0004 - Solicitation Amendment

The purpose of this amendment is to provide responses to questions received from contractors. All vendor questions and official responses are detailed below.

Vendor Questions and Government Responses:

Question 1:

The luggage scales that need to be installed in the check-in conveyors are specified in your documents. These must be switchable between kg and pounds. But if being switchable like this, these will not be able to become calibrated by an accordingly German scale authority. Please comment.

Government Response:

Calibration of the scale can be accomplished in kilograms or pounds. Toggling between units on the scale display does not impact the calibration of the scale.

Question 2:

Where can I find SF 1449?

Government Response:

The SF1449 is the main solicitation document itself, titled Solicitation - FA561326Q0029.pdf, which is available for download in the Attachments section of the SAM.gov notice.
