The Army Contracting Command - Mission & Installation Contracting Command (MICC) Theater Support Center (TSC) in conjunction with the Department of War (DoW), Army Materiel Command (AMC) G4, U.S. Army Installation Management Command (IMCOM), U.S. Army I Corps, and Joint Base Lewis-McChord (JBLM) Department of Public Works (DPW) is sponsoring an Industry and Government Technical Information Exchange day on January 20-23, 2026 to facilitate discussions on the potential establishment of a Section 10 USC 4022: Other Transaction Agreement (OTA) for the development and maturation JBLM facility Modernization program to manage several key construction projects to support the warfighter into the future.

This is an excellent opportunity for businesses of all sizes and socioeconomic categories—large and small—to learn about federal contracting opportunities and discover how best to engage with the federal government.

Industry Days Event Highlights:

Exclusive Leadership Briefings

- Get the inside track with detailed mission and procurement overviews from key decision-makers at the MICC TSC, AMC G4, IMCOM, U.S. Army I Corps, and JBLM DPW.

Spotlight on JBLM FORGE

- Discover the JBLM FORGE initiative, a large-scale program focused on modernizing facilities, enhancing infrastructure, and boosting operational capabilities for the U.S. Army and Air Force at Joint Base Lewis-McChord.

Mastering Federal Contracts

- Gain valuable knowledge on the federal procurement process. Learn the best practices and strategies to successfully navigate and win government contracts.

High-Value Networking

- Connect directly with leadership from MICC, AMC, I Corps, JBLM, and IMCOM. This is your opportunity to build relationships with industry peers and explore powerful new collaborations.

Influence the Conversation

- Share your unique insights and expertise in an open forum. Provide direct feedback to our team and help shape the future of our partnerships.

Who Should Attend?
Entrepreneurs, business leaders, and representatives from companies of all sizes and socioeconomic backgrounds interested in federal contracting, particularly in sectors related to engineering, construction, and support services for military and civil works projects.
