(iv) If a demand for payment was previously issued for the debt, the demand for payment included in the final decision shall identify the same due date as the original demand for payment.

(v) Amounts shall be due at the earliest of the following dates:

(A) The date fixed under this contract.
(B) The date of the first written demand for payment, including any demand for payment resulting from a termination for cause.

(vii) The interest charge made under this clause may be reduced under the procedures for interest credits prescribed in FAR part 32 in effect on the date of this contract.

(j) *Risk of loss*. Unless the contract specifically provides otherwise, risk of loss or damage to the supplies provided under this contract shall remain with the Contractor until, and shall pass to the Government upon—

In the event of such termination, the Contractor shall immediately stop all work and shall immediately cause any and all of its suppliers and subcontractors to cease work. Subject to the terms of this contract, the Contractor shall be paid a percentage of the contract price reflecting the percentage of the work performed prior to the notice of termination, plus reasonable charges the Contractor can demonstrate to the satisfaction of the Government using its standard record keeping system, have resulted from the termination. This paragraph does not give the Government any right to audit the Contractor's records. The Contractor shall not be paid for any work performed or costs incurred which reasonably could have been avoided.

The Government may terminate this contract, or any part hereof, for cause in the event of any default by the Contractor, or if the Contractor fails to comply with any contract terms and conditions, or fails to provide the Government, upon request, with adequate assurances of future performance. The Government will send a cure notice to the Contractor, unless the reason for the termination is late delivery. In the event of termination for cause, the Government shall not be liable to the Contractor for any amount for supplies or services not accepted, and the Contractor shall be liable to the Government for any and all rights and remedies provided by law. If it is determined that the Government improperly terminated this contract for default, such termination shall be deemed a termination for convenience.

(n) *Title*. Unless specified elsewhere in this contract, title to items furnished under this contract shall pass to the Government upon acceptance, regardless of when or where the Government takes physical possession.

(o) *Warranty*. The Contractor warrants and implies that the items delivered under this contract are merchantable and fit for use for the particular purpose described in this contract.

WBR 1452.237-80 SECURITY REQUIREMENTS--BUREAU OF RECLAMATION (MAR 2022)

(a) General Security Requirements:

(1) This clause addresses security requirements, including general procedural requirements, information security requirements, contractor employee suitability requirements, identification card requirements, site security requirements, vessel exclusion barriers, and information technology security requirements. Within this clause, COR means Contracting Officer's Representative. If there is no COR appointed and identified to the Contractor, the term instead will mean the Program Manager or any other authorized individual responsible for technical oversight under the contract. “Work site” means the Government facility, office, construction site, and any other area within the Government office or facility that the Contractor must access to accomplish work under this contract.

(2) The work performed under this contract shall only be accomplished by individuals (in the employment of the Contractor or any subcontractors) whose conduct and behavior is consistent with the efficiency of the Federal Service and the requirements of this contract, and who are acceptable to the contracting officer. If Reclamation finds a Contractor employee to be unsuitable or unfit for his or her assigned duties, the contracting officer will direct the Contractor to remove the individual from the contract and access to the Federal facility at which the contract activities are occurring.

(3) The Contractor’s employees governed by this contract may need access to sensitive information and/or sensitive areas. The Federal Government (Government) reserves the right, in its sole discretion, to determine suitability of Contractor personnel and deny access to any sensitive information or project specific area to any personnel for any cause.

(4) The Contractor is responsible for informing and ensuring compliance by its employees with any applicable security procedures of the Government facility where work may be performed under this contract.

(5) Any Contractor employee that will have access to a Federally-controlled facility or information system will be required to have a Government-issued

identification card, consisting of a Personal Identity Verification (PIV) Card, a temporary identification card, or a visitor badge. (Note: within the Department of the Interior this card is known as a DOI Access Card.) During performance of the contract, the Contractor shall keep the COR apprised of any changes in personnel, or changes in personnel access or duration, to ensure that performance is not delayed by compliance with credentialing processes.

(6) A Contractor employee will not be provided access to a Government facility or information system until a Government PIV Card, temporary identification card, or visitor identification badge has been issued to the Contractor employee. For those individuals that will be receiving a PIV Card, the Government may, at its discretion, issue a temporary identification card or visitor identification badge after the electronic background investigation forms have been received and the investigation is initiated.

