8. NAME AND ADDRESS OF CONTRACTOR *(Number, street, county, State and ZIP Code)*	(X)	9A. AMENDMENT OF SOLICITATION NUMBER
	☒	W9124D26QA266
		9B. DATED *(SEE ITEM 11)* 04 JUN 2026
	☐	10A. MODIFICATION OF CONTRACT/ORDER NUMBER
		10B. DATED *(SEE ITEM 13)*
CODE / FACILITY CODE		

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended. ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning 0 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

SEE CONTINUATION

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.

CHECK ONE	
☐	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation data, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (*Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

See Schedule

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): 1). Questions from industry with Government responses are inserted by full text.
2). A site visit has been scheduled for 25 June 2026. Please see the revised addendum to FAR 52.212-1 for more information and instructions.
3). Building 3400 floor plan has been inserted as an attachment.
4). The closing date/time of this RFQ has been extended to 10:00 AM EDT on 13 July 2026.
5). The following PWS paragraphs have been revised:
-1.2.
-1.4.
-1.6.7.2
-1.6.7.5
-5.4
-5.4.1
-5.5.
-5.6
-5.7
6). The question deadline has been extended to 10:00 AM EDT on 02 July 2026.
7). Point of contact is Adam Buchert, adam.p.buchert.civ@army.mil.

Solicitation/Contract Form Continuation

The following changes have been made:

INFORMATION	FROM	TO
Response Due Date	25 Jun 2026	13 Jul 2026

Miscellaneous text in this section has been added to:

Industry Questions with Responses

1. Is the low-voltage cable limited only to network/structured wiring? If not, what other low-voltage systems need to be reviewed or researched?

Response: No. The scope includes abandoned low-voltage cabling throughout Building 3400. Systems may include telecommunications, data, security, access control, video surveillance, intercom, alarm, and other low-voltage systems. The contractor is responsible for identifying active versus inactive cabling.

2. How many floors of Building 3400 are included in this scope?

Response: Building 3400 consists of three primary occupied floors identified as the 100-level, 300-level, and 400-level floor plans.

3. How many head ends / IDF / MDF locations are there, and what floors are they located on?

Response: The Government does not have a verified count of MDF, IDF, or head-end locations. Contractors should base proposals on the information provided in the solicitation, as well as information gathered from the site visit.

4. Will the contractor team have clear daily access to all work areas, or will escorts be required in certain areas? If escorts are required, approximately what percentage of the building will require escort access?

Response: Access will be coordinated through the COR. Escorts may be required in certain controlled areas. The percentage of escorted areas is unknown.

5. Since keys will not be issued to contractors, will there be a dedicated Government/facility person available to open doors as needed during work hours?

Response: Yes.

6. Who is producing the documentation for the project? Example the comprehensive QCP.

Response: The prime contractor is responsible for producing and submitting all required documentation and deliverables.

7. What is the approximate number of cables that need to be demoed/removed?

Response: The Government does not possess a verified count of abandoned cables requiring removal. Identification of abandoned cabling is part of the contractor's effort under the contract. A site visit will be scheduled to allow vendors the opportunity to view the site prior to submitting a quote.

8. Can we receive Building 3400 drawings and ceiling access maps?

Response: Building floor plans will be provided. Telecommunications drawings, ceiling access maps, riser diagrams, and as-built documentation are not available.

9. Can the Government provide estimated linear footage of abandoned low-voltage cabling?

Response: The Government has not conducted a cable inventory and cannot provide estimated linear footage of abandoned cabling.

10. Can representative photos of existing cable conditions be provided?

Response: Representative photographs are not currently available for release. A site visit has been scheduled to allow vendors the opportunity to view the site.

11. Is removal required throughout the entire 280,000 SF building or only specific areas?

Response: The scope includes abandoned low-voltage cabling throughout Building 3400, approximately 280,000 square feet.

12. Are contractors only responsible for cabling accessible by ladder/ceiling access, or does this include conduit, walls, or concealed pathways?

Response: Scope is limited to ladder-accessible abandoned low-voltage cabling. Removal of conduit is not required unless specifically identified and approved by the KO and COR. Wall demolition and concealed pathway demolition is not required.

13. How many are dual drops going to a single gang box?

Response: Unknown. The Government does not maintain an inventory of existing cable drops.

14. Are any in conduit and are we required to remove any conduit?

Response: Conduit may exist within the facility**.** Removal of conduit is not required unless specifically identified and approved by the KO and COR.

