REQUIRED INSURANCE

FAR 28.307-2 Liability

In accordance with FAR 28.307-2, the Contractor is required to provide and maintain the kinds and minimum amounts of insurance stated below:

a) Workers' Compensation and Employer's Liability. Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least $100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) General Liability.

(1) The contracting officer shall require bodily injury liability insurance coverage written on the comprehensive form of policy of at least $500,000 per occurrence.

(2) Property damage liability insurance shall be required only in special circumstances as determined by the agency.

(c) Automobile Liability. The contracting officer shall require automobile liability insurance written on the comprehensive form of policy. The policy shall provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least $200,000 per person and $500,000 per occurrence for bodily injury and $20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) Aircraft Public and Passenger Liability. When aircraft are used in connection with performing the contract, the contracting officer shall require aircraft public and passenger liability insurance. Coverage shall be at least $200,000 per person and $500,000 per occurrence for bodily injury, other than passenger liability, and $200,000 per occurrence for property damage. Coverage for

passenger liability bodily injury shall be at least $200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) Vessel Liability. When contract performance involves use of vessels, the contracting officer shall require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

Limitations on Subcontracting (Feb 2026) (Deviation 2026-O0038)

(a) This clause does not apply to the unrestricted portion of a partial set-aside.

(b) Definition. Similarly situated entity, as used in this clause, means a first-tier subcontractor, including an independent contractor, that-

(1) Has the same small business program status as that which qualified the prime contractor for the award (e.g., for a small business set-aside contract, any small business concern, without regard to its socioeconomic status); and

(2) Is considered small for the size standard under the North American Industry Classification System (NAICS) code the prime contractor assigned to the subcontract.

(c) Applicability. This clause applies only to-

(1) Contracts that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(2) Part or parts of a multiple-award contract that have been set aside for any of the small business concerns identified in 19.000(a)(3);

(3) Contracts that have been awarded on a sole-source basis in accordance with sections 19.105, 19.106, 19.107, and 19.108;

(4) Orders expected to exceed the simplified acquisition threshold and that are set aside for small business concerns under multiple-award contracts, as described in 8.4 and 16.5;

(5) Orders, regardless of dollar value, that are set aside in accordance with sections 19.105, 19.106, 19.107, and 19.108 under multiple-award contracts, as described in 8.4 and 16.5; and

(6) Contracts using the HUBZone price evaluation preference to award to a HUBZone small business concern unless the concern waived the evaluation preference.

(d) Independent contractors. An independent contractor shall be considered a subcontractor.

(e) By submission of an offer and execution of a contract, the Contractor agrees that in performance of a contract assigned a North American Industry Classification System (NAICS) code for-

(1) Services (except construction), it will not pay more than 50 percent of the amount paid by the Government for contract performance to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both services and supplies, the 50 percent limitation shall apply only to the service portion of the contract;

(2) Supplies (other than procurement from a nonmanufacturer of such supplies), it will not pay more than 50 percent of the amount paid by the Government for contract performance, excluding the cost of materials, to subcontractors that are not similarly situated entities. Any work that a similarly situated entity further subcontracts will count towards the prime contractor's 50 percent subcontract amount that cannot be exceeded. When a contract includes both supplies and services, the 50 percent limitation shall apply only to the supply portion of the contract;

Evaluation-Commercial Products and Commercial Services (Feb 2026) (Deviation 2026-O0038)

(a) Evaluation factors. The Government will award a contract resulting from this solicitation to the responsible Offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered. The following factors will be used to evaluate offers:

[Insert evaluation factors in the relative order of importance. For requests for proposals, state: Evaluation factors other than price when combined are [significantly more important than price /approximately equal to price/significantly less important] than price. For invitations for bids, list only price and price-related factors.]

____

(b) Options (if applicable). The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. The evaluation of options does not obligate the Government to exercise the option(s).

(c) Notice of award. A written notice of award or acceptance of an offer furnished to the successful Offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of provision)

Addendum to Evaluation - Commercial Product and Commercial Services

EVALUATION CRITERIA:

(a) Award shall be made to a single contractor. The basis for award of any contract resulting from this solicitation shall be the result of the evaluation factors specified herein with the lowest total aggregate price. The Government intends to award a single Firm Fixed Price (FFP) contract.

(b) The Government intends to award a contract without discussions with respective offerors. However, the Government reserves the right to conduct clarifications or discussions if deemed in its best interest.

(c) Award shall be made to a single contractor. Award will be made to the offeror on the basis of acceptability and responsibility, and whose proposal meets the requirements of the Performance Work Statement (PWS) and this solicitation at a fair market price.

I. PRICE:

(a) Proposals shall include prices for each line item listed and a total price, in order that proposals may be properly evaluated.

(b) The Government will evaluate offerors for award purposes by adding the total price for all Contract Line Item Numbers (CLINs) (base period and option periods) for the total evaluated price. In the event there is a difference between a unit price and the total CLIN amount, the unit price shall be held as the intended price multiplied by the number of units. If the offeror shows only the total amount but fails to submit a unit price, the total CLIN amount shall be divided by the quantity and held as the intended price. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) Unbalanced pricing exists when, despite an acceptable total evaluated price, one or more contract line items are significantly overstated or understated as indicated by the application of cost and/or price analysis techniques. A proposal may be rejected if the Contracting Officer determines that the lack of balance poses an unacceptable risk to the Government.

II. TECHNICAL:

(a) The Offeror must demonstrate an understanding of the requirements and a feasible technical approach capable of meeting the requirements of the PWS. Offerors shall provide documentation and any applicable certification for operating a switchboard tied into the local telephone services.

III. PAST PERFORMANCE:

(a) The Government may review available past performance and integrity information, including the Contractor Performance Assessment Reporting System (CPARS) and Federal Awardee

Performance & Integrity Information System (FAPIIS), as well as any other Government-sponsored information available may be utilized to help make a responsibility determination in accordance with FAR 9.104.

IV. Failure to provide any of the requested information may result in the proposal being deemed unacceptable and may not be eligible for award.
