Questions from Industry

1. We wanted to ask if you plan to outsource the manufacturing of these gears? - **Yes**

2. We also wanted to ask what quantities of each of the gears you plan to manufacture? – **20 of each**
3. If we are awarded the contract can we propose the manufacturing of these gears? – **Yes, as a separate line item, and independent of this offer. If awarding the follow-on manufacturing affects the price for the design, so state.**

4. Can you provide any information of what type of metal the gears were made from and who manufactured them? – **They are either AISI 4140 or 303 Stainless.**

5. Is there a specified delivery time or is it dependent on the proposal delivery date? - **No**

6. Review the cyber security requirements; it states the minimum requirement is CMMC Level 1 Self Cert, is this correct? – **Whatever the minimum requirements are, without waiving them. I believe CMMC Level 1 Self Cert meets that requirement.**

7. There is a request for improved manufacturing and part performance, will operational conditions be available to review loads, run stress analyst and surface treatments? – **Operational conditions are available to review loads, lubrication method, and duty cycle/run time.**
