5. Reasons for Authority Cited:

(a) Services can only be provided from the original source 'Motorola Spillman'. This proprietary software and the updates and support cannot be performed by any other source.

(b) Award to any other source would result in substantial duplication of costs to the Government that is not expected to be recovered through competition.

(c) Services/Supplies are needed immediately to satisfy mission requirements.

6. Publicizing Contract Actions: Action is a sole source restriction, over $30K. It will be redacted and posted with the solicitation. Give date posted.

7. Market Research: The requiring activity conducted research via written, telephonic and worldwide web inquiries and no responses were received. Therefore, based on the results of the market research, prospective sources do not exist at this time for this contract action**.**

8. Other Facts: This acquisition supports Army Policy, Procedures, and Methodology as follows: To date, no other sources have written to express an interest. The vendor does not authorize any other vendor for domestic sales. Doing so, would void the warranty on the current Government owned equipment, and the cost of replacing the equipment is not expected to be recovered through competition.
