Appendix C.4 – Example of Partial Exchange Reporting 76
Appendix C.5 – Example of Even Exchange with Penalty 77

1. TMC Daily

The Government shall utilize branch/bridge access and live PNR queue transfer to read and capture standard PNR data (i.e. air, car, and lodging, etc.) and the additional data elements provided by the Contractor. This process is limited to Sabre and/or Worldspan Global Distribution System (GDS).

The Contractor shall:

- Establish auto-queuing in accordance with Section 7 below
  - Queue DoD PNRs upon processing refunds after contract expiration
- Provide additional data elements in accordance with Section 9 below
  - Data required "at the time of booking" shall be entered during the booking/quality control process and prior to end transaction
  - Data required "prior to ticketing" may be entered prior to or at ticketing as long as the data is present in the PNR prior to ending transaction
  - Leave field blank if the data capture requirements aren't applicable
  - Update applicable fields upon processing PNR changes

2. Data Quality

All PNRs will be checked for data quality.

The Contractor shall:

- Establish an email address to receive data quality error notifications
- Submit email address to the COR via email no later than 15 calendar days prior to contract start date
- Receive email containing record locators and description of data errors for records with data errors
- Correct data errors in the Passenger Name Record (PNR)
- Queue place corrected PNR within five business days of notification

3. Customer Number List (DK/CA)

The Contractor shall:

- Provide an Excel spreadsheet no later than 15 calendar days prior to contract start date containing the following:
  - Listing of all DKs/CAs
  - DK/CA descriptive name
  - Traveler type (official, leisure, LICWO, contractor, etc.)
  - Provide the COR with updates to DK/CA listing five business days prior to implementing changes

An example DK/CA list is provided in **Appendix A – DK List**

4. Site Identifier

The Government will assign unique identifiers for each site listed in the "TMC SITE LOCATION LIST" as described in Appendix B – TMC Site Listing. The site ID listing and other site-specific information will be provided to the Contractor within 15 calendar days after award.

The Contractor shall:

Review the site ID listing

- Provide the COR with the final Site ID listing and/or corrections as required no later than 15 calendar days prior to contract start date
- Provide the COR with updates to site ID listing five business days prior to implementing changes
- An example is provided in **Appendix B – TMC Site Listing**.

5. Record Retention

The Contractor shall:

- Ensure that PNRs are retained in the GDS for a minimum of six months after the last date of travel in the PNR.

6. Testing

The Contractor shall:

- Participate in TMC Daily testing no later than seven calendar days prior to contract start date
- Prepare and queue one test PNR for each site PCC
- Test PNRs shall include all additional data reporting elements as required in Section 9

7. Auto-Queuing Instructions

The following GDS features are supported by the Government:

7.1. Sabre

Official Website: **http://www.sabretravelnetwork.com**

Support: **http://eservices.sabre.com**

Feature	Government Supported
Pseudo City Code (PCC)	EZ7C
Processing Type	Web Services
DTMO Queue Assignment	**The queue will be assigned during the implementation process.**
Automated Itinerary Segments Supported	Active/Automated Air, Hotel, Car
Passive itinerary Segments Supported	Passive/Sabre Standard for Air, Hotel & Car
Scans/Hit Charges	All costs for scans and hits are born by the Government
Access Type	Branch

7.1.1. Branch Access

The Contractor shall establish branch access between the above PCC and each of the Contractor's PCCs to view, sweep, and queue place all DoD PNRs. **Queue Placement**

The Contractor shall:

- Utilize Sabre's automated queue drop functionality to queue place all newly created, ticketed, cancelled, refunded or otherwise modified PNRs to a designated queue in the Government's PCC
- Ensure PNR refund data is queued immediately upon processing refunds when the PNR is in queue or when initiating refunds via the Electronic Ticket Record (ETR.)

