ATTACHMENT B

Project References *MUST USE

UFC 4-021-02, *Electronic Security Systems*
-Design requirements for Cameras, Access Control, and Intrusion Detection Systems

UFC 3-580-01, *Telecommunications Interior Infrastructure Planning and Design*
-Covers the IT network backbone, server rooms, and patch panels inside buildings where the camera feeds go.

UFGS 28 10 05, *Electronic Security Systems (ESS)*
-The actual contract specification template. This is the gold standard contract text for your installers

UFGS 26 05 33, *Raceway and Boxes for Electrical Systems*
-Tells the contractor exactly how to mount, route, and install conduits (raceways)

UFGS 26 05 41, *Underground Electrical Construction*
-Focuses entirely on buried conduits, trenches, and outdoor duct banks
