CAPABILITY QUESTIONNAIRE -W912PL26S0042
Levee Safety Architect-Engineer (A-E) Services

1. Company Overview & Size Status

- Company Name & Address:
- Point of Contact (Name, Phone, Email):
- UEI Number / CAGE Code: *(Note: Per RFO FAR 52.204-7, respondents must have an active SAM.gov registration).*
- Business Size & Socioeconomic Status: Based on NAICS code 541330 (Size Standard: $25.5 million), please state your business size and all applicable socio-economic categories (e.g., 8(a), HUBZone, SDVOSB, WOSB) in accordance with RFO FAR 52.219-1.

2. Contract Capacity (SATOC vs. MATOC)

The Government is evaluating whether to issue this $25,000,000 requirement as a Single Award (SATOC) or Multiple Award (MATOC).

- Does your firm have the capacity and interest to execute the full $25M ceiling and manage concurrent $500,000-$2M task orders as a **single awardee (Prime SATOC)?**
- Or, is your firm primarily interested in competing as a pool member under a **multiple-award scenario (MATOC)** sharing the $25M ceiling?

3. Subcontracting Limitations & Plans

- For Small Businesses: Subcontracting limitations prescribed in RFO FAR 19.104-3(c) and RFO FAR clause 52.219-14 (Limitations on Subcontracting) shall be followed. Firms must demonstrate their ability to comply with the requirement that they will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. **Briefly describe how your firm (or joint venture) will meet this multidisciplinary requirement while maintaining compliance with this 50% limitation.**
- For Large Businesses: In accordance with RFO FAR 19.109, if competing under an Unrestricted or MATOC scenario, large businesses will be required to submit a Small Business Subcontracting Plan. **Briefly describe your firm's historical ability to meet small business subcontracting goals on similar multidisciplinary A-E contracts**.

4. Firm’s Capability Statement and Specialized Technical Experience

Provide up to three (3) brief examples of relevant past projects (within the past 5 years) of the same or similar size and complexity demonstrating your firm's capability to perform the work described.

For each project, include:

- Contract number and dates of service
- Contract description and dollar value

- Identification of whether your firm was a prime vendor or subcontractor
- Self-Performance Breakdown: Identify the specific scopes of work performed by the Prime vs. the Subcontractors, the approximate percentage of work self-performed, and the names of key subcontractors used.
- Customer point of contact (name, telephone number, and email address)
- Past Performance / CPARS: Indicate the final Contractor Performance Assessment Reporting System (CPARS) rating received for the project. If a CPARS evaluation is not available, provide a brief summary of the client's assessment of your performance.

Specialized Experience should demonstrate capability in the following specific areas:

- **Formal Inspections**: Planning, preparing, and conducting formal engineering inspections of complex levee systems, floodwalls, pump stations, channels, debris basins, dams, and associated structures.
- **Risk Assessments:** Performing or providing critical engineering input for comprehensive Levee Risk Assessments.
- **Multidisciplinary Engineering Capabilities:** Ability to provide a comprehensive team of qualified professionals (e.g., Geotechnical, Structural, Civil, Electrical, Mechanical, Hydraulic/Hydrologic, Geologists, and GIS Technicians).
- **System Utilization:** Your firm’s specific experience and proficiency utilizing the USACE Levee Inspection System (LIS), or an equivalent GIS-based field data collection and reporting system, for levee/dam inspections.

5. Statement of Interest

Provide a brief Statement of Interest detailing your firm's intent and capacity to serve as a Prime Contractor for a contract of this magnitude ($25M ceiling).
