Therefore, Paragraph should read as follows:

1.6.5 Exclusions

The Contractor shall not assume responsibility for the following items of elevator equipment, which are not included in this contract.

- Car enclosures and related items including fixed or removable panels, door panels, car gates, plenum chambers, hung ceilings, light diffusers, fluorescent tubes, handrails, floor coverings, and other architectural features and accessories.
- Buried caissons, cylinders and piping, and power supply feeder circuits to the machine room circuit breakers.
- Computer and microprocessor devices not exclusively dedicated to elevator equipment such as terminal keyboards and display units.
- Communications equipment, such as telephones, intercoms, heat detectors, and smoke sensors, which were not installed by the Contractor or the original elevator installer.
- **Major Repairs:** Any individual unit or incident of repair with a total estimated cost (labor and direct material costs) exceeding **$5,000 USD per event** is not covered under this contract. This threshold applies strictly to single incidents and is **not accumulative**. Repairs exceeding this amount must be quoted separately and will only be executed once a specific purchase order is placed. The Government reserves the right to determine how these repairs are handled, typically through separate contracts.
  These exclusions do not apply if the repairs are necessary to correct damage caused by the Contractor's negligence or carelessness.