7.1.2. Passive Segments

The Contractor shall:

- Utilize Sabre standard formats for air, car, and rail
- For lodging, use the following format:

  0HHTAAGK1WASIN10AUG-OUT12AUG/MCMARRIOTT/GOVT/ 89.00USD/ G/SI-[]101MAIN STREET#ARLINGTON VIRGINIA 12345#FONE 800-555-1212/CF-12345678

7.2. Worldspan

Official Website: https://www.travelport.com/
Support: https://www.travelport.com/support

Feature	Government Supported
Subscriber Identifications (SIDs)	OU0
Processing Type	Web Services
DTMO Queue Assignment	**The queue will be assigned during the implementation process.**
Automated Itinerary Segments Supported	Active/Automated Air, Hotel, Car
Passive itinerary Segments Supported	Passive/Worldspan Standard for Air, Hotel & Car
Scans/Hit Charges	All costs for scans and hits are born by the Government. No SID emulation is performed by DTMO to read PNR information.
Access Type	Bridge

7.2.1. Bridge Access

The Contractor shall establish bridge access between the above Government supported SID and each of the Contractor's SIDs to view, sweep, and queue place all DoD PNRs.

7.2.2. Queue Placement

The Contractor shall:

- Utilize Worldspan QTRAC functionality to queue place all newly created, modified, cancelled, and ticketed PNRs to a designated queue in the Government's SID
- Ensure PNR refund data is queued immediately upon processing refunds when the PNR is in queue or when initiating refunds via the Electronic Ticket Record (ETR)

7.2.3. Passive Segments

The Contractor shall:

- Utilize the Worldspan standard format for air, car, and rail
- Process lodging using the following format:

  Manual Entry: HN@MK*MIA25OCT28OCT1/C-QI/H-QUALITY INN/R-A2DRAC/SI-123 MAIN STREET$MIAMI FL12345$PHONE 703-456-9876@/RT-USD 9900/RD-DELUXE ROOM/CF-444444

8. Special Characters

The Government supports the following characters and translations:

9. Instructions for TMC Daily Additional Required Elements

Instructions for TMC Daily Additional Required Elements	
Field ID	**Description**
The following instructions apply to all Additional Required Elements 1. Where the example identifies a segment number, use the PNR level segment numbers (includes non-air segments in numbering). DO NOT use the tickets' flight coupon numbers. Separate each segment remark with a slash ("/"). 2. Where ticket level reporting is required, associate the entry with the final segment of the ticket in question. If multiple tickets are being reported, separate the entries with a slash ("/"). These examples assume two tickets, the final flight coupon of the first ticket is on PNR itinerary segment 2 and the final flight coupon of the second ticket is on PNR itinerary segment 7. **Sabre example: 5.S*UD55-DTMO26-S2*1667.20/S7*100.00** **Worldspan example: 5/DTMO/26-S2*1667.20/S7*100.00**

Instructions for TMC Daily Additional Required Elements	
Field ID	**Description**
	Data Capture Requirements: • All PNRs with air, bus, rail and water reservations • All air and rail segments • Prior to ticketing

Code	Description
F	**First Class** Generally the highest class of accommodation offered by the airlines in terms of cost and amenities and termed "first class" by the airlines and reservation systems.
B	**Business Class** A premium class of accommodation offered by the airlines that is generally higher than coach and lower than first class in both cost and amenities.
C	**Coach** The basic class of accommodations offered to travelers regardless of fare paid. Also referred to as "tourist" or "economy class".
H	**Charter** Negotiated rate to lease an aircraft or other mode of transport such as bus for the use of a group.

Data Entry Format Examples (S1 First, S2 Coach, S3 First, S4 Coach)**:**

Sabre	5.S*UD55-DTMO1- S1*F/S2*C/S3*F/S4*C
Worldspan	5/DTMO/1-S1*F/S2*C/S3*F/S4*C

2

<u>REASON CODE FOR OTHER THAN ECONOMY/COACH CLASS TRANSPORTATION (OTECCT)</u>

Enter code from the table below.

