or remote access to DoD networks that use only the CAC logon for user authentication, or access to sensitive and protected information. This applies to the Office of the Secretary of Defense (OSD), the Military Departments, the Office of the Chairman of the Joint Chiefs of Staff and the Joint Staff, the Combatant

Commands, the Office of the Inspector General of the DoD, the Defense Agencies, the DoD Field Activities and all other organizational entities within the DoD (hereinafter referred to collectively as the "DoD Components").

Each contractor employee providing services at a Navy command under this contract is required to obtain a DoD CAC. Additionally, depending on the level of computer/network access, the contract employee will require a successful investigation as detailed below.

ACCESS TO FEDERAL FACILITIES

Definition. As used in this clause - Military installation means a base, camp, post, station, yard, center, or other activity under the jurisdiction of the Secretary of a military department, or, in the case of an activity in a foreign country, under the operational control of the Secretary of a military department or the Secretary of Defense (see 10 U.S.C. 2801(c)(4)).
Per HSPD-12 and implementing guidance, all contractor employees working at a federally controlled base, facility or activity under this clause will require a DoD CAC. When access to a base, facility or activity is required contractor employees shall in-process with the Command's Security Manager (CSM) upon arrival to the command and shall out-process prior to their departure at the completion of the individual's performance under the contract.

Training. Contractor employees who require routine physical access to a Federally controlled facility or military installation shall complete "Level I Antiterrorism Awareness Training" prior to gaining access to a facility and annually thereafter in accordance with DoDI O-2000.16 Vol. 1. In accordance with Department of Defense Instruction O-2000.16 Volume 1, DoD Antiterrorism (AT) Program Implementation: DoD AT Standards, Level I Antiterrorism Awareness Training shall be completed by:

1. Completion of "Level I Antiterrorism Awareness Training" available at https://jkodirect.jten.mil/pdf/atl1/launch.html; or
2. Under the instruction of a qualified Level I Antiterrorism Awareness instructor; or
3. By providing a training certificate for "Level I Antiterrorism Awareness Training" training showing completion within the last calendar year.

The contractor will submit certificates of completion for each affected contractor employee and subcontractor employee to the COR or to the contracting officer, if a COR is not assigned, prior to being granted access to a Federally controlled facility or military installation.

Subcontracts. The Contractor shall include the substance of this clause, including this paragraph (d), in subcontracts, including subcontracts for commercial items, when subcontractor performance requires routine physical access to a Federally-controlled facility or military installation.

OPERATION SECURITY (OPSEC)

It is DoD policy according to DoD Directive 5205.02E, "DoD Operations Security (OPSEC) Program," June 20, 2012, as amended to establish and maintain OPSEC programs to ensure national security-related missions and functions are protected.

Training: Contractor employees shall comply with all DoD OPSEC requirements and complete "OPSEC Awareness for Military Members, DoD Employees and Contractor" training within 30 days of onboarding the contract and annual refresher training thereafter. Training shall be completed through a DoD sponsored and certified computer or web-based learning instruction available at https://securityawareness.usalearning.gov/opsec/index.htm.

The contractor will submit certificates of completion for each affected contractor employee and subcontractor employee to the COR or to the contracting officer, if a COR is not assigned, within 30 calendar days after training is completed by all employees and subcontractor personnel.

START-UP PERIOD

All contractor resource onboarding documents must be submitted via the prime contractor. The prime contractor shall make all necessary preparations to assume full responsibility for productive performance as of the performance start date.

Definition of "productive":

a. OF-306 signed by contractor employee
b. FD-258 Fingerprint Card (Contingent upon availability of electronic fingerprinting submission)
c. Completed Electronic Investigation (e-QIP)
d. All contractor employees with need for a Common Access Card (CAC) must have an active Defense Information System for Security (DISS) profile.
e. Common Access Card (CAC)
f. DISS Visit Request submitted (Contingent upon classification of work being performed, Confidential, Secret, Top Secret).

Note (1): Invoicing by the contractor will begin as of the commencement of the performance period of services and no reimbursement will be paid by the government for efforts expended during the start-up period.

Note (2): Foreign Nationals are not allowed access to the functional/system side of Enterprise Resource Planning (ERP).

