14. DESCRIPTION OF AMENDMENT/MODIFICATION (CONTINUED)

The purpose of Solicitation Amendment A00001 is to provide responses to all submitted Requests for Information (RFIs). The RFI responses below are hereby incorporated into any resulting purchase order. Offerors are advised that failure to utilize the revised documents/responses and comply with the updated requirements contained in this amendment will result in a determination that the quote is non-responsive.

1. What is the spec for the non-woven geotextile fabric for the Rock Slope Protection?
Response: Refer to Section 207, Material – Geotextile 714.01, (c.) Geotextile Filter.

2. Pay Item 20803, Structure Excavation and Backfill for Major Structures, indicates payment by cubic yard with a quantity of 270 CY. Will this item be paid as a final quantity? After reviewing the plans and visiting the site, it is unclear whether this work involves exporting excess material to reach bedrock or balancing material to level the existing scour channel prior to RSP placement. Could you please clarify the intended scope for this pay item?
Response: The pay item is an estimated quantity and will be compensated based on the measured and accepted amount verified in the field (Not To Exceed 270CY). This item does not require the export of excessive material. Contractors are advised to review PF-24 Section 208 — Structure Excavation and Backfill for Selected Major Structures, as applicable to the project site and scope. Bidders must demonstrate a clear understanding of the work and have proven experience operating within stream courses in conjunction with major structures, as well as a comprehensive understanding of the overall project requirements.
