3. PREFERENCE AND INCENTIVE PROGRAMS

Preference and Incentive Programs are each identified below. When the Bidder satisfies the requirements and requests bid preferences and incentives, the Bidder must clearly identify in their bid submission for which of the programs it qualifies. Denial of those preference or incentive requests is not a basis for rejection of the bid.

A. Small Business Preference:

California Government Code (GC) section 14835, et seq., requires a preference be given to Bidders who are California Certified Small Business (SB). The rules and regulations of this law, including the definition of a SB for the delivery of goods and services, are contained in California Code of Regulations, title 2, section 1896 et seq.

A preference is available to a certified SB. A Bidder claiming this preference must be certified by the Office of Small Business and Disabled Veteran Enterprise Services (OSDS) as a SB. Questions regarding certification should be directed to the OSDS at (916) 375-4940.

To be considered as a certified SB, the Bidder must have a complete application package on file with the OSDS by 5:00 p.m. on the Deadline for Final Bid Submission date. Questions regarding the certification approval process should be directed to the OSDS. A copy of the regulations, instructions and format for claiming the Small Business Preference is available at: <https://www.dgs.ca.gov/PD/Services/Page-Content/Procurement-Division-Services-List-Folder/Certify-or-Re-apply-as-Small-Business-Disabled-Veteran-Business-Enterprise>

To claim the Small Business Preference please see Attachment 5, Bidder Declaration (GSPD-05-105).

NOTE: Pursuant to GC 14837, only a SB who performs a Commercially Useful Function (CUF) relevant to the Scope of Work included in this IFB may qualify the Bidder for a SB preference. A business that is performing a commercially useful function is one that does ALL of the following:

- i. Is responsible for execution of a distinct element of the work of the contract;
- ii. Carries out its obligation by actually performing, managing, or supervising the work involved;
- iii. Performs work that is normal for its business, services and function;
- iv. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices; and
- v. Is responsible, with respect to products, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment.

B. Non-Small Business Subcontractor Preference:

A preference is available to a non-small business (NS) claiming 25% California-certified small business subcontractor participation. A Bidder claiming this preference must list one or more SB subcontractor(s), whom the Bidder commits to subcontract in an amount of at least twenty-five percent (25%) of the work performed under this contract.

To claim the Non-Small Business Subcontractor Preference please see Attachment 5, Bidder Declaration (GSPD-05-105).

NOTE: Pursuant to GC 14837, only a SB who performs a Commercially Useful Function (CUF) relevant to the Scope of Work included in this IFB may qualify the Bidder for a SB preference. A business that is performing a commercially useful function is one that does ALL of the following:

- i. Is responsible for execution of a distinct element of the work of the contract;
- ii. Carries out its obligation by actually performing, managing, or supervising the work involved;
- iii. Performs work that is normal for its business, services and function;

- v. Is responsible, with respect to products, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment.

C. Disabled Veteran Business Enterprise Incentive:

There is no minimum DVBE participation minimum requirement for this contract. Pursuant to Military and Veterans Code Section 999.5, subdivision (a), an incentive will be given to Bidders who provide DVBE participation on the contract.

The DVBE Incentive is as follows:

Confirmed DVBE Participation	Incentive
5% and above	5%
4% to 4.99%	4%
3% to 3.99%	3%
2% to 2.99%	2%
1.01 to 1.99%	1%
0% - 1%	No incentive

A Bidder is eligible to receive this additional DVBE incentive if they are a certified DVBE or if a non DVBE Bidder commits to use a certified DVBE(s) as subcontractor(s).

To claim the DVBE incentive please see Attachment 5, Bidder Declaration (GSPD-05-105).

NOTE: Pursuant to Military and Veterans Code section 999 only a DVBE who performs a Commercially Useful Function (CUF) relevant to the Scope of Work included in this IFB may qualify the Bidder or be used to qualify the Bidder for a DVBE participation and/or DVBE incentive. A business that is performing a commercially useful function is one that does ALL of the following:

- i. Is responsible for execution of a distinct element of the work of the contract;
- ii. Carries out its obligation by actually performing, managing, or supervising the work involved;
- iii. Performs work that is normal for its business, services and function;
- iv. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices; and
- v. Is responsible, with respect to products, inventories, materials, and supplies required for the contract, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment.

