FAR Part 6 Justification and Approval
for Other than Full and Open Competition

1. Requiring Activity:
Directorate of Installation Services
Engineering Branch
Tobyhanna Army Depot
11 Hap Arnold Blvd.
Tobyhanna, PA 18466

2. Contracting Activity:
U.S. Army Contracting Command-Aberdeen Proving Ground
Tobyhanna Division
11 Hap Arnold Blvd.
Tobyhanna, PA 18466

3. Description of Action: Request approval to award a new [redacted], limited source firm-fixed-price (FFP) contract to authorized DAQ Electronics Value Added Resellers (VAR) for preventative maintenance and repair services for the ICIDS V at Tobyhanna Army Depot. The estimated period of performance is 1 October 2026 to 30 September 2031. The contract will be fully funded using Army Working Capital Funds (AWCF).

4. Description of Supplies/Services: This requirement is for non-personal services to provide all personnel, equipment, supplies, and supervision necessary to perform preventative maintenance, repair, replacement, removal, and installation of ICIDS V compliant alarm equipment. The services cover all components [redacted] at Tobyhanna Army Depot. The objective is to sustain all ICIDS systems in a fully operational state. The contractor will also provide unscheduled and critical emergency repairs.

Period	Period of Performance (POP)	Estimated Value
Base	1 OCT 26 – 30 SEP 27	[redacted]
Option 1	1 OCT 27 – 30 SEP 28	[redacted]
Option 2	1 OCT 28 – 30 SEP 29	[redacted]
Option 3	1 OCT 29 – 30 SEP 30	[redacted]
Option 4	1 OCT 30 – 30 SEP 31	[redacted]
	Estimated Total Price	[redacted]
FAR 52.217-8		[redacted]
	Estimated Overall Total Price	[redacted]

5. Authority Cited: Title 10 U.S.C. 3204(a)(1) as implemented in Revolutionary Federal Acquisition Regulation (FAR) Overhaul (RFO) 6.103-1(d), Application for brand-name descriptions.

6. Reason for Authority Cited: Per Army Regulation (AR) 190-13, the Army Physical Security Program, ICIDS is the standardized Department of Defense (DoD) system that will be used by Army organizations not located on joint bases supported by another military department, or at United States Army Corp of Engineers (USACE) civil works and like projects.

a. Background: ICIDS is the Army Program of Record for IDS [redacted] requirements. ICIDS is procured and installed by Program Manager - Force Protection Systems (PM-FPS) [redacted]. Once installed, PM-FPS retains program ownership for issues such as the Risk Management Framework Authority to Operate but the local system owner is responsible for maintenance.

b. Alternatives: N/A
Use of in-house resources is not a feasible alternative as government personnel do not possess the required proprietary knowledge or certifications to maintain the DAQ Electronics ICIDS system.

c. Impact if not approved: If this justification is not approved, [redacted] he alternative, [redacted] would be costly and less effective [redacted]

7. Efforts to Obtain Competition: The Contracting Officer has not published the notices required by RFO 5.002 due to an exception at RFO 5.101(b)(2), and any bids or proposals received from the authorized DAQ Electronic VARs shall be considered.

a. Effective Competition: This requirement will be competed among the sixteen authorized DAQ Electronics VARs.

b. Subcontracting competition: N/A

8. Actions to Increase Competition: This is a follow-on requirement. An approved Limited Source Justification and Approval was approved on 12 July 2023. Due to the DA requirement stated in Paragraph 6(a) above, the Government is limited to increase competition beyond the authorized DAQ VARs. However, the Contracting Officer Representative and TYAD Security personnel will continue to monitor AR 190-13 for any changes in ICIDS system requirements as well as the marketplace utilizing market research to determine if any additional DAQ VARs are available to provide this service at TYAD.

9. Market Research: Market Research was conducted in accordance with FAR 10.002 in April- July 2026 by Tobyhanna Army Depot Electronics Technician.

A Request for Information was posted to SAM.gov on 15 June 2026 and closed on 22 June 2026 to gauge capability and gather information from potential offerors. Three responses were received: One from Security 2000, LLC, another from Minutemen Security Solutions LLC and the third from Black Raven Security, LLC. All three of the companies that responded are all small businesses, therefore, this requirement will be posted to SAM.gov as a 100% small business set-aside.

Market research and review of previous history of the same contract requirement shows that there are sixteen DAQ VARs that are authorized to provide the required maintenance at the level of quality required.

10. Interested Sources: To date, no other sources have written to express an interest in this acquisition. Any sources other than DAQ VARs would be rejected as they would be unable to meet the requirement of maintaining the currently installed system without causing a substantial duplication of cost for its replacement.

11. Other Facts:

a. Procurement history.

[redacted]	[redacted]	[redacted]	[redacted]	[redacted]
[redacted]	[redacted]	[redacted]	[redacted]	[redacted]

b. Other Facts: There are sixteen DAQ VARs authorized to provide this requirement. At least five are small businesses. Therefore, this requirement will be posted to www.sam.gov as a 100% small business set-aside.

12. Technical Certification: I certify that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

[redacted]
Engineering Technician

13. Requirements Certification: I certify that the supporting data under my cognizance, which are included in the justification, are accurate and complete to the best of my knowledge and belief.

[redacted]
Chief, DPW Planning Branch

14. Fair and Reasonable Cost Determination: I hereby determine that the anticipated price/cost to the Government for this contract action will be fair and reasonable. This determination will be made using fair and reasonable price, if there is no competition, a price analysis using historical pricing and the independent Government estimate will be used in determining the price to be fair and reasonable as part of the basis, certified cost or pricing data will or will not be required.

[redacted]
Contracting Officer

15. Contracting Officer Certification: I certify that this justification is accurate and complete to the best of my knowledge and belief.

[redacted]
Contracting Officer

Control Number: JA-26-TOBY-0399

Approval

Based on the foregoing justification, I hereby approve the procurement of Integrated Commercial Intrusion Detection System V (ICIDS V) Alarm Maintenance and Repair Services at TYAD on an other than full and open competition basis pursuant to the authority of Title 10 U.S.C. §3204(a) as implemented in Revolutionary Federal Acquisition Regulation (FAR) Overhaul (RFO) 6.103-1(d), Application for brand-name descriptions. The estimated value of the new contract is [redacted] for a five-year (base and four one-year options to include FAR 52.217-8) period of performance from 01 OCT 2026 to 30 SEP 2031. The approval is subject to availability of funds, and provided that the supplies and/or services herein described have otherwise been authorized for this acquisition.
