Solicitation N0018926QB055
Questions and Answers

Q 1. When opening the Pricing Spreadsheet, there is an option to 'Update' or 'Don't Update' links. If the 'Update' option is selected, a window asking for credentials to a Microsoft account opens up. Will the government provide login information or should we not update the links?

Do not update the links or use the information in the excel and make a new spreadsheet if needed.

Q 2. Once the Pricing Spreadsheet is opened without updating links, the labor categories for the 'Base' tab to not match the labor categories on the 'Option Year 1' tab. Per Amendment 0001, it seems the labor categories on the 'Option Year 1' tab are correct. Should offerors just copy and past Option Year 1 labor categories to the 'Base' tab?

See updated pricing spreadsheet attachment.

Q 3. On the 'Total Sheet' tab of the Pricing Spreadsheet, it seems the links would have brought over totals from the other tabs for a total evaluated price. However, there are no links in cells B11 and B12. Should we create links to the totals from the other tabs or will the government provide a corrected Pricing Spreadsheet?

See updated pricing spreadsheet attachment.

Q 4. The blank PPIF is one page. Completed with detailed description of work, it will be at least two pages for each past performance contract. That would take up six of the eight page limit for Volume I - Non-Price. Will the government allow offerors to provide PPIFs as attachments to Volume I so they will not count against the page limit?

Please see revised amendment 0002 with changes in Addendum 52.212-1, increasing page limit to 10 pages with Management Approach being limited to a maximum of 4 pages and Past Performance limited to a maximum of 6 pages.