Data Capture Requirements:

- All PNRs with OTECCT reservations
- All OTECCT segments
- At time of booking for reason codes N and O below
- Prior to ticketing for all other reason codes

Code	Description
A	Lower Class Not Available in Time
B	Medical

Instructions for TMC Daily Additional Required Elements	
Field ID	**Description**

C	Security
D	Mission
E	Only first class provided (if highest class of service is First)/Only business class provided (if highest class of service is Business)
F	Non-Federal funding source (must be used in conjunction with A - E)
G	Congressional Travel (must be used in conjunction with A - E)
H	(Business Class Only) Foreign flag coach not adequate
I	(Business Class Only) Over 14 hours
J	(Business Class Only) Required by foreign government regulations, MOU/MOA/SOFA
K	(Business Class Only) Use of business class results in an overall savings on the trip
L	Traveler used a frequent flyer upgrade to pay the difference between YCA/lowest unrestricted coach fare and premium class travel
M	Traveler self-paid (e.g. Leisure, LICWO, Contractor Travel, etc.)
N	Premium class is lower than YCA and/or lower than lowest unrestricted coach fare (e.g. GDS auto-priced premium as the lowest applicable unrestricted fare)
O	Airline automatic upgrade (e.g. “UP” fares)

Data Entry Format Examples (Segments 1 & 3 are OTECCT due to medical)**:**

Sabre	5.S*UD55-DTMO2-S1*B/S3*B
Worldspan	5/DTMO/2-S1*B/S3*B

3

COMPARISON FARE

Enter the comparison fare in accordance with the instructions below.

Data Capture Requirements:

- All PNRs with OTECCT reservations
  - Ticket level
- Enter comparison fare in the last segment associated with each stored fare
- At the time of booking

Example #1:

Booked/Ticketed Fare

17	TRAINING (DTS Trip Purpose)

Data Entry Format Examples (travel purpose is training):

Sabre	5.S*UD55-DTMO12-2
Worldspan	5/DTMO/12-2

LRP (Law, Regulation, or Policy):

JTR Chapter 3 Part A-E

13

TRAVELER'S GOVERNMENT E-MAIL ADDRESS

Provide the traveler's Government e-mail address.

Data Capture Requirements:

- Applicable to CTO/TMC created PNRs with air or rail reservations and CTO/TMC assist PNRs where the TMC assists in booking air or rail segments.
- PNR level
- Prior to ticketing

Data Entry Format Examples:

Sabre	5.S*UD55-DTMO13-joe.c.traveler.mil@mail.mil
Worldspan	5/DTMO/13-joe.c.traveler.mil@mail.mil

14

SITE IDENTIFIER

Provide the government assigned Site Identifier.

Data Capture Requirements:

<table>
<tr><th colspan="2">Instructions for TMC Daily Additional Required Elements</th></tr>
<tr><th>Field ID</th><th>Description</th></tr>
<tr><td></td><td>

All PNRs
PNR level
At booking

Data Entry Format Examples:

</table>
</td></tr>
<tr><td>15</td><td>
<u>USE/NON-USE OF CONTRACT AIR</u>
Enter reason code from the table below.

Data Capture Requirements:

Applicable to all PNRs with air reservations
All air segments
Prior to ticketing

Note: DTS passes the applicable reason code in the PNR W (Air) Remarks Field.
<table>
<tr><th>Code</th><th>Description</th></tr>
<tr><td>C0</td><td>Contract Fare Used</td></tr>
<tr><td>A</td><td>Space on a scheduled contract flight is not available in time to accomplish the purpose of your travel, or use of contract service would require you to incur unnecessary overnight lodging costs which would increase the total cost of the trip</td></tr>
<tr><td>B</td><td>The contractor's flight schedule is inconsistent with explicit policies of your Federal department or agency with regard to scheduling travel during normal working hours</td></tr>
<tr><td>C</td><td>A non-contract carrier offers a lower fare to the general public that, if used, will result in a lower total trip cost to the Government (the combined costs of transportation, lodging, meals, and related expenses considered);
Note to paragraph (c): This exception does not apply if the contract carrier offers the same or lower fare and has seats available at that fare, or if the fare offered by the non-contract carrier is restricted to Government and military travelers performing official business and may be purchased only with a contractor-issued charge card, centrally billed account (e.g., YDG, MDG, QDG, VDG, and similar fares) or GTR where the two previous options are not available.</td></tr>
<tr><td>D</td><td>Cost effective rail service is available and is consistent with mission requirements</td></tr>
</table>
</td></tr>
</table>

