Basis For Decision That Only One Source Is Available

Regulatory bodies such as United States Coast Guard and ABS only recognize direct replacement parts, servicing, and repairs of the shipboard bridge windows by an authorized OEM representative (Cornell-Carr Inc). Direct replacement parts must be compatible in form, fit, and function with the existing equipment/configurations. In addition, Per MSCs standardization initiative, only the specified make/model of the equipment/parts will satisfy the government's needs for replacement items.

In addition, Cornell-Carr Inc. retains the proprietary rights to all design drawings, tolerances, and original parts for the bridge windows for TAO class ships. Any work

performed by any company other than the OEM would void warranties on this equipment. Improperly installed or deficient parts could cause system failure and loss of the affected system/equipment while at sea. The OEM does not have authorized distributors and only sell direct.
