(2) Individual employees are to be instructed by the support contractor regarding the sensitivity of the official contract files;

H-223-N001 INFORMATION ON EXPOSURE TO HAZARDOUS MATERIAL (NAVSEA) (JUL 2024) (Jul 2024)

Per 29 CFR 1910.1200, Hazard Communication, you, as a contractor employer with employees working at a Government facility, are hereby informed of the hazardous materials used at the Government facility which your employees may be exposed to while working here and also to suggest appropriate protective measures. Your own responsibilities as an employer, if any, are given in 29 CFR 1910.1200.

1. Hazardous materials your employees may be exposed to. Hazardous materials are materials which are cancer causing agents, toxic or highly toxic agents, reproductive toxins, irritants, corrosives, sensitizers, liver toxins, kidney toxins, agents which act on the blood forming system, and agents which damage the lungs, skins, eyes or mucous membranes. There are many potentially hazardous chemicals present at the Government facility which, unless controlled properly, could present a safety and health problem. The presence of many potentially hazardous materials may be apparent from the manufacturer's warning label on the hazardous material containers. The presence of many potentially hazardous materials may also be apparent due to their physical characteristics, such as the visual appearance of abrasive blasting dust or the distinctive smell of many solvents. These hazardous materials range in type and quantity. Typical hazardous materials include, but are not limited to:

a. Metals, e.g., mercury, lead, chromium

b. Paints and adhesives, e.g., varnishes and related products, sealing compounds, asphalt, deck and floor coverings, deck compounds

c. Corrosives, e.g., acids, alkalis

d. Compressed and liquefied gas, e.g., nitrogen, argon, oxygen, acetylene

e. Lubricants and oils, e.g., greases, cutting oils, hydraulic oils, miscellaneous waxes and fats

f. Fuels, e.g., liquid propellants, fuel oils, oxidizers, solid fuels

g. Particulates, e.g., asbestos fiberglass, dust, fumes, mist

Depending on the material involved, materials such as these can present physical hazards and or health hazards.

2. Labeling of Hazardous Material. Containers of potentially hazardous chemicals bear manufacturer's labeling, which identifies the chemical and it manufacturer, and provides appropriate hazard warnings. In addition, some materials may be labeled with the National Protection Association (NFPA) 704 label. This label uses a system of color coded symbols and numbers to convey the potential hazard of the material. The contractor should obtain information from NFPA concerning the interpretation of the 704 label.

3. Safety Data Sheets (SDS). The Safety Office maintains copies of manufacturers' SDS for potentially hazardous chemicals/materials that are known to be present in the Government facility. The contractor may, upon request to the Safety Office, review SDS for any specific materials to which contractor employees may be exposed while performing work in the Government facility. This information may be reviewed in the Safety Office.

4. Appropriate Protective Measures. Exposure to potentially hazardous material may occur from inhalation, ingestion or skin contact with the material: therefore, the following precautions should be taken:

a. Obey signs, directions and warning labels;

b. Do not use unknown or labeled materials;

c. Only operate equipment that you are authorized to operate, familiar with, and qualified to operate;

d. If any health effects (skin rash, trouble breathing, etc.) occur, which you feel are caused by exposure to hazardous material, contact the Safety Office.

5. The Safety Office points of contact are as follows: (*insert applicable name and code*).

Addendum to Evaluation - Commercial Product and Commercial Services

52.212-2 EVALUATION - COMMERCIAL ITEMS (ADDENDUM)

(a) The Government will award a contract resulting from this RFQ to the responsible vendor whose proposal, in full compliance with the RFQ, is deemed most advantageous to the Government, considering price and other factors. The following factors shall be used to evaluate offers:

Technical Capability

Price

Past Performance

Award(s) will be made for the technically acceptable item or combination of technically acceptable items that result in the lowest aggregate price to the Government.

TECHNICAL CAPABILITY: The Government will evaluate the offeror's technical capability as either acceptable, or unacceptable, based on their submission of a completed Technical Capabilities Statement (Attachment A) to ensure that all of the technical requirements identified are met. Technical acceptability will be defined as follows:

Adjectival Rating	Description
Acceptable	Quote meets all of the requirements identified.
Unacceptable	Quote does not meet all of the requirements identified.

Failure to meet any technical requirement for an item (or specification) will make the quotation unacceptable for that item (or that specification). If an item (or specification) is technically unacceptable, its price will not be considered for award.

PRICE

The estimated amount for each line item will be added together to determine the total estimated price which will become the evaluated price. The proposed price of the offeror will be evaluated based on price

Reasonableness and all pricing must be considered fair and reasonable as determined by the government. Price quote shall be held firm for sixty (60) days.