Instructions for TMC Daily Additional Required Elements	
Field ID	**Description**

E	Smoking is permitted on the contract air carrier and the nonsmoking section of the contract aircraft is not acceptable to you
F	Any group of 10 or more passengers traveling together on the same day, on the same flight, for the same mission, requiring group integrity and identified as a group by the travel management service upon booking is not a mandatory user of the Government's contract city-pair fares. For group travel, agencies are expected to obtain air passenger transportation service that is practical and cost effective to the Government.
G	If the Government contract city-pair carrier offers a lower cost capacity-controlled coach class contract fare (MCA, QCA, VCA, etc.) in addition to the unrestricted coach class contract fares (YCA), the traveler should use the lower cost capacity-controlled fare when it is available and meet mission needs.
H1	Traveler refused contract fare because: Airport specified.
H2	Traveler refused contract fare because: Carrier specified.
H3	Traveler refused contract fare because: Routing specified.
H4	Traveler refused contract fare because: Time specified.
H5	Traveler refused contract fare because: Personal reasons.
I	No cost ticket (e.g., Frequent Flyer).
J	FMS.
K	No contract fare in market.

Data Entry Format Examples (contract carrier used for all four air segments)**:**

RANK/GRADE OF TRAVELER

Enter the traveler's military rank or civilian grade code from the table below.

Data Capture Requirements:

- Applicable to CTO/TMC created PNRs with air or rail reservations and CTO/TMC assist PNRs and DTS PNRs with OTECCT segment(s).Ticket level
- Prior to ticketing

DTS passes the traveler's rank/grade in the PNR (P) Remarks field.

Code	Description
E1 – E9	Military Enlisted
O1 – O9	Military Officer

GS1 – GS15	General Schedule (GS) Employees
SES1 – SES3	Senior Executive Service
CWO	Chief Warrant Officer
NG	Non-Government Traveler
TPC	DoDEA overseas educators and administrators in the Teaching Position (TP) pay plan – Civilian
TPM	DoDEA overseas educators and administrators in the Teaching Position (TP) pay plan – Military Member
WGC	Special craft workers in WG pay plan - Civilian
WGM	Special craft workers in WG pay plan – Military Members
WLC	Special craft leaders in WG pay plan – Civilian
WLM	Special craft leaders in WG pay plan – Military Members
WSC	Special craft supervisors in WG pay plan – Civilian
WSM	Special craft supervisors in WG pay plan – Military Members

Data Entry Format Examples (Traveler's rank is O2):

Sabre	5.S*UD55-DTMO30-O2
Worldspan	5/DTMO/30-O2

31

TRAVELER TYPE

Enter the code from the table below.

Data Capture Requirements:

- Applicable to CTO/TMC created PNRs with air, rail, or bus reservations and CTO/TMC assist PNRs where the TMC assists in booking air, rail, or bus segments.
- Ticket level
- Prior to ticketing

DTS passes the traveler's rank/grade in the PNR (P) Remarks field.

