DEBRIS RECOVERY STATEMENT – Post Demolition/Construction

Project Address: _____
Contractor: _____
Date: _____
Contact: _____
Phone: _____
Email: _____
Project: _____

Identify which materials were reused, recycled or disposed by completing the table below. You must recycle **at least 60%** of all waste generated. Check the designated box and provide the name of each facility or service provider and weight of materials. If the materials were reused on site, describe the reuse application under the facilities/service provider column. Salvaged materials from deconstruction should be designated as reuse. **Attach copies of receipts, gate tags, or other verifying documentation.**

Material	Reuse	Recycle	Dispose	Facility Service Provider	Weight (tons)
Asphalt					
Brick					
Cardboard					
Carpet					
Concrete					
Dirt/Clean Fill					
Dry Wall					
Metal					
Pallets					
Plastics					
Plant Debris					
Roofing - asphalt composition shingle, tile, wood shake, tar or gravel					
Wood - clean					
Wood - treated					
Other _____					
Other _____					

MATERIAL GENERATION SYNOPSIS

A. Total tons of materials generated for the project: _____
B. Total tons of materials disposed (not recycled): _____
C. Total tons of materials salvaged, reused, or recycled: _____
D. Percentage of materials recycled/reused (divide C by A):_____ %

For assistance in recovering materials at the jobsite, visit the following website for a Builders Guide to Reuse and Recycling for the County of Monterey, California.
