REQUEST FOR INFORMATION (RFI) / QUESTIONS & ANSWERS

Solicitation Number: W50S8J26QA018

Project Title: Replace Building 34 Auditorium Chairs (Project VBDZ262106)

Date: 09 July 2026

The following question was raised by a prospective offeror during the site visit conducted on 09 July 2026. The Government's formal response is provided below for the benefit of all potential offerors.

Q1: During the site visit, it was observed that a section of chairs in the very back row of the auditorium is relatively new (approximately 2-4 years old) and still in good condition. If a contractor is able to match these existing chairs, will the Government accept a quote to replace all the chairs except the newer ones in the back row?

A1: Yes. The Government will allow for alternate approaches and will accept multiple quotes from the same contractor. Offerors have the option to submit quotes for either or both of the following approaches:

Option A (Full Replacement): A quote for the complete replacement of all auditorium chairs as originally specified.

Option B (Partial Replacement & Match): A quote that retains the existing newer chairs in the back row but replaces all other older chairs with new seating that aesthetically and functionally matches the retained back row.

Please refer to the updated Statement of Work (SOW) and Instructions included in this amendment for specific instructions on how to submit technical data and pricing for these alternate options.

ADMINISTRATIVE NOTE:

This document serves as the official Government response to the field inquiry from the site visit. As a reminder, any additional questions, clarifications, or requests for information (RFIs) regarding this solicitation must be submitted in writing to the Contracting Officer at nicholas.bastiani.2@us.af.mil. The Government will provide formal responses to all further inquiries via an amendment posted to SAM.gov.