Code	Description
A	Accession Travel (Recruit)
C	Civilian Government Employee
D	Dependent of Military Officer

		E	Military Enlisted	
		F	Prisoner	
		G	Dependent of Military Enlisted	
		H	Dependent of Civilian Employee	
		I	Invitational	
		K	Contractor/Cost Charge Travel	
		L	Leisure / LICWO / Unofficial Travel	

O	Military Officer
P	Dependent Student
R	Human Remains
S	Sponsor
T	Team Travel - A movement of 10 or more personnel traveling as a group under the same orders, from the same origin to the same destination
W	Warrant Officer

Data Entry Format Examples (traveler is a Military Officer):

Sabre	5.S*UD55-DTMO31-O
Worldspan	5/DTMO/31-O

32

ORIGIN/DESTINATION (O/D) INDICATOR

Enter the code in accordance with the instructions below.

Data Capture Requirements:

- All PNRs with air, rail, and bus reservations
- All air, rail, and bus segments
- Enter "D" if the segment is for travel between the O/D with no connections.
- For multiple segments/connections for travel between the O/D
  - Enter "T" in the outbound/connecting segments preceding the destination
  - Enter "D" in the destination segment
- Prior to ticketing

Example:
Outbound - O/D is DCA to TUS with connections in ATL and DFW.
Return - O/D is TUS to DCA with connection in ATL.

Segment	Travel Date	Start	Finish	Fare Basis	O/D Destination Indicator
01	30SEP	DCA	ATL	KCADCA	T
02	30SEP	ATL	DFW	LCA	T
03	30SEP	DFW	TUS	HCA	D
04	14JAN	TUS	ATL	YCA	T
05	14JAN	ATL	DCA	YCA	D

Data Entry Format Examples (based on the example above):

Sabre	5.S*UD55-DTMO32-S1*T/S2*T/S3*D/S4*T/S5*D
Worldspan	5/DTMO/32-S1*T/S2*T/S3*D/S4*T/S5*D

33

RESTRICTED FARE REFUSAL

Enter the amount of the restricted fare that was offered but declined by the traveler in accordance with the instructions below.

Data Capture Requirements:

- Ticket level
- Enter the declined fare inclusive of taxes and fees
- At the time of booking
- Applicable to CTO/TMC created PNRs with air or rail reservations and CTO/TMC assist PNR with air or rail reservations where a restricted fare was available and declined by the traveler
- Any savings compared to the lowest unrestricted fare in non-contract markets

Note: In markets where a US flag carrier is available, a foreign flag carrier offering a lower fare may not be used as the comparison regardless of savings.

Data Entry Format Examples:(based on the example above):

Sabre	5.S*UD55-DTMO33-500.00
Worldspan	5/DTMO/33- 500.00

34

This field is not used.

35

TMC TICKET TRANSACTION TYPE

Enter code from the table below.

Data Capture Requirements:

- Applicable to all PNRs with an air or rail reservation
- Enter the code in the last segment of the ticket
- Prior to ticketing

Code	Description
N	Original Ticket • Initial reporting of sale of ticket/segment(s)
E	Exchange Ticket • Value of original ticket/segment(s) being exchanged for a new ticket • Applies to the original ticket/segment(s) being exchanged, not the new ticket being issued
R	Refund • Refunded ticket/segment(s) other than an exchange with refund
S	Reissued Ticket

			• Original ticket/segment(s) is (are) refunded and a new ticket is issued • Applies to the new ticket being issued, not the original ticket/segments(s) being refunded

Data Entry Format Examples (new issued ticket with four segments):

Sabre	5.S*UD55-DTMO35- S4*N
Worldspan	5/DTMO/35-S4*N

36 **<u>This field is not used.</u>**

37 **<u>COUNT OF BUS PASSENGERS</u>**

- If individual traveler, enter 1
- If charter, enter the total number of bus passengers

Data Capture Requirements:

- All PNRs with bus reservations
- All bus segments

Data Entry Format Examples (example of charter with 26 passengers):

Sabre	5.S*UD55-DTMO37-S1*26
Worldspan	5/DTMO/37- S1*26

38 **<u>TRANSACTION FEE NUMBER</u>**

Enter transaction fee number

Data Capture Requirements:

- All PNRs where a point of sale transaction fee has been charged
- Upon fee issuance and prior to end transaction

Report at ticket level

Data Entry Format Examples (assumes 2 PAX/2 fees)

Sabre	5.S*UD55-DTMO38-S4*8901234567890/S8*8901234567891
Worldspan	5/DTMO/38-S4*8901234567890/S8*8901234567891

39 **<u>TRANSACTION FEE COST</u>**

Enter the transaction fee amount.

