Scope of Work (SOW): Dive Service – Keel Cooler Cleaning for CGC WYACONDA

1. Project Title:
Dive Service for Keel Cooler Cleaning – CGC WYACONDA

2. Location:
CGC WYACONDA
60 East 1st Street
Dubuque, IA 52001

3. Point of Contact (POC):
MKC Josh Kump
Phone: (540) 664-5097

4. Period of Performance:
One (1) day. Date to be coordinated with POC between 01JUL2026 and 31JUL2026.

5. Objective:
Provide professional dive services to clean the keel coolers on CGC WYACONDA while the vessel is moored at the above location.

6. Scope of Work:

- Contractor shall provide all personnel, equipment, and materials necessary to perform underwater cleaning of the vessel's keel coolers.
- Divers shall inspect the keel coolers prior to cleaning to assess fouling and ensure no damage is present.
- Cleaning shall be performed using methods appropriate for marine equipment, ensuring no damage to the keel coolers or hull.
- Upon completion, divers shall conduct a post-cleaning inspection and report any observed deficiencies or damage to the POC.
- All work shall comply with applicable safety and environmental regulations.

7. Deliverables:

- Pre- and post-cleaning inspection reports (verbal or written, as directed by POC).
- Notification of any deficiencies or damage identified during the cleaning process.

8. Safety and Environmental Compliance:

- All dive operations must comply with OSHA, USCG, and local safety regulations.

- Contractor is responsible for proper disposal of any debris removed during cleaning.

9. Access and Security:

- Contractor shall coordinate with the POC for site access and security requirements.
