SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Section A - Solicitation/Contract Form

The following changes have been made:

Miscellaneous text in this section has been modified to:

The purpose of this amendment is to:

1. Extend the response due date from 12PM EST 2 July 2026 to 4PM EST 8 July 2026.

2. Answer vendor's questions:

Question 1. Existing Fascia Board.

- Is the existing fascia board constructed of wood or PVC?

- Based on the available drawings and photos, it does not appear to be metal flashing.

Could you please confirm the existing material?

Answer 1.

a. The Government does not have confirmed data, current estimate is wood wrapped in metal. Verification is on the Contractor to determine.

b. It is metal flashing.

Question 2. Existing Sealant.

- What is the existing sealant material that is to be removed and replaced?

- If available, please provide the type or product currently installed, or confirm whether an in-kind replacement is required.

Answer 2.

a. As listed in the PWS, the existing material is likely roofing mastic or epoxy.

b. In-kind replacement to industry standard is required. We do not have manufacturer information for what was installed on this building.

c. Fabric layer - Unknown if that is in the existing material. If adding a fabric layer meets the industry standard then that is good too.

All other terms and conditions remain unchanged and in full force and effect.