15. How high are the ceilings?

Response: Ceiling heights vary throughout the facility. Contractors should anticipate varying elevations typical of a commercial office building.

16. What process is required to follow to distinguish new vs. old wires? Are all the old wires Cat 5 vs Cat 6?

Response: Contractors shall use industry-standard cable tracing and identification methods to distinguish active from inactive cabling. The Government cannot confirm cable categories.

17. In certain cases, the old wires are wrapped or tied together with new wires within ceilings, who is responsible for any subsequent damage? It may be easier to remove all cables and run new ones.

Response: The contractor is responsible for exercising due care and following industry best practices to prevent damage to active systems. Any damage resulting from contractor operations remains the contractor's responsibility.

18. What type of ceiling system is in place (drop ceiling, drywall, exposed, etc.)?

Response: Ceiling systems vary throughout the facility and may include suspended acoustical tile ceilings, gypsum board ceilings, and other commercial building ceiling types.

19. Do you have any additional information about the site that would be helpful for us to prepare accurately?

Response: No additional technical documentation is available. Offerors should base pricing on the information provided in the solicitation and their professional judgment.

20. Approximately how many data locations and/or cables are assumed to be inactive?

Response: Unknown. The Government has not conducted a cable inventory identifying active vs inactive cabling.

21. What is the average distance/length of the cables from their corresponding IDF/MDF room to their end location?

Response: Unknown. The Government does not possess documentation sufficient to determine average cable lengths.

22. If the abandoned cable is terminated on a patch panel in an IDF/MDF room or to a wall jack; does the scope of work include removal of terminations back to source or just removal of the cable from ceilings?

Response: Where practical, abandoned cable should be removed back to the source or termination point without impacting active systems. Final disposition shall be coordinated with the COR.

23. If a site visit is not allowed, is there a site map that can be used to determine: (a) Total number of cable locations? (b) Total number of cable closets?

Response: Building floor plans will be provided for general facility orientation only. Cable location maps, cable inventories, and telecom closet inventories are not available. A site visit will also be scheduled to allow vendors the opportunity to view the site prior to submitting a quote.

24. Are there any known hazardous materials in the building?

Response: The Government is not aware of hazardous materials directly associated with this requirement.

25. During the removal will business be conducted? Will there be other crews performing other functions?

Response: Yes. Work will be done during normal business hours. Building operations will continue during contract performance. The Government cannot guarantee whether other maintenance or construction activities may occur simultaneously.

26. It was stated that not all the cabling infrastructure will be pulled: (a) Will the cables requiring removal be marked? (b) What will be the determining factor to remove the cable.

Response: No. The Government will not pre-identify or mark cables for removal. The contractor is responsible for identifying active versus inactive cabling and coordinating removal recommendations with the COR.

27. Will access be granted to all areas requiring cable removal?

Response: Yes. Access will be coordinated through the COR and security requirements.

28. Are there any Union labor requirements?

Response: No specific union labor requirements are imposed by this solicitation. Contractors remain responsible for compliance with all applicable labor laws.

Addendum to 52.212-1, Instructions to Offerors - Commercial Products and Commercial Services

Miscellaneous text in this section has been modified to:

REQUEST FOR QUOTE (RFQ) - FAR 52.212-1 ADDENDUM

1. This RFQ is being issued as a commercial acquisition using procedures found in Revolutionary Federal Acquisition Regulation Overhaul (RFO FAR) Part 12. The Government anticipates award of a firm fixed price purchase order from this solicitation.

2. The Mission and Installation Contracting Command (MICC) - Fort Knox points of contact responsible for providing information and responding to inquires are the Contracting Officer (KO) and the Contract Specialist:

-Contracting Officer: Amy Gawarecki, amy.l.gawarecki.civ@army.mil

-Contract Specialist: Adam Buchert, adam.p.buchert.civ@army.mil

3. Quotes shall be submitted via email to the individuals listed above prior to the closing date and time listed on SF 1449 block eight (8) or as identified in an amendment. Pricing shall remain valid for a period of 60 days after the closing date and time identified on the SF 1449 or subsequent amendment. Quotes that are late may not be accepted. Electronic submissions via facsimile will not be accepted.

4. Questions shall be received by the Contract Specialist and Contracting Officer no later than **10: 00 am Eastern Time (ET) on 02 July 2026** to allow time for a written response. The RFQ may

only be changed by a formal written amendment issued by Mission and Installation Contracting Command (MICC) Fort Knox, Kentucky. All amendments will be posted to SAM.gov.

