Executive Order N-6-22 – Russia Sanctions: On March 4, 2022, Governor Gavin Newsom issued Executive Order N-6-22 (the EO) regarding Economic Sanctions against Russia and Russian entities and individuals. “Economic Sanctions” refers to sanctions imposed by the U.S. government in response to Russia’s actions in Ukraine, as well as any sanctions imposed under state law. The EO directs state agencies to terminate contracts with, and to refrain from entering any new contracts with, individuals or entities that are determined to be a target of Economic Sanctions. Accordingly, should the State determine Contractor is a target of Economic Sanctions or is conducting prohibited transactions with sanctioned individuals or entities, that shall be grounds for termination of this agreement. The State shall provide Contractor advance written notice of such termination, allowing Contractor at least 30 calendar days to provide a written response. Termination shall be at the sole discretion of the State.
Small Business Certification: Suppliers must be certified by California as a small business/DVBE to participate in this solicitation. Completed certification applications and required support documents must be submitted to the Office of Small Business and DVBE Services (OSDS) no later than 5:00 p.m. on the quote due date, and the OSDS must be able to approve the application as submitted. SB/Nonprofit Veteran Service Agencies (NVSA’s) must possess certification by California prior to the day and time quotes are due. Certification applications are available at the Office of Small Business and DVBE Services (OSDS). Questions regarding certification should be directed to the OSDS at (916) 375-4940.
Commercially Useful Function (CUF) Statement: CUF statute (Government Code 14837 and Military and Veterans Code 999) requires all certified Small Businesses (SB), Microbusinesses (MB) and/or Disabled Veteran Business Enterprises (DVBE) to perform a commercially useful function (CUF) in any contract with the State. A business performing a CUF is one that does <u>all</u> five (5) of the following functions: The Contractor shall perform a commercially useful function relevant to this solicitation and provide services or goods that contribute to the fulfillment of the contract requirements. To be considered the contractor/subcontractor must meet the following criteria: 1. Is responsible for the execution of a distinct element of the work of the contract. 2. Carries out the obligation by actually performing, managing, or supervising the work involved. 3. Performs work that is normal for its business services and functions. 4. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices. 5. Is responsible, with respect to products, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment. A contractor, subcontractor, or supplier will not be considered to perform a commercially useful function if the contractor’s, subcontractor’s, or supplier’s role is limited to that of an extra participant in a transaction, contract, or project through which funds are passed through solely to be qualified to submit a proposal or awarded the contract.
Declaration Forms: All bidders must complete the Bidder Declaration GSPD-05-105 and include it with the bid response. When completing the declaration, bidders must identify all subcontractors proposed for participation in the contract. Bidders awarded a contract are contractually obligated to use the subcontractors for the corresponding work identified unless the State agrees to a substitution, and it is incorporated by amendment to the contract. At the State’s option prior to award, bidders may be required to submit additional written clarifying information. Failure to submit the required written information as specified may be grounds for bid rejection.
TACPA Preference: This solicitation provides for the optional TACPA preference for bids above \$100,000.00. Bidders are not required to apply for this preference. Denial of the TACPA preference request is not a basis for rejection of the bid/offer. The TACPA workplace and workforce preferences will be evaluated for this solicitation. California-based companies seeking TACPA preferences will need to complete and submit preference request forms with the bid/offer. The following webpage contains required preference request forms and an interactive map to determine if a business is located within a TACPA qualified zone: Request-a Target-Area-Contract-Preference. By submitting TACPA forms, a bidder given a TACPA preference agrees to the TACPA contract provisions required by Government Code section 4535 and provided in section 1896.40 of Title 2 of the California Code of Regulations (CCR) in addition to requirements specified on the TACPA form STD 830.
Breaking Tie Bids: Buyers will settle tie bids through a coin toss, performed by the buyer with at least one witness. The witness will assign the tied bidders either heads or tails, while the buyer flips the coin. The date of the coin toss, the vendor assignments, the witness and the result will be documented in the procurement file. In the event of a precise tie between a SB/MB, and a DVBE who is also a SB/MB, the award shall go to the DVBE that is also a SB/MB.
Protest: There are no protest provisions for the SB/DVBE Option solicitation.
Gen AI: The State of California seeks to realize the potential benefits of GenAI, through the development and deployment of GenAI tools, while balancing the risks of these new technologies.

The State Agency Buy Recycled Campaign (SABRC) is a state mandated program that requires the reporting of all purchases made within 16 specified product categories. All state agencies are required to verify the recycled-content of all products purchased within each of these categories.

All businesses shall certify the minimum percentage in writing to the contracting officer or his or her representative, if not the exact percentage, of postconsumer recycled-content (PCRC) material in the products, materials, goods, or supplies offered or sold to the State regardless of whether the product meets the minimum content requirements specified in law (see reverse side). A State agency may waive the certification requirement if the percentage of postconsumer material in the products, materials, goods, or supplies can be verified in a written advertisement, including, but not limited to, a product label, a catalog, or a manufacturer or vendor Internet website.