ACCESS TO DOD INFORMATION TECHNOLOGY (IT) SYSTEM

In accordance with DON CIO Memorandum (IT LEVEL DESIGNATION ON DD FORM 2875 SYSTEM AUTHORIZATION ACCESS REQUEST) 08 September 2020, contractor employees who require access to Department of the Navy (DoN) or DoD networks are categorized as Privileged, Enhanced, or Authorized users. All user level accesses may include positions which require access to Controlled Unclassified Information (CUI). CUI includes sensitive information protected under the Privacy Act, to include Protected Health Information (PHI). IT System levels are determined by the requiring activity's Command Information System Security Manager (ISSM)/Information Assurance Manager (IAM).

Contractor employees requiring privileged access, (when specified by the terms of the contract) require a Tier 5 (T5) or T5R equivalent investigation, which is a higher level investigation than the Tier 3 (T3) and T3R described below. Due to the privileged system access, an investigation suitable for High Risk national security positions is required. Individuals who have access to system control, monitoring, or administration functions (e.g. system administrator, database administrator) require training and certification to Information Assurance (IA) Technical Level 1, and must be trained and certified on the Operating System or Computing Environment they are required to maintain.

Contractors requiring Enhanced access, (when specified by the terms of the contract) require a T3, T3R, or equivalent investigation, which is a higher level investigation than the Tier 1 (T1) described below. Due to the enhanced system access, an investigation suitable for Moderate Risk national security positions is required.

Access to sensitive IT systems is contingent upon a favorably adjudicated background investigation. When access to IT systems is required for performance of the contractor employee's duties, such employees shall in-process with the Navy CSM and ISSM/IAM manager upon arrival to the Navy command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy IT resources. The decision to authorize access to a government IT system/network is inherently governmental. The contractor supervisor is not authorized to sign the SAAR-N; therefore, the government employee with knowledge of the system/network access required or the Contracting Officers Representative (COR) shall sign the SAAR-N as the supervisor.

The SAAR-N shall be forwarded to the CSM upon contractor employee acquiring a Common Access Card (CAC) credential. Failure to obtain a CAC credential may result in delaying the individual's start date.
When required to maintain access to required IT systems or networks, the contractor shall ensure that all contractor employees requiring access complete annual Cyber Awareness training, and maintain a current requisite background investigation. The contractor's security representative shall contact the CSM for guidance when reinvestigations are required.

INTERIM ACCESS

The CSM may authorize issuance of a DoD CAC and interim access to a DoN or DoD unclassified computer/network upon a favorable review of the investigative questionnaire and advance favorable fingerprint results. When the results of the investigation are received and a favorable determination is not made, the contractor employee working on the contract under interim access will be denied access to the computer network and this denial will not relieve the contractor of his/her responsibility to perform.

DENIAL OR TERMINATION OF ACCESS

The potential consequences of any requirement under this clause including denial or termination of physical or system access in no way relieves the contractor from the requirement to execute performance under the contract within the timeframes specified in the contract. Contractors shall plan ahead in processing their employees and subcontractor employees. The contractor shall insert this clause in all subcontracts when the subcontractor is permitted to have unclassified access to a federally controlled facility, federally-controlled information system/network and/or to government information, meaning information not authorized for public release.

ACCESS TO CONTROLLED UNCLASSIFIED INFORMATION

Safeguarding sensitive unclassified information is critical to achieve NAVSUP Modernization efforts and deliver cutting-edge and uncompromised capabilities. The Secretary of Defense's operations security (OPSEC) campaign plan stresses the importance of protecting controlled unclassified information (CUI). CUI encompasses OPSEC, critical technology, intelligence, and personally identifiable information that, if not properly identified, marked, and controlled, could impair NAVSUP's ability to conduct its mission. Contractor employees with access to Controlled Unclassified Information (CUI) shall comply with DoDI 5200.48 - Controlled Unclassified Information (CUI) and complete DoD approved initial and annual refresher CUI training.

a. Whenever Government provides CUI to, or CUI is generated by, non-DoD entities, all CUI records must be handled as required by the approved mandatory disposition authority.
b. All CUI records must follow the approved mandatory disposition authority whenever the Government provides CUI to, or CUI is generated by, non-DoD entities in accordance with Section 1220-1236 of Title 36, CFR, Section 3301a of Title 44, U.S.C., and the DoDI 5200.48.
c. Contractor employees shall monitor CUI aggregation and compilation based on the potential to generate classified information pursuant to security classification guidance addressing the accumulation of unclassified data or information.
d. Contractor employees shall submit unclassified government information for review and approval for release in accordance with the Standard DoD Component Processes, DoDI 5230.09, and DoDM 5205.07, Volume 1.