(7) All Contractor employees shall access the facility via the facility's entry screening system and visibly display the Government-issued PIV Card, temporary identification card, or visitor identification badge at all times. Contractor employees must visibly wear the Government-issued identification card at all times they are on Government facilities. Contractor employees are responsible for the safekeeping of all Government-issued identification cards, whether on-site or off-site. Cards that have been lost, damaged, or stolen must be reported to the COR and DOI Access Sponsor immediately, but not later than within 24 hours. The Contractor shall return all identification cards and card keys and any other Government property and information upon completion of performance or when personnel depart permanently or for a period of 7 days or more. The Contractor may be required to turn in access control cards or identification cards on a daily basis.

(8) Misuse or loss of access control or identification cards, or failure to comply with required surrender of such cards may, at Government discretion, result in Contractor personnel being denied access to the work site, at no cost to Government. The Contractor may be charged up to $500 for each occurrence for any required replacement of Government-issued access control or identification cards due to loss or misuse. At the end of contract performance, or when a Contractor employee is no longer working under this contract, the Contractor shall ensure that all access control and identification cards are returned to the COR.

(9) All Contractor personnel, including subcontractor personnel, with access to the work site shall be U.S. citizens or foreign individuals legally residing in, or legally admitted to, the U.S. For all non-U.S. citizens working under this contract, irrespective of length of time working on the contract, the Contractor shall provide to the COR, legible and valid copies of the individual's passport and visa (unless individual is on the Visa Waiver Program) a minimum of 14 calendar days prior to beginning work or arriving at the facility. A driver's license is not acceptable identification. In addition, a completed form I-94 shall be submitted to the COR upon the individual's arrival at the work facility and prior to beginning work.

(10) The Contractor shall report all contacts with entities, individuals, and counsel/representatives (including foreign entities and foreign nationals) who seek in any way to obtain unauthorized access to sensitive information or areas. The Contractor shall report any violations of contract provisions, laws, executive orders, regulations, and guidance to the contracting officer. The Contractor shall report any information raising a doubt as to whether an individual's eligibility for continued employment or access to sensitive information is consistent with the interests of National Security and the Public Trust.

(11) Unsanctioned, negligent, or willful inappropriate action on the part of the Contractor (or its employees) may result in termination of the contract or removal of some Contractor employees from Reclamation facilities at no cost to the Government. These actions include, but are not limited to, exploration of a sensitive system and/or information, introduction of unauthorized and/or malicious software, inappropriate release of sensitive information, or failure to follow prescribed access control policies and/or security procedures. Failure to comply with Reclamation policies, procedures, or other published security requirements may result in termination of the contract or removal of some contracted employees from Reclamation buildings and/or facilities at no cost to the Government.

(12) All provisions of this clause shall equally apply to all subcontractors. The Contractor shall incorporate the substance of this clause in all subcontracts.

(13) These security requirements apply to all sections of this Contract including Contract Drawings and other Contract Specifications as applicable. Related documents include other general provisions of Construction or Operations and Maintenance type Contracts, including FAR clauses by reference or as amended by related documents.

(b) Information Security Requirements.

(1) Sensitive Information. The term "sensitive information" means any information which warrants a degree of protection and administrative control as defined by Reclamation or that meets the criteria for exemption from public disclosure set forth under Sections 552 and 552a of Title 5, United States Code: the Freedom of Information Act and the Privacy Act. Sensitive information is generally categorized as CONTROLLED UNCLASSIFIED INFORMATION (CUI), but in some cases may include other unclassified information. (The protection of National Security information is beyond the scope of this clause. If any work on National Security information is required under this contract, it is addressed under other contract clauses.) The Contractor shall protect this type of information from unauthorized release into public domain, or to unauthorized persons, organizations, or subcontractors. Information which, either alone or in aggregate, is deemed sensitive by Reclamation shall be handled and protected in accordance with Reclamation Directives and Standards SLE 02-01 Identifying and Safeguarding Controlled Unclassified Information (CUI), which is available from the COR or at http://www.usbr.gov/recman/DandS.html#sle.