D. Applying Preference and Incentives:

Preferences and incentives are used for bid tabulation purposes to determine the lowest responsive responsible bid. Strict adherence to the laws and regulations to apply the preferences and incentives will be followed. If awarded the contract, the preference and/or incentive does not alter the amount of the resulting contract. Please be aware that contracts awarded with applied preferences or incentives will be monitored throughout the life of the contract for compliance to statutory, regulatory and contractual requirements.

The SB preference of 5% will be applied when a responsive and responsible bidder that is not a CA certified SB submits the lowest responsive bid. NSB will receive a 5% preference if the lowest responsive bid is not a SB after application of the SB Preference. (Note: Pursuant to Government Code (GC) 14838 (g) NSB claiming SB subcontractor preference cannot result in denial of the award to a certified SB.)

The DVBE incentive will be applied to each qualified bidder's verified DVBE participation percentage from the number 1 ranked responsive and responsible net bid, regardless if the number 1 bidder is an SB/DVBE. If a SB is ranked number 1 after SB preference has been applied, the DVBE incentive is only calculated for bidders certified as SBs.

This letter of appeal shall be sent to the CCC Deputy Director of Administrative Services. The second level appeal must be filed within fifteen (15) working days upon receipt of the

CCC Representative's decision. Failure to submit an appeal within the period specified shall constitute a waiver of all such rights to a modification of this Agreement. The CCC offers young adults (Corpsmembers or CMs) a paid opportunity to advance their career and educational horizons while engaging in and providing important environmental and community services to state and local communities. Corpsmembers work on environmental projects and respond to natural and man-made disasters. Through this work, they gain skills and experience that lead to meaningful careers. The CCC is dedicated to developing Corpsmembers into citizens with character, credentials, and commitment.			
DESCRIPTION OF POSITION RESPONSIBILITIES Some Corpsmembers (CMs) will be required to live in residential environments with large groups of people (50 to 200 and sometimes more). The CCC residential program is not a care facility and is not staffed to provide assistance (i.e., psychiatric care or medications) to individuals with physical or mental disabilities. CMs may also be assigned to work in remote locations which can require living in tent camps (remote and temporary facilities) for up to 21 days at a time.			
ESSENTIAL FUNCTIONS OF ALL CCC CORPSMEMBER POSITIONS All Corpsmembers must be physically and mentally capable of working outdoors under extreme weather conditions for extended periods of time (multiple days). Corpsmembers must have the ability to work cooperatively as a team member to perform program activities safely and effectively without causing harm to themselves and others. They must have the ability to work well and live in close quarters with persons of different genders, sexual orientations, ethnicities, and/or backgrounds. They must be able to participate in high school level educational classes or continuing education classes for up to 10 hours a week. Corpsmembers are normally required to be on their feet continuously during vocational work hours. Extensive walking and/or hiking may be required. Corpsmembers are required to perform physically demanding vocational work that uses both their lower and upper extremities. Corpsmembers are typically assigned to outdoor work projects under adverse environmental conditions. Corpsmembers plant trees, clear streams, construct and maintain trails, perform construction and landscaping activities, prepare and serve food in quantity and many other types of vocational work projects. They may also be required to respond to state or federal declared emergencies such as floods, wildland fires, earthquakes and oil spills, which can extend their active work shift to up to 16 hours for multiple days in a row. All Corpsmembers must have visual acuity (Snellen) of not less than 20/100 without correction in each eye, corrected to not less than 20/30 in one eye. The individual must have color vision adequate to successfully perform the essential functions of the position, as measured by the Ishihara Pseudo-Chromatic Plate Test. CMs are required to have uncorrected hearing adequacy within speech frequencies. CMs assigned to the Energy Program must have color vision with, or without correction.			
ESSENTIAL FUNCTIONS OF THE CCC FIRE CREW CORPSMEMBER Fire Crew CMs may be required to continuously be on their feet during firefighting assignments. When working on a fire assignment, extensive walking and hiking is required. Fire Crew CMs are required to perform extremely physically demanding work that uses both their lower and upper extremities. During fire assignments, Fire Crew CMs will work outdoors under adverse environmental conditions for extended periods of time. Fire Crew CMs can be assigned to initial attack or mop-up assignments, which can expose them to extreme temperatures (over 100°F), excessive amounts of dust and smoke, and very steep terrain with loose soil. They may be required to drag or carry hoses and/or packs weighing up to 50 lbs. for extended distances while carrying firefighting tools. Fire Crew CMs may be required to work over 24-hour work shifts. During floods, the Fire Crew CM may be exposed to extreme cold, snow, rain and high winds for extended periods under the same work shift conditions identified above. Other disaster or rescue response calls can require that the Fire Crew CM work under unusually adverse conditions for extended periods of time.			