5. All offerors wishing to do business with the government must register online at https://.sam.gov. Offerors shall have an active System for Award Management (SAM) registration at time of quote submission. Offers containing a name and address (Block 17a of SF1449) different from that registered in SAM may be deemed ineligible for award.

6. It is the Government's intention to award without negotiations. Offerors are encouraged to present their best prices in their initial quote submission. However, should negotiations become necessary, the Government reserves the right to hold them.

7. Price: Unit prices in the quote shall be completed using the Contract Line-Item Number (CLIN) schedule in the RFQ (NOTE: failure to quote on all items may render the quote non-compliant and the quote may not be considered). Vendors shall submit all unit prices to the whole penny; any fractions will be rounded to the next higher whole penny per unit for evaluation and award purposes.

Basis for Award

1. Award will be made using Simplified Acquisition Procedures to the vendor with the lowest price who meets the requirements of the solicitation and is deemed responsible in accordance with the RFO FAR.

2. Trade-offs between cost/price and non-cost/price factors are not permitted. The Government will evaluate proposed prices for reasonableness using price analysis techniques found in RFO FAR 15.404-1(b)

SITE VISIT AND INSTRUCTIONS

1. General Information

(a) A site visit for all prospective offerors is scheduled for this project. While attendance is not mandatory, it is highly encouraged. Offerors are reminded that they are responsible for inspecting the site and being fully aware of all existing conditions and limitations. Failure to attend this site visit will not relieve the successful offeror from the responsibility of performing all work required for the completion of the project in accordance with the specifications.

(b) Date and Time: 25 June 2026, 8:00 AM - 12:00 PM CDT.

c) Meeting Location: Site visits will be conducted at the Headquarters (HQ) United States Military Entrance Processing Command (USMEPCOM), 2834 N. Green Bay Rd., North Chicago, IL, 60064. Access information and instructions will be sent to attendees by 22 June 2026. Participants must present valid REAL-ID compliant government-issued photo identification for check-in.

d). Purpose: The purpose of the site visit is to provide prospective offerors with an opportunity to view the existing site conditions and infrastructure related to the low voltage cable removal

requirement at HQ USMEPCOM. This includes, but is not limited to, cable locations, ceiling height, and type of ceiling.

2. Registration and Attendance

(a) Due to security and logistical constraints, attendance is limited to a maximum of two (2) representatives per Offeror.

(b) All interested parties MUST pre-register for each site visit by sending an email to the Contracting Officer (KO), Amy Gawarecki, at amy.l.gawarecki.civ@army.mil, with a copy to the Contract Specialist (CS), Adam Buchert, at adam.p.buchert.civ@army.mil.

(c) The registration email must be received no later than 22 June 2026 at 10:00 AM EDT. The subject line of the email shall be: "Site Visit Registration for Solicitation W9124D26QA266." The body of the email must include:

1. Solicitation number

2. Company name

3. Full name of each Attendee

4. Title of each Attendee

5. Contact Phone Number and Email Address for each Attendee

(d) No substitutions will be permitted on the day of the site visit. Only pre-registered individuals will be admitted.

3. Conduct of the Site Visit

(a) The site visit will be conducted by a Government representative. Information provided during the tour is for general context only. Any remarks or explanations provided by Government personnel during the site visit shall not qualify the terms of this solicitation. The written solicitation and its subsequent amendments remain the sole binding documents.

(b) Offerors shall not ask questions during the site visit. All questions must be submitted in writing in accordance with the procedures outlined in FAR 52.212-1, paragraph 4., Instructions to Offerors, of this solicitation. This ensures that all offerors receive the same information at the same time.

(c) During the tour, any questions raised by offerors or information provided by the Government will be recorded. All questions and official Government responses will be provided to all prospective offerors via a formal Amendment to the solicitation.

(d) Offerors, their subcontractors, and their agents shall not have any contact or discussion regarding this procurement with any Government personnel other than the designated KO or CS.

(e) Photography and measurements of relevant areas and equipment are permitted for the sole purpose of preparing a proposal in response to this solicitation.

4. Post-Visit Questions

(a) All questions arising from the site visit must be submitted in writing to the Contracting Officer at amy.l.gawarecki.civ@army.mil, with a copy to the Contract Specialist (CS), Adam Buchert, at adam.p.buchert.civ@army.mil, no later than the question deadline specified in FAR 52.212-1 of this solicitation.

(b) All questions and official Government answers will be consolidated and issued via an amendment to the solicitation, which will be posted to SAM.gov.
