(a) *Definitions.* As used in this clause—

Long-term contract means a contract of more than five years in duration, including options. Small business concern—

(1) Means a concern, including its affiliates, that is independently owned and operated, not dominant in its field of operation, and qualified as a small business under the criteria in 13 CFR part 121 and the size standard in paragraph (c) of this clause.

(2) *Affiliates*, as used in this definition, means business concerns, one of whom directly or indirectly controls or has the power to control the others, or a third party or parties control or

have the power to control the others. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships. SBA determines affiliation based on the factors set forth at 13 CFR 121.103.

(b) If the Contractor represented that it was a small business concern, a small disadvantaged business concern, or a joint venture that was any of the small business concerns identified in 19.000(a)(3) prior to award of this contract, the Contractor shall rerepresent its size and socioeconomic status according to paragraph (e) of this clause or, if applicable, paragraph (g) of this clause, upon occurrence of any of the following:

(2) Within 30 days after a merger or acquisition that does not require a novation or within 30 days after modification of the contract to include this clause, if the merger or acquisition occurred prior to inclusion of this clause in the contract.

(3) For long-term contracts-

(i) Within 60 to 120 days prior to the end of the fifth year of the contract; and

(ii) Within 60 to 120 days prior to the date specified in the contract for exercising any option thereafter.

(c) The Contractor shall rerepresent its size status in accordance with the size standard in effect at the time of this rerepresentation that corresponds to the North American Industry Classification System (NAICS) code(s) assigned to this contract. The small business size standard corresponding to this NAICS code(s) can be found at https://www.sba.gov/document/support--table-size-standards.

(d) The small business size standard for a Contractor providing an end item that it does not manufacture, process, or produce itself, for a contract other than a construction or service contract, is 500 employees, or 150 employees for information technology value-added resellers under NAICS code 541519, if the acquisition—

(1) Was set aside for small business and has a value above the simplified acquisition threshold;

(2) Used the HUBZone price evaluation preference regardless of dollar value, unless the Contractor waived the price evaluation preference; or

(3) Was an 8(a), HUBZone, service-disabled veteran-owned, economically disadvantaged women-owned, or women-owned small business set-aside or sole-source award regardless of dollar value.

(e) Except as provided in paragraph (g) of this clause, the Contractor shall make the representation(s) required by paragraph (b) of this clause by validating or updating all its representations in the Representations and Certifications section of the System for Award

Management (SAM) and its other data in SAM, as necessary, to ensure that they reflect the Contractor's current status. The Contractor shall notify the contracting officer in writing within the timeframes specified in paragraph (b) of this clause, that the data have been validated or updated, and provide the date of the validation or update.

(f) If the Contractor represented that it was other than a small business concern prior to award of this contract, the Contractor may, but is not required to, take the actions required by paragraphs (e) or (g) of this clause.

(g) If the Contractor does not have representations and certifications in SAM, or does not have a representation in SAM for the NAICS code applicable to this contract, the Contractor is required to complete the following rerepresentation and submit it to the contracting office, along with the contract number and the date on which the rerepresentation was completed:

E.6 52.212-2 EVALUATION—COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (NOV 2021)

(a) The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors shall be used to evaluate offers:

Technical and Price

Evaluation of quotes will be conducted using Simplified Acquisition Procedures in accordance with RFO FAR 12.203, Evaluation.

Basis for Award:

The Government will award a single award Firm-Fixed Price contract to the responsible Offeror that represents the best benefit to the Government at a price that can be determined fair and reasonable based on price and other factors. Offeror quotes shall be evaluated under RFO FAR 12.203 utilizing technical and price. Government will evaluate utilizing comparative evaluation. Comparative evaluation is the side by side pairwise comparison of quotes based on factors resulting in a Contracting Officer decision for the quote most favorable to the Government. The Government reserves the right to consider a quotation other than the lowest price that provides additional benefit(s). Quotations may exceed minimum requirements of the solicitation. The Government reserves the right to select a quotation that provides benefit to the Government that exceeds the minimum requirements of the solicitation but is not required to do so. Offers must meet the minimum requirements of the solicitation to be determined technically compliant.

Please read each section below carefully for information on evaluation. Offers missing the requested information listed in the Addendum to FAR 52.212-1, Instructions to Offerors, may be considered technically non-compliant. If the quote is found to be technically non-compliant, it may be removed from the evaluation process and no further evaluation will be completed.

Factor 1 -Technical Capability

Technical Capability:

The Government will evaluate the technical capability of each offer in accordance with the requirements of the solicitation/Statement of Work (SOW) to determine whether the quote demonstrates that the quoter can satisfactorily meet the Government's requirements as outlined in the solicitation. After comparing quotes to the standard of the SOW, quotes will be compared to each other for relative merit in their approach and overall quality.

If the Technical Capability Volume of the offered quote is found to be not technically capable, no further evaluation will be completed for that offeror.

Factor 2 – Price

Price:

Price evaluation will be based on the extended price of all line items added together to determine a total price. After total price is evaluated for reasonableness and compared to other offerors prices, the overall comparison of the technical volume will be considered. If the price of

the higher rated quote is higher, the Government will determine if the additional value of the higher rated quotes is worth the level of premium imposed by the higher price.

The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. The Government is not obligated to determine a competitive range; conduct discussions with all contractors; solicit final revised quotes; or use other techniques associated with FAR Part 15. The contracting techniques associated with FAR Part 15 are not mandatory.

By submission of its offer, the Offeror accedes to all solicitation requirements, including terms and conditions, representations and certifications, and technical requirements, in addition to those identified as evaluation factors or sub-factors.
