Federal Mediation and Conciliation Service

PUBLIC SOLE SOURCE NOTICE ATTACHMENT

Microsoft Azure Pay-As-You-Go Services | FAR 13.106-1(b)(1)

Requirement

The Federal Mediation and Conciliation Service (FMCS) intends to award a firm-fixed-price purchase order for Microsoft Azure pay-as-you-go services, communications overages, and related usage charges.

Intended Source

Company	Regan Technologies Corporation
Location	Middletown, Connecticut

Authority

This action is being processed under FAR 13.106-1(b)(1), which permits soliciting from a single source when the Contracting Officer determines that only one source is reasonably available for the acquisition.

Rationale

FMCS currently receives Microsoft Volume Licensing support through Regan Technologies Corporation under the active MVLS award/order. The required Microsoft Azure pay-as-you-go services are directly tied to FMCS's existing Microsoft licensing environment and tenant. Azure usage and related overages are processed through the current Microsoft licensing channel. Awarding this requirement to another source during the current MVLS period would create unnecessary licensing/account transition risk, potential duplicate licensing or billing issues, administrative disruption, and possible delays in maintaining Azure continuity. Therefore, Regan Technologies Corporation is the only source reasonably available for this requirement at this time.

Response

This notice is not a request for competitive quotations. This notice is not intended as a competitive solicitation. However, all responsible sources may submit a capability statement or quotation by the response deadline stated in the SAM.gov notice, which shall be considered by the agency
