RFQ 89603026Q0052 – Vendor Questions and Government Responses

2.1.2

Question: Would 5/8x24 muzzle threads be allowed if muzzle device provided was a HUX QD but for these muzzle threads?

Response: Yes, this threading configuration is technically acceptable as the provided muzzle device is HUXWRX Flow compatible.

2.1.4

Question: The Stressproof bolt is a part of the REBCG - we offer the equivalent NP3 coated BCG in the MK1 with a C158 bolt, would that be acceptable for that bullet point?

Response: Yes, the SOLGW BCG is technically acceptable as it meets/exceeds the SOW technical requirements.

2.1.5

Question: For action spring, the A5 system as identified uses a rifle length spring and there is no braided rifle spring option, would the stainless rifle spring we use be allowed?

Response: Yes, the SOLGW stainless spring is technically acceptable as it meets the SOW technical requirement.

2.3

Question: Is there a specific sling or part number preferred by FERC?

Response: No, there are not specific slings/part numbers preferred. The Blue Force Gear Vickers Combat Applications Sling (VCAS) was the basis for the technical specifications used in the SOW.

Question: Would a sling option with sewn in QD swivels be allowed?

Response: Yes, a sling option with sewn in QD swivels is technically acceptable as it does not differ substantively or meaningfully from the SOW technical requirement.