Delivery: The proposed delivery time will be evaluated based on most advantageous as determined by the Government

PAST PERFORMANCE: The Government will assess the degree of confidence it has in each offeror's ability to perform the services described in the Statement of Work (SOW) based on the offeror's demonstrated record of past performance.

That degree of confidence will be assessed based on the relevance of the offeror's past performance and the recency of that past performance.

Relevance is determined by those aspects of an Offerors history of contract (or subcontract) performance that would provide the most context and give the greatest ability to measure whether the Offeror will successfully satisfy the current requirement.

Recency is generally expressed as a time period during which past performance references are considered relevant and is critical to establishing the relevancy of past performance information. Per Addendum to FAR 52.212-1, Offerors shall provide Past Performance references from the past five (5) years.

Adjectival Rating	Description
Acceptable	Based on the offeror's performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Unacceptable	Based on the offeror's performance record, the Government does not have a reasonable expectation that the offeror will be able to successfully perform the required effort

52.229-11 Tax on Certain Foreign Procurements-Notice and Representation. (Jun 2020)

TAX ON CERTAIN FOREIGN PROCUREMENTS-NOTICE AND REPRESENTATION (JUN 2020)

(a) *Definitions*. As used in this provision-

Foreign person means any person other than a United States person.

Specified Federal procurement payment means any payment made pursuant to a contract with a foreign contracting party that is for goods, manufactured or produced, or services provided in a foreign country that is not a party to an international procurement agreement with the United States. For purposes of the prior sentence, a foreign country does not include an outlying area.

United States person as defined in 26 U.S.C. 7701(a)(30) means

(1) A citizen or resident of the United States;

(2) A domestic partnership;

(3) A domestic corporation;

(4) Any estate (other than a foreign estate, within the meaning of 26 U.S.C. 701(a)(31)); and

(5) Any trust if-

(i) A court within the United States is able to exercise primary supervision over the administration of the trust; and

(ii) One or more United States persons have the authority to control all substantial decisions of the trust.

(b) Unless exempted, there is a 2 percent tax of the amount of a specified Federal procurement payment on any foreign person receiving such payment. See 26 U.S.C. 5000C and its implementing regulations at 26 CFR 1.5000C-1 through 1.5000C-7.

(c) Exemptions from withholding under this provision are described at 26 CFR 1.5000C-1(d)(5) through (7). The Offeror would claim an exemption from the withholding by using the Department of the Treasury Internal Revenue Service Form W-14, Certificate of Foreign Contracting Party Receiving Federal Procurement Payments, available via the internet at www.irs.gov/w14. Any exemption claimed and self-certified on the IRS

Form W-14 is subject to audit by the IRS. Any disputes regarding the imposition and collection of the 26 U.S.C. 5000C tax are adjudicated by the IRS as the 26 U.S.C. 5000C tax is a tax matter, not a contract issue. The IRS Form W-14 is provided to the acquiring agency rather than to the IRS.

(d) For purposes of withholding under 26 U.S.C. 5000C, the Offeror represents that

(1) It ☐ is ☐ is not a foreign person; and

(2) If the Offeror indicates "is" in paragraph (d)(1) of this provision, then the Offeror represents that-I am claiming on the IRS Form W-14 ☐ a full exemption, or ☐ partial or no exemption [Offeror shall select one] from the excise tax.

(e) If the Offeror represents it is a foreign person in paragraph (d)(1) of this provision, then-

(1) The clause at FAR 52.229-12, Tax on Certain Foreign Procurements, will be included in any resulting contract; and

(2) The Offeror shall submit with its offer the IRS Form W-14. If the IRS Form W-14 is not submitted with the offer, exemptions will not be applied to any resulting contract and the Government will withhold a full 2 percent of each payment.

(f) If the Offeror selects "is" in paragraph (d)(1) and "partial or no exemption" in paragraph (d)(2) of this provision, the Offeror will be subject to withholding in accordance with the clause at FAR 52.229-12, Tax on Certain Foreign Procurements, in any resulting contract.

(g) A taxpayer may, for a fee, seek advice from the Internal Revenue Service (IRS) as to the proper tax treatment of a transaction. This is called a private letter ruling. Also, the IRS may publish a revenue ruling, which is an official interpretation by the IRS of the Internal Revenue Code, related statutes, tax treaties, and regulations. A revenue ruling is the conclusion of the IRS on how the law is applied to a specific set of facts. For questions relating to the interpretation of the IRS regulations go to https://www.irs.gov/help/tax-law-questions.