(i) Any Government-furnished information or material does not become the property of the Contractor and may be withdrawn at any time. Upon expiration or termination of the contract, all documents released to the Contractor and any material created using data from such documents shall be returned to the COR for final disposition. Government- furnished information residing on any electronic systems (laptops, servers, desktops, media) shall be deleted from those systems using a COR-approved data erasure solution. Only with prior authorization from the contracting officer may the Contractor retain the material. The Contractor or subcontractor shall not disclose or release the materials provided to the Contractor to any individuals of the Contractor's organization not directly engaged in providing services under the contract or that do not have a valid need-to- know. All technical data provided to the Contractor by the Government shall be protected from public or private disclosure in accordance with the markings printed on them. All other information relating to the items to be delivered or the services to be performed under this contract shall not be disclosed by any means without prior approval of the contracting officer. Prohibited dissemination or disclosure includes, but is not limited to: permitting access to such information by foreign nationals or by immigrant aliens who may be employed by the Contractor, publication of technical or scientific papers, advertising, disclosure to Contractor staff not investigated and deemed acceptable at the appropriate information sensitivity level, and any other public release. The Contractor shall maintain, and furnish upon request of the contracting officer, records of the names of individuals who have access to sensitive material in its custody and the sensitive material to which the individuals had access. All questions regarding information security, access, and control shall be referred to the COR.

(ii) The Contractor shall not release to anyone outside the Contractor’s organization any sensitive, or otherwise protected information, regardless of medium in which it is contained (for example, film, tape, document, electronic), pertaining to any part of this contract or any Reclamation program or activity, unless the contracting officer has given prior written approval. This includes, but is not limited to, news releases, marketing promotions, articles, interviews, reports, social media posts, and any other media releases. Requests for approval shall identify the specific information to be released, the medium to be used, the purpose for the release, and a description of the need-to-know. The Contractor shall submit its request to the contracting officer ten business days before the proposed date for release. Subcontractors shall submit requests for authorization to release through the prime Contractor to the contracting officer.

(iii) The Contractor shall notify the COR immediately when known or suspected loss/compromise of sensitive information or other documents, notes, drawings, sketches, reports, photographs, exposed

film or similar information which may affect the security interests of Government has occurred. This requirement extends to employees and other personnel working on behalf of the Contractor, and expands responsibility to include prompt reporting of security issues, including observed or subsequently discovered efforts by unauthorized persons to gain unauthorized access to sensitive information.

(2) Classified Information.

(i) The disclosure of U.S. Government documents by third parties can result in damage to our national security. While this contract may not deal directly with classified information, each contractor is obligated to protect classified information pursuant to all applicable laws and to use Government information technology systems in accordance with agency procedures so that the integrity of such systems is not compromised.

(ii) Unauthorized disclosures of classified documents (whether in print, on a blog, or on websites, or other electronic or non-electronic media) do not alter the documents' classified status or automatically result in declassification of the documents. To the contrary, classified information, whether or not already posted on public websites or disclosed to the media, remains classified, and must be treated as such by Federal employees and contractors, until it is declassified by an appropriate U.S. Government authority. Executive Order 13526, Classified National Security Information (December 29, 2009), Section 1.1.(c) states, "Classified Information shall not be declassified automatically as a result of any unauthorized disclosure of identical or similar information." Although the Department has taken steps to prevent access to publicly disclosed classified materials from Departmental computers, it is important to understand our continuing duties and responsibilities in this regard.

(iii) Contractors (which include all employees of the contractor, as well as subcontractors and its employees performing work for the contractor) are reminded of the following obligations with respect to the treatment of classified information and the use of unclassified government information technology systems:

(iv) The contractor shall not, while using unclassified Government computers or other devices (such as phones or tablets) access documents that are marked classified (including classified documents made publicly available by a third party), as doing so risks that material still classified will be placed onto unclassified systems. This requirement does not restrict contractor access to unclassified, publicly available news reports (and other unclassified material) that may in turn discuss classified material, as distinguished from access to underlying documents that themselves are marked classified (including if the underlying classified documents are available on public web sites or otherwise in the public domain).

(v) For contracts that require access to classified information, the contractor is responsible for obtaining the required national security clearance through the Department of the Defense National Industrial Security Program Operating Manual (NISPOM). Any classified contracts will be coordinated through the Reclamation Chief Security Officer, or for IT requirements, the Bureau Chief Information Security Officer. No contractor shall access classified information unless proper clearances have been obtained and transmitted to Reclamation. For further information, refer to 443 DM 1 or DOD NISPOM 5220.22-M dated February 28, 2006 (incorporating change 2 dated May 18, 2016).

(vi) Classified information shall not be removed from official premises.

(vii) Classified information shall not be disclosed without proper authorization.

Quoters are required to submit the following information **with** their quotation:

(a) Quotes may be submitted via electronic mail only. Submit signed and dated quote at or before 3:00 p.m., Pacific Daylight Time, July 20, 2026. To send quote via electronic mail all documents must be emailed to steven_teves@ios.doi.gov.