CONTRACTOR'S SECURITY REPRESENTATIVE

The contractor shall designate an employee to serve as the contractor's security representative. Within three (3) work days after contract award, the contractor shall provide to the requiring activity's Security Manager and the Contracting Officer, in writing, the name, title, address and phone number for the contractor's security representative. The contractor's security representative shall be the primary point of contact on any security matter. The contractor's security representative shall not be replaced or removed without prior notice to the Contracting Officer and CSM.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO NATIONAL SECURITY POSITIONS OR PERFORMING SENSITIVE DUTIES

Navy security policy requires that all positions be given a sensitivity value based on level of risk factors to ensure appropriate protective measures are applied. If the Security Office validates the contractor's position is Non-Critical Sensitive or if the IT system user level is determined to be Enhanced, at a minimum, each contractor employee must be a US citizen and have a favorably completed T3, T3R, or equivalent investigation to obtain a favorable determination for assignment to a non-critical sensitive or Enhanced position. The investigation consists of a standard National Agency Check and a FBI fingerprint check plus law enforcement checks and credit check. Each contractor employee filling a non-critical sensitive or

Enhanced position is required to complete:

SF-86 Questionnaire for National Security Positions (or equivalent Office of Personnel Management (OPM) investigative product)
Two FD-258 Applicant Fingerprint Cards or electronic fingerprint submission (preferred))
Original Signed Release Statements

Failure to provide the required documentation at least thirty (30) days prior to the individual's start date shall result in delaying the individual's start date. Background investigations shall be reinitiated as required to ensure investigations remain current (not older than ten (10) years) throughout the contract performance period. The Contractor's Security Representative shall contact the CSM for guidance when reinvestigations are required.

Regardless of their duties or IT access requirements ALL contractor employees shall in-process with the CSM upon arrival to the command and shall out-process prior to their departure at the completion of the individual's performance under the contract. Employees requiring IT access shall also check-in and check-out with the Navy Command's ISSM/IAM. Completion and approval of a System Authorization Access Request Navy (SAAR-N) form is required for all individuals accessing Navy IT resources. The SAAR-N shall be forwarded to the CSM upon the contractor employee acquiring a Common Access Card (CAC) credential. Failure to obtain a CAC credential or provide the required documentation shall result in delaying the individual's start date.

The contractor shall ensure that each contract employee requiring access to IT systems or networks complete annual Cyber Awareness training, and maintain a current requisite background investigation. Contractor employees shall accurately complete the required investigative forms prior to submission to the CSM. The CSM will review the submitted documentation for completeness prior to submitting it to the OPM. Potential suitability or security issues identified may render the contractor employee ineligible for the assignment. An unfavorable determination is final (subject to SF-86 appeal procedures) and such a determination does not relieve the contractor from meeting any contractual obligation under the contract. The CSM will forward the required forms to OPM for processing. Once the investigation is complete, the results will be forwarded by OPM to the DoD Central Adjudication Facility (CAF) for a determination.

For classified contracts, if the contractor employee already possesses a current favorably adjudicated investigation, the contractor shall submit a Visit Access Request (VAR) via the Defense Information Security System (DISS). If the contractor employee does not have a current favorably adjudicated investigation, the contractor shall submit the Visit Access Request in DISS until the contractor employee has at a minimum an interim clearance. If the contract only requires access to unclassified information, even if the contractor takes a DISS "owning" role over the contractor employee, the Navy Command will also take a DISS "owning" role over the contractor employee during the hiring process and for the duration of assignment under that contract. If the contract requires access to classified information, the contractor's Facility Security Office (FSO) will take a DISS "ownership" role and the Navy command will take a DISS "servicing" role during the hiring process and the duration of assignment under that contract. All VARs requires annual renewal for the duration of the employee's performance under the contract.