Data Capture Requirements:

- All PNRs where a point of sale transaction fee has been charged
- Upon fee issuance and prior to end transaction

Report at ticket level

Data Entry Format Examples (assumes 2 PAX/2 fees)

Enter code from the table below.

Data Capture Requirements:

- All PNRs where a point of sale transaction fee has been charged and if entered "CA" (TMC Assist) or "CR" (TMC Assist Non-Air/Rail) in **FIELD 40 TRANSACTION FEE TYPE** Upon fee issuance and prior to end transaction

Report at ticket level

Code	Description
A	Traveler Requested Assistance via DTS (does not apply to reservations that cannot be booked/ticketed in the contractor's chosen GDS but can be in another GDS).
B	Traveler/Government Representative requested assistance via phone, email, fax, or in person, resulting in the TMC's modifying the DTS PNR.
C	Industry Driven (e.g. TSA Secure Flight Data not passed to DTS PNR)
D	COR Initiated (e.g. temporary workarounds due to DTS system problem as specified in the PWS)

E	Government Travel Charge Card Declined (may only be used with RESERVATION TYPE 1(Air) or 2 (Rail)
T	TMC assist PNR (reservations made as a result of a request made in person, or via phone, email, or fax.)
TR	TMC assist PNR (arranged through Transportation Office)

Data Entry Format Examples (assumes 2 PAX/2 fees)

Sabre	5.S*UD55-DTMO42-S4*A/S8*A
Worldspan	5/DTMO/42-S4*A/S8*A

10. Other than Economy/Coach Class Transportation (OTECCT) Validation

The Contractor shall support the Government's validation process for all OTECCT by taking the following actions:

- Receive records containing OTECCT segments via email to the address designated by the Contractor
- Review records for completeness and accuracy
- Correct missing and erroneous data via the PNR as required

OTECCT Validation analysis shall be submitted to the Government five business days after receipt of the email.

11. Instructions for TMC Monthly File

11.1. General File Preparation and Submission Instructions

The Contractor shall:

- Provide data on all travel arrangements to include, but not limited to, air, rail, bus, rental vehicle, and lodging arrangements
- Provide a single file per contract
- Provide files for all tickets/invoices issued during the reporting period
- Reporting period is the 1st calendar day of the month through the last calendar day of the month
- Where ticket level reporting is required, associate the entry with the final segment of the ticket in question.
- Report travel at the segment level.
- Use the PNR level segment numbers (includes non-air segments in numbering). DO NOT use the tickets' flight coupon numbers.
- Report transaction fee data on the final segment of the ticket to which the fee applies.
- Report all tickets issued (original issues, voids, refunds, exchanges, and reissues)
- Left justify values that do not fill the entire field length, do not front fill with a zero(s) (except as noted)
- Provide files for six months after contract expiration to capture updates or refunds
- Use the following file naming convention:
    - V09_YYYYMM_###_CONTRACTOR_NAME.TXT
        - V09 is an internal format identifier used by the DTMO.
        - YYYY is the four-digit calendar year
        - MM format is the two-digit month. If the reporting month is January through September, front fill the month with a zero e.g. 01 represents January.
        - ### is a unique reference number that the Government will provide after contract award. If the reference number contains fewer than 3 digits, front fill with zeros.
        - Example: ABC Travel's file for activity ticketed/invoiced in October 2020 with a contract ID of 23 would be named V09_202010_023_ABC TRAVEL.TXT
    - **Note**: Erroneously named files may be rejected and considered undelivered