END OF ADDENDUM 52.212-1

52.212-2 EVALUATION – COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (MAR 2026)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

1. Technical Capability – Respondents are encouraged to provide documentation with their quote. Technical capability documentation shall provide capabilities of the respondent to meet the performance requirements of this solicitation. At a minimum, the quoter shall address in its technical capability document the following:

(a) Contractor and Proposed Subcontractor Technical Capability – Provide copy of contractor's and/or the subcontractor's industry applicable license and permits to perform the work described in the PWS. The Contractor is required to submit copies of each referenced license, permit, and/or certification(s) with their quote.

2. Past Performance – The quoter's Contractor Performance Assessment Reporting System (CPARS) record will be reviewed. Those without a record of relevant past performance or for whom information on past performance is not available, the quoter will be rated neutral and shall not have past performance evaluated favorably or unfavorably.

3. Price – Prices will be evaluated for fair and reasonableness and any instances of unbalanced pricing. The total evaluated price will be calculated as the sum of the contract line item numbers (CLIN's) extended prices, including the base, all option CLIN's, and the 52.217-8 Option to Extend Services. The option to extend service's price will be calculated by prorating the last option's CLIN's price for a period of 6 months.

Award will be made based on comparative evaluation of quotes.

(b) *Options*. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(a) Definitions. For the purposes of this provision and the Freedom of Information Act (5 U.S.C. 552), the following terms shall have the meaning set forth below:

(1) 'Trade Secret' means an unpatented, secret, commercially valuable plan, appliance, formula, or process, which is used for making, preparing, compounding, treating or processing articles or materials which are trade commodities.
(2) 'Confidential commercial or financial information' means any business information (other than trade secrets) which is exempt from the mandatory disclosure requirement of the Freedom of Information Act, 5 U.S.C. 552. Exemptions from mandatory disclosure which may be applicable to business information contained in proposals include exemption (4), which covers 'commercial and financial information obtained from a person and privileged or confidential,' and exemption (9), which covers 'geological and geophysical information, including maps, concerning wells.'

(b) If the offeror, or its subcontractor(s), believes that the proposal contains trade secrets or confidential commercial or financial information exempt from disclosure under the Freedom of Information Act, (5 U.S.C. 552), the cover page of each copy of the proposal shall be marked with the following legend:

'The information specifically identified on pages _____ of this proposal constitutes trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act. The offeror requests that this information not be disclosed to the public, except as may be required by law. The offeror also requests that this information not be used in whole or part by the Government for any purpose

other than to evaluate the proposal, except that if a contract is awarded to the offeror as a result of or in connection with the submission of the proposal, the Government shall have the right to use the information to the extent provided in the contract.'

(c) The offeror shall also specifically identify trade secret information and confidential commercial and financial information on the pages of the proposal on which it appears and shall mark each such page with the following legend:

'This page contains trade secrets or confidential commercial and financial information which the offeror believes to be exempt from disclosure under the Freedom of Information Act and which is subject to the legend contained on the cover page of this proposal.'

(d) Information in a proposal identified by an offeror as trade secret information or confidential commercial and financial information shall be used by the Government only for the purpose of evaluating the proposal, except that (i) if a contract is awarded to the offeror as a result of or in connection with submission of the proposal, the Government shall have the right to use the information as provided in the contract, and (ii) if the same information is obtained from another source without restriction it may be used without restriction.

(e) If a request under the Freedom of Information Act seeks access to information in a proposal identified as trade secret information or confidential commercial and financial information, full consideration will be given to the offeror's view that the information constitutes trade secrets or confidential commercial or financial information. The offeror will also be promptly notified of the request and given an opportunity to provide additional evidence and argument in support of its position, unless administratively unfeasible to do so. If it is determined that information claimed by the offeror to be trade secret information or confidential commercial or financial information is not exempt from disclosure under the Freedom of Information Act, the offeror will be notified of this determination prior to disclosure of the information.

(f) The Government assumes no liability for the disclosure or use of information contained in a proposal if not marked in accordance with paragraphs (b) and (c) of this provision. If a request under the Freedom of Information Act is made for information in a proposal not marked in accordance with paragraphs (b) and (c) of this provision, the offeror concerned shall be promptly notified of the request and given an opportunity to provide its position to the Government. However, failure of an offeror to mark information contained in a proposal as trade secret information or confidential commercial or financial information will be treated by the Government as evidence that the information is not exempt from disclosure under the Freedom of Information Act, absent a showing that the failure to mark was due to unusual or extenuating circumstances, such as a showing that the offeror had intended to mark, but that markings were omitted from the offeror's proposal due to clerical error.