BACKGROUND INVESTIGATION REQUIREMENTS AND SECURITY APPROVAL PROCESS FOR CONTRACTORS ASSIGNED TO OR PERFORMING NON-SENSITIVE DUTIES

Contractor employee whose work is unclassified and non-sensitive (e.g., performing certain duties such as lawn maintenance, vendor services, etc...) and who require physical access to publicly accessible areas to perform those duties shall meet the following minimum requirements:

Must be either a U.S. citizen or a U.S. permanent resident with a minimum of 3 years of legal residency in the U.S. (as required by the Deputy Secretary of Defense DTM 08-006 or its subsequent DoD Instruction (INST)) and
Must have a favorably completed NACI or T1 investigation or equivalent including a FBI fingerprint check prior to installation access.

To be considered for a favorable trustworthiness determination, the CSR must submit for all employees each of the following:

SF-85 Questionnaire for Non-Sensitive Positions
Two FD-258 Applicant Fingerprint Cards (or the preferred method - electronic fingerprint submission)
Original Signed Release Statements

The contractor shall ensure each individual employee has a current favorably completed NACI or T1 equivalent investigation, or ensure successful FBI fingerprint results have been gained and investigation has been processed with OPM.

Failure to provide the required documentation at least thirty (30) days prior to the individual's start date may result in delaying the individual's start date.

52.232-34 Payment by Electronic Funds Transfer-Other than System for Award Management. (Jul 2013)

PAYMENT BY ELECTRONIC FUNDS TRANSFER-OTHER THAN SYSTEM FOR AWARD MANAGEMENT (JUL 2013)

(a) Method of payment.

(1) All payments by the Government under this contract shall be made by electronic funds transfer (EFT) except as provided in paragraph (a)(2) of this clause. As used in this clause, the term "EFT" refers to the funds transfer and may also include the payment information transfer.

(2) In the event the Government is unable to release one or more payments by EFT, the Contractor agrees to either-

(i) Accept payment by check or some other mutually agreeable method of payment; or

(ii) Request the Government to extend payment due dates until such time as the Government makes payment by EFT (but see paragraph (d) of this clause).

(b) Mandatory submission of Contractor's EFT information.

(1) The Contractor is required to provide the Government with the information required to make payment by EFT (see paragraph (j) of this clause). The Contractor shall provide this information directly to the office designated in this contract to receive that information (hereafter: "designated office") by the date when the contractor submit first invoice, using EFT Form established by DFAS_____[the Contracting Officer shall insert date, days after award, days before first request, the date specified for receipt of offers if the provision at 52.232-38 is utilized, or "concurrent with first request" as prescribed by the head of the agency; if not prescribed, insert "no later than 15 days prior to submission of the first request for payment"]. If not otherwise specified in this contract, the payment office is the designated office for receipt of the Contractor's EFT information. If more than one designated office is named for the contract, the Contractor shall provide a separate notice to each office. In the event that the EFT information changes, the Contractor shall be responsible for providing the updated information to the designated office(s).

(2) If the Contractor provides EFT information applicable to multiple contracts, the Contractor shall specifically state the applicability of this EFT information in terms acceptable to the designated office. However, EFT information supplied to a designated office shall be applicable only to contracts that identify that designated office as the office to receive EFT information for that contract.

(c) *Mechanisms for EFT payment*. The Government may make payment by EFT through either the Automated Clearing House (ACH) network, subject to the rules of the National Automated Clearing House Association, or the Fedwire Transfer System. The rules governing Federal payments through the ACH are contained in 31 CFR part 210.

(d) Suspension of payment.

(1) The Government is not required to make any payment under this contract until after receipt, by the designated office, of the correct EFT payment information from the Contractor. Until receipt of the correct EFT information, any invoice or contract financing request shall be deemed not to be a proper invoice for the purpose of prompt payment under this contract. The prompt payment terms of the contract regarding notice of an improper invoice and delays in accrual of interest penalties apply.

(2) If the EFT information changes after submission of correct EFT information, the Government shall begin using the changed EFT information no later than 30 days after its receipt by the designated office to the extent payment is made by EFT. However, the Contractor may request that no further payments be made until the updated EFT information is implemented by the payment office. If such suspension would result in a late payment under the prompt payment terms of this contract, the Contractor's request for suspension shall extend the due date for payment by the number of days of the suspension.

(e) Liability for uncompleted or erroneous transfers.

(1) If an uncompleted or erroneous transfer occurs because the Government used the Contractor's EFT information incorrectly, the Government remains responsible for-

(i) Making a correct payment;

(ii) Paying any prompt payment penalty due; and

(iii) Recovering any erroneously directed funds.