- Submit data files via the DTMO's Secure Communications Portal (SCP)
- Register authorized personnel for access to the SCP at: https://www.defensetravel.dod.mil/Passport
- Direct questions regarding access, instructions formatting, and transmissions to: dodhra.mc-alex.dtmo.mbx.CTIM@mail.mil

11.2. File Processing Reports (FPR) and data corrections

The Contractor shall:

- Receive one FPR for each CTIM file and each CTIM corrections file submitted
- Receive FPRs via the Contractor's designated email address
- The FPR will provide data quality statistics and instructions for correcting errors (if applicable)
- If the FPR reflects data errors, the Contractor shall access the "Error Reports" folder, which is located on the SCP site, to obtain details regarding the files in error
- Two files will be found at the SCP error folder
    - A file named ####_##_#####_issues.xlsx, which itemized the specific error(s) found on each rejected record. ####_##_#####_refers to the reporting year (calendar), reporting month, and a unique sequence number assigned to the file upon download
    - A file named ####_##_#####_records.txt, which is an extract of the original file submitted by the TMC, containing only the failed records. ####_##_#####_refers to the reporting year(calendar), reporting month, and a unique sequence number assigned to the file upon download
- Correct the errors in the ####_##_#####_records.txt file
- Rename the corrections file as instructed in the FPR
- Submit the corrected files via the SCP no later than the date noted in the FPR; the Contractor will always be given a minimum of 7 calendar days to prepare and return the corrected file.

11.3. TMC Monthly File Format

The TMC Monthly file will be prepared as a fixed-width text file. No field delimiter should be used. No header or footer row should be used.

TMC Monthly File Format			
Field	**Position**	**Length**	**Field Name/Description**
1	**1 to 20**	**20**	**SEGMENT UID** A unique ID assigned by the TMC that will identify a single travel segment in the database. This values to be used to populate this field will be defined by the TMC with the following considerations: • The UID will be unique and assigned at the travel segment level. • If TMC has multiple contracts, the number will not be repeated under other contracts. • The field is alpha/numeric with no special characters. • All alpha characters will be recorded as upper case in our database ("ABC" will be equivalent to "abc"). Do not use upper/lower case to differentiate between UIDs. • The ID used when a segment is first reported will be used for any future reporting of the same ticket and segment in the same or future files (e.g., update/correction or refund) • When choosing a method for determining a unique ID, the Contractor shall ensure the ID is not based on fields within the record itself. If a record needs to be resubmitted, these fields may change.
2	**21 to 28**	**8**	**PREPARING OFFICE** Enter the International Air Transport Association (IATA) code of the ticketing office. **Data Capture Requirements:** • All PNRs
3	**29 to 36**	**8**	**TRANSPORTATION CHARGES** Enter base fare for each leg/segment using the linear fare construction from the GDS pricing for air and rail. For bus transportation, enter the base fare provided by the bus carrier. **Data Capture Requirements:** • All PNRs with air, bus, rail, and water reservations • All air, bus, rail, and water segments

<table>
<tr><th colspan="4">TMC Monthly File Format</th></tr>
<tr><th>Field</th><th>Position</th><th>Length</th><th>Field Name/Description</th></tr>
<tr><td></td><td></td><td></td><td>

In USD with two decimals
Enter positive numbers for refunds
For through fares:

Enter base fare in the last segment of the ticket
Enter 0.00 for preceding segments of the ticket

For ticket exchanges:

Original ticket, enter the value of segment(s) being exchanged
New ticket, enter the value of the segments, not the add/collect or refund amount

See Appendix C for various exchange transactions reporting scenarios.
Example – Air Transaction:
<table>
<tr><th>Fare Basis</th><th>Origin</th><th>Destination</th><th>Trans. Charges</th><th>O/D</th></tr>
<tr><td>YDGDCA</td><td>DCA</td><td>ORD</td><td>504.19</td><td>X</td></tr>

