SOURCES SOUGHT NOTICE

This **Sources Sought Notice** is issued solely for **market research and planning purposes**. This notice does not constitute a solicitation, Request for Quote (RFQ), or Request for Proposal (RFP), and no contract will be awarded based solely on responses to this announcement. The Government is seeking to identify qualified contractors capable of providing **non-personal services** to conduct **National Historic Preservation Act (NHPA)** archaeological and architectural surveys. Required services include **Phase I archaeological site detection surveys**, **Phase II archaeological site evaluations**, and **architectural evaluations**, performed in accordance with applicable regulatory standards.

The **current requirement for these services expires on 28 September**, and the follow-on effort will be awarded prior to that date. The planned acquisition will be a **Base + four-year** requirements contract performed at **Fort Campbell, KY**.

NAICS Information

The Government is considering **NAICS 712120** (**Historical Sites**) as the primary NAICS code for this requirement, as it most closely aligns with the scope of work, including archaeological surveys, architectural evaluations, and inventory of historic properties in support of NHPA compliance. NAICS 712120 encompasses activities related to the preservation, documentation, and evaluation of archaeological sites, historic buildings, and culturally significant locations.

The Government is also considering **NAICS 541990** (**All Other Professional, Scientific, and Technical Services**) as an alternative NAICS code. This code may apply to firms providing specialized cultural resource management services that do not fall squarely within other NAICS categories.
Respondents are encouraged to identify which NAICS code best aligns with their business operations and provide justification if recommending an alternative NAICS code.

Small Business Considerations

This requirement is currently an **8(a) program effort**. To disenroll the requirement from the 8(a) program and transition it to a **small business set-aside**, the resulting award must be made to a qualifying small business in one of the following categories:

- **HUBZone Small Business**
- **Women-Owned Small Business (WOSB)**
- **Service-Disabled Veteran-Owned Small Business (SDVOSB)**

Responses from firms in these categories are especially important to the Government's market research. Interested vendors shall submit a **Capability Statement** demonstrating their ability to perform the required services.

Submission Instructions

- **Responses Due:** NLT **16 July 2026 – 1300 CDT**
- **Questions Due:** NLT **09 July 2026 – 1300 CDT**
- **Email Subject Line:** *"Sources Sought Response – NHPA Survey and Evaluation"*
- **Submit responses to:**
  - denver.s.cristello.mil@army.mil
  - catherine.r.mckinney.mil@army.mil

Additional Information

All proprietary information must be clearly marked. The Government will not reimburse any costs associated with responding to this notice. This notice does not obligate the Government to issue a solicitation or award a contract. Please see the attached **draft PWS** for additional details.
