PERFORMANCE WORK STATEMENT (PWS)
DMEA 26-6G1
1 July 2026
Project Engineer:

1.0 SCOPE:

1.1 TITLE: Mechanical modification of enclosures for Data Transfer Device (DTD) project

1.2 APPLICABILITY: F-22, C130, C5, PMCIA data cards

1.3 BACKGROUND: Original sheet metal enclosures for DTDs need to be modified so they can accommodate the new PCB design and avoid physical interferences.

1.4 PURPOSE: To physically modify existing inventory of DTD cases so they can be repurposed

2.0 REFERENCED GOVERNMENT PROVIDED RESOURCES: None

2.1 GOVERNMENT DOCUMENTS:

Document No.	Date	Title
3D Models	7/1/2026	Side A and Side B enclosures
2D Drawings	7/1/2026	Side A and Side B enclosures

2.3 GOVERNMENT FURNISHED EQUIPMENT:

Nomenclature	Part Number	Quantity	Date Available
Case Side A	MEA-204002	200	7/30/2026
Case Side B	MEA-204003	200	7/30/2026

3.0 REQUIREMENTS: Supplier shall modify qty. 200 DTD enclosures from existing inventory per documentation provided to support the demands of the DTD project.

3.1 GENERAL REQUIREMENTS:

3.1.1 RESERVED

3.2 PROGRAM MANAGEMENT: The contractor shall perform administrative, technical, financial management, during the course of this effort and shall maintain a status of their effort towards achieving the CET objectives, including all technical activities and efforts, problems/deficiencies, impacts, and recommended solutions. (A001)

3.3 TASK REQUIREMENTS:
3.3.1 Modification of MEA-204002 Side A
3.3.1.1 The contractor shall modify ten (10) MEA-204002 Side A enclosure as per documentation supplied
3.3.1.2 The contractor shall deliver the units to DMEA for first article inspection
3.3.1.3 After the first articles are approved by DMEA, the contractor shall modify One-hundred and Ninety (190) MEA-204002 Side A

3.3.2 Modification of MEA-204003 Side B
3.3.2.1 The contractor shall remove plastic frames from ten (10) MEA-204003 Side B. Retain frames for return to DMEA upon completion of project

3.3.2.2 The contractor shall modify ten (10) MEA-204003 Side B enclosure as per supplied documentation
3.3.2.3 The contractor shall deliver the units to DMEA for first article inspection
3.3.2.4 After the first articles are approved by DMEA, the contractor shall remove frames and modify One-hundred and Ninety (190) MEA-204003 Side B.
3.3.5 Delivery
3.3.5.1 The contractor shall provide shipping for all GFE
3.3.5.2 The contractor shall deliver all modified units to DMEA point of contacts called out in section 5.0.
3.3.5.3 The contractor shall deliver all plastic frames removed from MEA-204003 Side B to DMEA point of contacts called out in section 5.0.

3.4 PROGRAM SUMMARY: The contractor shall summarize all work accomplished under this CET, including significant technical accomplishments, problems encountered, solutions implemented, recommendations for improvement, and a comparison of planned schedules and costs with final performance.
