STATEMENT OF OBJECTIVE

BLANKET PURCHASE AGREEMENT FOR

PUMPING SERVICES FOR VAULT/PIT TOILET AND SEPTIC SYSTEMS

Description of Requirement

1. Background

The U. S. Department of Agriculture (USDA) and U.S. Forest Service (USFS) through Region 6 Acquisitions Management require competitive sources for the procurement of pumping services for vault/pit toilet and septic systems at USDA Forest Service managed recreation sites located on the National Forests in Oregon and Washington. The intent of any awarded Blanket Purchase Agreements (BPA) is to streamline the acquisition process by providing direct access to a number of qualified vendors who are familiar in conducting business with the Federal Government.

2. Description of Agreement

This BPA will utilize specifications to define the requirements of each call placed. The specifications will provide the key characteristics of the site to be serviced. A Blanket Purchase Agreement/s (BPA) will be awarded in response to this solicitation. A BPA is a simplified method of filling anticipated repetitive needs for supplies or services by establishing "charge accounts" with qualified sources. This is a Request for Quotations (RFQ) to establish a pool of vendors who can provide, as identified in the attached Schedule of Items.

The contractor shall provide all personnel, equipment, tools, materials, vehicles, supervision, and other incidentals necessary to perform toilet pumping services. The quote will be a fixed firm price per unit, per visit and will include ALL fees associated with the service provided, including but not limited, i.e., disposal of foreign debris found in the septic systems that is not classified as sewages.

These services are normally required before and during the operating season, which can run anytime between April 1 through October 30 annually, but may occur throughout the entire year. Some locations also require services at the end of each season. Additionally, some toilets are located at winter trailheads and may require winter pumping.

The number of sites and frequency of service may be increased or decreased throughout the life of the BPA and are subject to the change clause FAR 52.212-4(C) Changes.

The recreation sites are listed by forest and/or district locations. **(SEE ATTACHED SCHEDULE OF ITEMS).** Not all sites will be on double lane, paved roads and some could be on single lane, dirt or gravel roads.

The toilets vary in maximum capacity and will be pumped on a "call when needed" basis with 90% of the waste contents removed per standard commercial practices. The contractor shall be responsible for making disposal arrangements including disposal of all sewage and debris, and payment of all fees. All waste shall be disposed of at a commercial treatment facility off National Forest Lands. Applicable OSHA, State and Local laws and regulations will be followed.

3. Extent of Obligation

The Government is only obligated to the extent of authorized calls placed against this BPA by authorized personnel, against authorized items.

4. Purchase Limitations

The limitation for each individual purchase under this BPA shall not exceed $500,000.

5. Individuals Authorized to Purchase under this BPA

Any warranted Contracting Officer with proper delegated authority within Forest Service Northwest Procurement Zone. BPA Calls will be issued as work becomes available.

6. Delivery Tickets

All services under this agreement shall be accompanied by delivery tickets or sales slips that shall contain the following minimum information:

(i) Name of supplier.
(ii) BPA number.
(iii) Date of purchase.
(iv) Purchase/Call number.
(v) Itemized list of units furnished.
(vi) Quantity, unit price, and extension of each item, less applicable discounts.
(vii) Date of delivery or shipment

7. Invoices

Individual invoices will be submitted for each delivery or as specified and allowed by each call. Unless specified otherwise in the call, Invoices will be submitted to the Invoice Processing Platform (IPP) at www.ipp.gov. All vendors selected for award of a BPA will be required to register in the IPP system.

8. Placement of Calls

All work will be ordered based on the Firm-Fixed-Prices as shown in the Schedule of Items. BPA Calls may be issued orally and followed up in writing, by facsimile, or by electronic commerce methods.

The government anticipates awarding multiple BPA Calls shortly after award of BPA. Estimated start work dates and performance times will be identified on each Call. Calls may be issued continuously with no time discounted for normal weather conditions or fire restrictions.

The Contractor is not required to accept every Call. However, there is a general expectation that the Contractor will be available for most Calls.

Service contract wage rates will be added via attachment per BPA call/award. The wage rates included in this solicitation are provided as a sample only.

9. Cancellation of BPA

The United States government reserves the unilateral right to cancel this BPA by providing written notification to the contractor.

The contractor may withdraw from this BPA upon written request to the Contracting Officer. Withdrawal from the BPA does not affect awarded calls.

10. Points of Contact and Mailing Address

11. Period of Performance

BPA Calls may be placed through **March 31, 2032**. Concurrent BPA Calls may be issued.

Period of Performance: April 1, 2022, through March 31, 2032

The agreement shall be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of the Federal Acquisition Regulation. Contractors may be offered an opportunity to adjust their prices. If a revised rate is not submitted during the period set forth by the Contracting Officer, the prices proposed in the original agreement (or latest update if applicable) will remain in effect. Since the Schedule of Items offers pricing for outgoing years, the Government is anticipating a low need for yearly updates.

The Government reserves the right to make single or multiple awards based on the responses to this RFQ that represent the best value to the Government.

12. Modifying the BPA

This Blanket Purchase Agreement shall be changed only by modifying the agreement itself and not by individual orders issued under it. Only the Contracting Officer identified in paragraph 10, or their designated successor may modify this BPA

13. Definitions
