Fed BizOpps Notice

The Air Force Research Laboratory Sensors Directorate (AFRL/RY) will be holding an Industry Day on 13 December 2018 to discuss the "Laser Radar (LADAR) Innovative Development and Research (LIDR) and Asynchronous Geiger Mode LADAR Receiver Development (A-GMLRD)," program, Broad Agency Announcement (BAA) #FA8650-19-S-1013.

Purpose: Provide briefings, discussions, tours, and answer questions with respect to the upcoming BAA titled, "Laser Radar (LADAR) Innovative Development and Research (LIDR) and Asynchronous Geiger Mode LADAR Receiver Development (A-GMLRD)"

Date: 13 December 2018

Time: 9am – 12pm EST; schedule as shown on page 2

Location: 3109 Hobson Way
Wright-Patterson AFB, OH 45433-7700

Attendance: Attendance is limited to two personnel per company. Briefings will be held at the Distribution C level, and so attendance is limited to Government Contractors.

RSVP: Contact both Technical POCs (below) via email by Thursday 6 December 2018 to provide the following information if you intend to participate:

Name of Company
Names of proposed attendee(s)
Email and phone number of your primary POC
Driver's License number and state of issuance
Corporate CAGE Code

Other: RSVPs will only be accepted by email. Each organization (not each attendee) must submit an RSVP email. Upon receipt of RSVP, the Technical POCs will confirm attendance and provide instructions.

TECHNICAL POCs: Mr. David Chandler david.chandler.15@us.af.mil
Ms. Madison Moore madison.moore.1.ctr@us.af.mil

Registration: Registration is limited to U.S. Citizens only.

Note: This notice is being issued for planning and information purposes only. It does not constitute a solicitation, nor is to be construed as a commitment by the government. The government will not pay for any effort expended in responding to the notice, or participation in the event (to include attendee travel costs), nor will the government accept proposals as a result of this notice. Participation is voluntary. There is no fee to attend. Meals will not be provided at this event.

Briefing charts from the conference will be made available on FBO.gov after the conference.