Applicable to all PNRs with air reservations
All air segments

Note:
DTS passes the applicable reason code in the PNR W (Air) Remarks Field.
<table>
<tr><th>Code</th><th>Description</th></tr>
<tr><td>C0</td><td>Contract Fare Used</td></tr>
<tr><td>A</td><td>Space on a scheduled contract flight is not available in time to accomplish the purpose of your travel, or use of contract service would require you to incur unnecessary overnight lodging costs which would increase the total cost of the trip</td></tr>
</table>
</td></tr>
</table>

TMC Monthly File Format				
Field	**Position**	**Length**	**Field Name/Description**	
			B	The contractor's flight schedule is inconsistent with explicit policies of your Federal department or agency with regard to scheduling travel during normal working hours
			C	A non-contract carrier offers a lower fare to the general public that, if used, will result in a lower total trip cost to the Government (the combined costs of transportation, lodging, meals, and related expenses considered); Note to paragraph (c): This exception does not apply if the contract carrier offers the same or lower fare and has seats available at that fare, or if the fare offered by the non-contract carrier is restricted to Government and military travelers performing official business and may be purchased only with a contractor-issued charge card, centrally billed account (e.g., YDG, MDG, QDG, VDG, and similar fares) or GTR where the two previous options are not available.
			D	Cost effective rail service is available and is consistent with mission requirements
			E	Smoking is permitted on the contract air carrier and the nonsmoking section of the contract aircraft is not acceptable to you
			F	Any group of 10 or more passengers traveling together on the same day, on the same flight, for the same mission, requiring group integrity and identified as a group by the travel management service upon booking is not a mandatory user of the Government's contract city-pair fares. For group travel, agencies are expected to obtain air passenger transportation service that is practical and cost effective to the Government.
			G	If the Government contract city-pair carrier offers a lower cost capacity-controlled coach class contract fare (MCA, QCA, VCA, etc.) in addition to the unrestricted coach class contract fares (YCA), the traveler should use the

Appendix C – Exchange Ticket Scenarios for Contractor Monthly Data File Reporting

Exchange transactions shall be reported in two parts:

- Part One - Report exchange of original ticket for new ticket
- Part Two - Report sale of new ticket.

All parts of the exchange transaction shall be populated with the full value of the segments; do not report the difference between the two tickets (the add/collect or refund amount).

Appendix C.1 – Example of Even Exchange Reporting

To conserve space, this example uses only 3 digits of the ticket numbers. The TMC shall report the full 13 digit ticket numbers. Ticket numbers and UIC are notional and reference this example only.

Ticket ABC is issued at $250.00

Passenger changes departure date; ticket ABC is exchanged for ticket XYZ with new travel date. The new ticket is also valued at $250.00.

ACTION	TKT COST	UIC	TICKET NUMBER	SEG. SEQ. DESG.	TMC TICKET TRANS TYPE	TICKET DATE	EXCHANGE DATE	EXCHANGE NUMBER
Ticket ABC is issued	250.00	123456	ABC	A	N	15MAR2020		
Ticket ABC is exchanged for ticket XYZ	250.00	123456	ABC	A	E	15MAR2020	20APR2020	XYZ
Ticket XYZ is issued	250.00	123457	XYZ	A	N	20APR2020		ABC

Appendix C.2 – Example of Exchange with Add Collect Reporting

To conserve space, this example uses only 3 digits of the ticket numbers. The TMC shall report the full 13 digit ticket numbers. Ticket numbers and UIC are notional and reference this example only.

Sale of ticket ABC with one coupon valued at $250.00

Exchange of ticket ABC for ticket XYZ with two coupons valued at $175.00 each

ACTION	TKT COST	UIC	TICKET NUMBER	SEG. SEQ. DESG.	TMC TICKET TRANS TYPE	TICKET DATE	EXCHANGE DATE	EXCHANGE NUMBER
Ticket ABC is issued	250.00	123456	ABC	A	N	15MAR2020		
Ticket ABC is exchanged for ticket XYZ	250.00	123456	ABC	A	E	15MAR2020	20APR2020	XYZ
