L.1. GENERAL INSTRUCTIONS. These instructions are a guide for preparing proposals in response to **Solicitation # W519TC-26-R-A024** for SAMA 3.0 services located in Iraq. They describe the extent of information the Offeror must provide and emphasize the significant topic areas the Offeror shall address in its proposal. Each Offeror shall submit a maximum of one proposal. The Government will not reimburse the Offeror for costs incurred in association with the preparation of its proposal. The Offeror is expected to review the PWS contained in Section J of this RFP for further insight into the areas that the proposal must address. The Offeror must include in its proposal sufficient information to enable the Government to determine the Offeror's understanding of the requirements in each of the evaluated areas. Offerors are cautioned that repeating language of the PWS with a statement of intent to perform does not reflect understanding of the requirement. Offerors shall not specifically prepare samples or descriptive literature for submission to its proposal. Adherence to the prescribed format is required. Data not submitted with the proposal, but submitted previously or presumed to be known, will not be considered as part of the proposal. Failure to provide a proposal in compliance with the instructions specified in this RFP shall render the Offeror's proposal non-compliant. The proposal will not be further evaluated and will not be further considered for award. The Offeror must provide information in sufficient detail to allow the Government to assess the Offeror's ability to successfully execute the SAMA 3.0 effort. The proposal shall be prepared in a clear and legible manner. In addition, the Offeror shall write the proposal in English, and the proposal must be specific and complete as described in these instructions. The solicitation will tell offerors to note the provision at RFO FAR 52.215-1, Instructions to Offerors – Competitive Acquisition; and that the Government intends to award a contract resulting from this RFP without negotiations with offerors, except for clarifications described in RFO FAR 15.202(a)(2). Therefore, the offeror's initial proposal should contain the offeror's best terms from a cost or price and technical standpoint. The Government reserves the right to conduct negotiations if the Contracting Officer later determines them to be necessary. If the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly evaluated proposals.

The Offeror shall complete Box 12 of Standard Form 33 and indicate within its proposal submission that its offer shall be accepted within 90 calendar days of the RFP closing date.

3) Section 3 – Subcontracts and Affiliates, Parent Companies, or Teaming Partners. Offerors shall provide an outline of how the effort required by this RFP will be assigned for performance within the Offeror's corporate entity and among the proposed subcontractors.    If the Offeror submits past performance information for an affiliate, parent company, subsidiary, or Joint Venture partner, the Offeror must clearly demonstrate that the entity will have meaningful involvement in the performance

of the resulting contract. To ensure the Government can properly evaluate these references, the Offeror's Past Performance volume must include:

1. A clear narrative detailing the legal and corporate relationship between the Offeror and the affiliate/parent company.
2. A detailed explanation of the specific role the affiliate will perform. This must explicitly identify the resources, workforce, management, facilities, technology, or key personnel the affiliate will provide during contract execution.
3. A formal, signed Letter of Commitment, Corporate Guaranty, or Teaming Agreement from an authorized representative of the affiliate. This document must expressly commit the affiliate to providing the identified resources or personnel for the duration of the contract.

Past performance of an affiliate will not be evaluated if the proposal fails to demonstrate the affiliate's meaningful involvement in performing the proposed effort.

4) Section 4 - Past Performance Questionnaire. For all contracts identified in Section 1, Contract Descriptions, a Past Performance Questionnaire (Attachment 0006 in Section J of Solicitation) must be completed and submitted. Early submission of Past Performance data is encouraged. However, Past Performance data may be submitted up through the solicitation closing date and time. The Offeror shall submit within its Past Performance Volume a list of all the POCs who were sent a questionnaire. The POC list shall be submitted in table format to include the following fields: Solicitation Number; Company Name; Contract Number; USG Agency; POC Last Name, First Name; POC Title; POC Telephone Number; POC email Address; and Date the questionnaire was emailed to the POC.

L.9. VOLUME IV – PRICE FACTOR. Offeror's proposed pricing will be used by the Government to calculate the Total Evaluated Price for the base year and the four (4) option years. The Offeror's proposed price and costs shall be proposed in United States (US) dollars and rounded to two decimal places. The Offeror's entries shall not include formulas or links to other spreadsheets. Failure to propose costs for all CLINs is unacceptable and could render the offeror ineligible for award. Offerors are encouraged to submit accompanying written explanations, as deemed necessary by the Offeror, to provide the Government with a better understanding of the basis of the proposed price that may otherwise seem unreasonable or incomplete. Offerors are cautioned against placing conditions or qualifications upon their price proposal that are contrary to, or otherwise attempt to, amend the requirements of the solicitation; doing so may result in an offer being deemed non-responsive or unacceptable for further consideration of award.

The Government anticipates receiving competitive proposals and using competition to determine price reasonableness. The Government reserves the right to request other than certified cost or pricing data after receiving proposals. If required, data other than certified cost or pricing data must be submitted in accordance with the instructions specified at RFO FAR 15.403-1.
