Prescribed by GSA FAR (48 CFR) 53.243

Summary of Changes

QUESTIONS & ANSWERS

1. Attachment 1 includes both CLIN O-00A, "Composite Labor Rate," and CLIN OA/G-001, "Labor Rate," for Open and Inspect Repairs. The solicitation defines Inspect and Repair Work as additional work discovered during performance and states that such work will be negotiated through Change Requests, while Attachment 3 requires CRs to be priced using the CR composite labor rate designated in the Schedule. Please clarify whether offerors must enter the same fully burdened composite labor rate for O-00A and OA/G-001. If the rates may differ, please define the categories of work to which each rate will apply and identify which numbered work items are subject to OA/G-001.

ANSWER: Your labor rate will be the same.

2. The "Foreseeable Costs" tab references both the Contracting Officer's location in Norfolk, Virginia, and the Port Engineer's homeport. Please clarify the correct point of origin and confirm whether offerors proposing a Honolulu drydock should enter "$0" or include airfare for KO travel.

ANSWER: It states in the foreseeable costs: "Contractor will enter either (1) "0" if their dry dock is located less than 50 miles or more than 150 miles from the PE's homeport or (2) the total number of round trip driving miles if the contractor is located between 51 to 149 miles from PE's homeport." The PE is homeported in Honolulu.

3. In the Foreseeable cost tab, cell C43 is a locked cell. Yet the comment says "do not change this cell unless DDK is less than 50 diving miles from homeport. Then enter 0" Can you please unlock this cell so that we can enter 0?

ANSWER: See revised Attachment 1-Blank SOS.