When assigned to an emergency incident, the Fire Crew CM is expected to have the endurance to perform arduous physical tasks in emergency situations throughout the state. The Fire Crew CM may be assigned to the night shift and required to sleep during the day to be ready for the following night shift. Day sleeping due to the times of shift change, combined with high temperature (over 100°F), smoke, dust, and noise, can make it difficult to get rest. Normal regularity of meals is generally impossible in these situations. The Fire Crew CM must always be capable of completing their duties in the above demanding stressful situations.

A Fire Crew CM must have visual acuity (Snellen) of not less than 20/100 without correction in each eye, corrected to not less than 20/30 in one eye. The individual must have color vision adequate to successfully perform the essential functions of the position, as measured by the Ishihara Pseudo-Chromatic Plate Test. A Fire Crew CM requires uncorrected hearing adequacy within speech frequencies. A Fire Crew CM must have full use of both hands and feet. The individual must have the necessary strength and agility required for extensive bending, stooping, and squatting, and must have no more than a mild susceptibility to poison oak. The Fire Crew CM must be able to work in situations with intense heat in addition to being able to tolerate exposure to heavy smoke and dust.

The Fire Crew CM is typically required to engage in psychologically stressful and/or physically demanding activities consistent with firefighting, disaster response, and emergency medical response, including working in isolated areas, walking or running on uneven, rough terrain, and remaining actively engaged in firefighting activities for 24 hours or longer without a break.

When not responding to emergencies, Fire Crew CMs can be assigned to field projects or training which will still require an above average ability to perform physically and mentally demanding activities under extremely adverse conditions in all types of weather and terrain. Additional projects may involve clearing trails; cutting brush; assisting in the maintenance and repair of buildings, grounds, and equipment; inspecting, cleaning and repairing fire hoses and equipment; sharpening fire tools; painting equipment and buildings; performing semi-skilled or laboring construction work; and performing general station housekeeping and kitchen duties.

PSYCHOLOGICAL CONSIDERATIONS FOR ALL CORPSMEMBER POSITIONS

The physical requirements of a CCC Corpsmember vary from day to day depending upon the project, location, and terrain. Corpsmembers must be ready to respond and perform during emergencies (fires, floods, earthquakes, oil spills, etc.) and non-commutable project sites (spike locations). Project sites are primarily outdoors and, as required, a Corpsmember may spend extended periods operating from and living in primitive facilities, sometimes isolated from communities. For the health and safety of the Corpsmembers, they must be able to exercise good judgment and decision-making ability, with or without a reasonable accommodation, on their initial day of enrollment with the CCC.

Sections 1 – 3 outline the physical demands placed on Corpsmembers (those for the Standard Corpsmember are marked with an "S", those for the Fire Crew CM are marked with an "FC", and those common to all CMs are marked with an "S & FC"). All marked items are deemed essential functions of the position. CMs must be ready to perform all essential functions, with or without a reasonable accommodation, on their initial day of enrollment in the CCC. Section 4 outlines the environmental exposures that are common to all CM positions. For the health and safety of the CMs, they must not be overly sensitive to the possible exposures outlined in section 4.
