1.	QUESTION:	Will payment for the 18 rooms be made by a government-issued MasterCard or by check?
1.	RESPONSE:	The 18 rooms required under this Purchase Order will be processed and paid for within the Invoice Processing Platform (IPP). The successful contractor shall submit an invoice in IPP for review and approval. Payment will be disbursed from IPP. See RFP Clause section for IPP information. The sixteen additional rooms under the reservation block will be paid for via the employee Travel Cards, are NOT to be invoiced for in IPP, nor are they considered an obligation under this Purchase Order.
2.	QUESTION:	Is tax exempt lodging required?
2.	RESPONSE:	The Government will provide its tax exemption number to the successful contractor. If taxes are applicable to a vendor's pricing submission, they must be included in the price proposal's total. This is a lowest priced, technically acceptable RFP. The Government intends to award to the vendor who meets all technical requirements at the lowest total price. The per diem room rate from the Federal Travel Regulation (FTR) for the Roswell, New Mexico zip code and all applicable charges must be included in the total proposed price. The price must be inclusive of all charges for the 18 rooms under this Purchase Order. *The Government advises all interested vendors that inclusion of clauses in the proposal that subject the Government to unknown, additional charges after Purchase Order award will not be determined to be technically acceptable and these unknown future charges would constitute an unauthorized commitment for which there is no funding obligation.*
3.	QUESTION:	Do you require one bed or two beds per room?
3.	RESPONSE:	Please see Statement of Work. CBP's breakdown of number of beds per room is listed therein.

4.	QUESTION:	Where are you requesting this lodging? A certain mile radius of what location?
4.	RESPONSE:	The required zip code for lodging is **ROSWELL, NEW MEXICO 88201**. In order to be determined acceptable, lodging must be located within this zip code. Alternate zip codes will not be acceptable, as transportation has already been arranged to/from the training facility to this zip code.

The Question Deadline has expired. No further Questions will be accepted or receive a response unless the CO determines it is in the Government's best interest to do so.