(2) If an uncompleted or erroneous transfer occurs because the Contractor's EFT information was incorrect, or was revised within 30 days of Government release of the EFT payment transaction instruction to the Federal Reserve System, and-

(i) If the funds are no longer under the control of the payment office, the Government is deemed to have made payment and the Contractor is responsible for recovery of any erroneously directed funds; or

(ii) If the funds remain under the control of the payment office, the Government shall not make payment and the provisions of paragraph (d) shall apply.

(f) *EFT and prompt payment*. A payment shall be deemed to have been made in a timely manner in accordance with the prompt payment terms of this contract if, in the EFT payment transaction instruction released to the Federal Reserve System, the date specified for settlement of the payment is on or before the prompt payment due date, provided the specified payment date is a valid date under the rules of the Federal Reserve System.

(g) *EFT and assignment of claims*. If the Contractor assigns the proceeds of this contract as provided for in the assignment of claims terms of this contract, the Contractor shall require as a condition of any such assignment, that the assignee shall provide the EFT information required by paragraph (j) of this clause to the designated office, and shall be paid by EFT in accordance with the terms of this clause. In all respects, the requirements of this clause shall apply to the assignee as if it were the Contractor. EFT information that shows the ultimate recipient of the transfer to be other than the Contractor, in the absence of a proper assignment of claims acceptable to the Government, is incorrect EFT information within the meaning of paragraph (d) of this clause.

(h) *Liability for change of EFT information by financial agent*. The Government is not liable for errors resulting from changes to EFT information provided by the Contractor's financial agent.

(i) *Payment information*. The payment or disbursing office shall forward to the Contractor available payment information that is suitable for transmission as of the date of release of the EFT instruction to the Federal Reserve System. The Government may request the Contractor to designate a desired format and method(s) for delivery of payment information from a list of formats and methods the payment office is capable of executing. However, the Government does not guarantee that any particular format or method of delivery is available at any particular payment office and retains the latitude to use the format and delivery method most convenient to the Government. If the Government makes payment by check in accordance with paragraph (a) of this clause, the Government shall mail the payment information to the remittance address in the contract.

(j) *EFT information*. The Contractor shall provide the following information to the designated office. The Contractor may supply this data for this or multiple contracts (see paragraph (b) of this clause). The Contractor shall designate a single financial agent per contract capable of receiving and processing the EFT information using the EFT methods described in paragraph (c) of this clause.

(1) The contract number (or other procurement identification number).

(2) The Contractor's name and remittance address, as stated in the contract(s).

(3) The signature (manual or electronic, as appropriate), title, and telephone number of the Contractor official authorized to provide this information.

(4) The name, address, and 9-digit Routing Transit Number of the Contractor's financial agent.

(5) The Contractor's account number and the type of account (checking, saving, or lockbox).

(6) If applicable, the Fedwire Transfer System telegraphic abbreviation of the Contractor's financial agent.

(7) If applicable, the Contractor shall also provide the name, address, telegraphic abbreviation, and 9-digit Routing Transit Number of the correspondent financial institution receiving the wire transfer payment if the Contractor's financial agent is not directly on-line to the Fedwire Transfer System; and, therefore, not the receiver of the wire transfer payment.

TAX RELIEF-BASIC (APR 2020)

(a) Prices set forth in this contract are exclusive of all taxes and duties from which the United States Government is exempt by virtue of tax agreements between the United States Government and the Contractor's government. The following taxes or duties have been excluded from the contract price:

NAME OF TAX: ____*(Offeror insert)*	RATE (PERCENTAGE): ____*(Offeror insert)*

(b) Invoices submitted in accordance with the terms and conditions of this contract shall be exclusive of all taxes or duties for which relief is available. The Contractor's invoice shall list separately the gross price, amount of tax deducted, and net price charged.

(c) When items manufactured to United States Government specifications are being acquired, the Contractor shall identify the materials or components intended to be imported in order to ensure that relief from import duties is obtained. If the Contractor intends to use imported products from inventories on hand, the price of which includes a factor for import duties, the Contractor shall ensure the United States Government's exemption from these taxes. The Contractor may obtain a refund of the import duties from its government or request the duty-free import of an amount of supplies or components corresponding to that used from inventory for this contract.
