4. Basis for Single Source Determination.

The Contracting Officer has determined that only one source reasonably available.

☐ Urgency – The nature of the requirement has been deemed urgent and following competitive procedures would result in an unacceptable delays.

☒ Exclusive licensing / proprietary data

☐ Brand-name requirement – The particular brand name is essential to the requirement and market research indicates similar products do not meet or cannot be modified to meet agency needs. If the justification is to cover only the portion of the buy which is brand name, then it should so state; the approval level requirements will then only apply to that portion.

☐ Compatibility with existing equipment/system (form, fit, function)

☐ Direct replacement (parts/components)

☐ Other (explain):_____

5. Detailed Rationale.

Peace Corps recently updated their Volunteer Portal System to the Sylogist Saas Cloud model, which eliminated the need for on-prem, standalone product. Only Sylogist can provide the proprietary license to this platform, and it is a direct follow on to existing work in 140D0424C0060. This is because the portal is based on the proprietary license and changing that license from the original equipment manufacturer would mean having to re-build the entire portal. The cost of a new system would exceed the $25,000.00 in recent upgrades and the $25,200.00 for a new license combine. The cost would significantly outweigh the cost of continuing with Sylogist. This would be a duplication of effort, not cost effective, and would not in the best interest of the Government.

6. Market Research.

Market Research showed that only Sylogistgov Inc., can provide the annual licenses for their platform, and it is a direct follow on to existing work. Sylogistgov Inc., confirmed they do not have any resellers and licenses are not available under any Government-Wide Acquisition Contract (GWAC) such as NASA SEWP or GSA.

7. Certifications.

Under the authority of **RFO 12.102(a)**, the undersigned hereby determines the circumstances of this contract action deem only one source is reasonably available as supported herein.
